Sincerely,

Advice 4745-E
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Newark-Milpitas 115 kV #2 Power Line Relocation Project in the City of Milpitas, County of Santa Clara

Pacific Gas and Electric Company (“PG&E” or “the Company”) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

The developer of Milpitas Station has requested PG&E to relocate approximately 770 feet of the existing Newark-Milpitas 115 Kilovolt (kV) #2 Power Line along South Milpitas Boulevard in Milpitas (minor relocation). PG&E will move the existing line, supported by three wood poles, from the west side of the street to the east side of the street, supported by four wood poles. The relocation begins just outside of PG&E’s Milpitas Substation, located approximately 970 feet north of the intersection of South Milpitas Boulevard and Montague Expressway, and continues south for approximately 770 feet. Pole heights will increase from approximately 75 feet tall to approximately 91 feet tall to comply with CPUC General Order 95 minimum ground-to-conductor clearance requirements. Construction is tentatively scheduled for late 2015, or as soon as project plans and approvals are in place.

CPUC General Order 131-D, Section III, Subsection B.1, exempts projects meeting specific conditions from the CPUC’s requirement to file an application
requesting authority to construct. The Company believes this project qualifies for the following exemption(s),

c. “the minor relocation of existing power line facilities up to 2,000 feet in length, or the interseting of additional support structures between existing support structures.”

This filing will not cause the withdrawal of service, or conflict with any other rate schedule or rule.

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by December 14, 2015, which is 21 days\(^1\) after the date of this filing. Protests should be mailed to the following address:
