SUBJECT: Submits Notice of Construction, Pursuant to G.O. 131-D, for the Construction of Coleman-Redbluff 60 kV Power Line Relocation Project in the County of Tehama

Dear Mr. Jacobson:

Advice Letter 4758-E is effective as of January 14, 2016.

Sincerely,

Director, Energy Division

Advice 4758-E
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Coleman-Redbluff 60 kV Power Line Relocation Project in the County of Tehama

Pacific Gas and Electric Company (“PG&E” or “the Company”) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

PG&E plans to relocate an approximately 350-foot segment of the Coleman-Redbluff 60 kV Power Line in rural Tehama County in order to replace one deteriorating wood pole with a new tubular steel pole. The existing approximately 50-foot-tall wood pole is located within Vina Substation on the south side of Vina Road, approximately 1,350 feet east of Highway 99. To comply with PG&E substation design standards requiring replaced wood poles to be located outside of the substation fence line, PG&E will install the new approximately 71-foot-tall tubular steel pole approximately 13 feet to the north of the existing pole, just outside of the substation along Vina Road. The taller pole is needed to maintain phase separation and provide sufficient clearance between the power line and the substation equipment. Construction is tentatively scheduled to begin in April 2016, or as soon as project plans and approvals are in place. Construction is scheduled to be complete in May 2016, or as soon as possible after construction begins.
CPUC General Order 131-D, Section III, Subsection B.1, exempts projects meeting specific conditions from the CPUC’s requirement to file an application requesting authority to construct. The Company believes this project qualifies for the following exemption(s),

c. “the minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures.”

This filing will not cause the withdrawal of service, or conflict with any other rate schedule or rule.

**Protests**

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by January 4, 2016, which is 20 days after the date of this filing. Protests should be mailed to the following address:
