**Advice 3314-G-A/4073-E-A**

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

**Subject: Supplemental: Request for Exception under General Order 96-B Section 8.2.3 for the County of Sonoma, Department of General Services, to Retain Their Self Generation Incentive Program Incentive**

**Purpose**

On June 26, 2012, Pacific Gas and Electric Company (PG&E) filed Advice 3314-G/4073-E as a Tier 3 Advice Letter. This supplemental advice letter is being submitted to replace previously submitted Advice 3314-G/4073-E in its entirety and change the originally submitted Tier 3 designation to a Tier 1 under General Order 96-B section 8.2.3. PG&E has also included limited clarifications to its explanation for the request.

PG&E hereby requests an exception under General Order 96-B section 8.2.3 to allow the County of Sonoma, Department of General Services, to retain their Self Generation Incentive Program (SGIP) incentive and also participate in the Assembly Bill 1613 feed-in-tariff program ("AB 1613 Program") with PG&E for its fuel cell generator located at 2860 Ventura Ave (Main Campus) Santa Rosa, CA 95403. PG&E seeks this exception since the County of Sonoma generator is sized within the limits established for new SGIP generators permitted to participate in the AB1613 Program, but does not meet the requirements since it participated in SGIP prior to 2011.

**Background**

In December of 2009, the County of Sonoma, Department of General Services applied and was granted a Reservation under the 2009 SGIP for the installation of a 1400 kW Non-Renewable Fuel Cell. The completed project received a site inspection in January 2011, and an incentive was paid to the County of Sonoma in the amount of \$3,000,000. Under the rules established in the 2009 SGIP Handbook, a customer who applied at that time could size their system up to 100% of the customer's highest previous 12

month annual *peak* demand at the proposed site (2009 SGIP Handbook section 2.5.6.2). The requirements in 2009 also deemed any Host Customer served by an onsite generator (or generators) that exported and sold power as ineligible for the program (2009 SGIP Handbook Section 2.2). These rules regarding sizing and sale of exports were revised starting in the 2011 SGIP Handbook pursuant to Decision (D.) 11-09-015. Under these revised SGIP rules, systems that will be exporting power to the grid are allowed to size projects up to 125% of the last twelve months of electrical consumption at the site and the incentivized capacity of the generator will be based on 100% of the last twelve months of electrical consumption at the site (determined by dividing the annual electric consumption at the site (in kWh) by 8760 and the expected capacity factor of the technology 80%). (2012 Handbook and Forms Section 9.2.5)

Since the County of Sonoma's application for SGIP was received and processed according to the 2009 rules, the County is currently unable to both receive an SGIP incentive and participate in the AB 1613 Program, as would a similarly-situated customer under the currently-effective 2012 rules.

**Proposed Exception:**

PG&E respectfully requests an exception permitting the County of Sonoma to participate in the AB 1613 Program for this 1,400 kW fuel cell despite having received an SGIP incentive under the 2009 rules. PG&E believes it is both fair to the Customer (Sonoma County) and consistent with Commission policy currently in place for new SGIP projects as set out in the 2012 SGIP Handbook.

The County of Sonoma meets the current 125% sizing requirement under the current SGIP based on the supporting billing data received in 2009 (at the time of SGIP application). The County of Sonoma's historic 12 month energy use was 9,792,904 kWh and the expected output of the Fuel Cell installed was 9,811,200 kWh (based on guidelines for determining output as defined in D. 11-09-015). This places the customer well under the 125% limitation established in 2011 for SGIP customers wishing to also participate in the AB1613 Program. Given these circumstances, if the County of Sonoma, or any other customer, were to apply for this arrangement today, PG&E would provide it to them under its current rules.

Based on the information outlined above it is fair and reasonable to allow the County of Sonoma to retain their SGIP incentive for the 1400 kW Fuel Cell project and also participate in the AB 1613 program.

**Exception Provision for Government Agencies:**

As outlined in General Order 96-B section 8.2.3: "At all times, a utility other than a telephone corporation may provide service (other than resale service) to a government agency for free, or at reduced rates and charges, or under terms and conditions otherwise deviating from its tariffs then in effect. The utility may begin such service

without prior Commission approval, but the utility shall promptly submit an advice letter to the appropriate Industry Division to notify the Commission of the utility's provision of such service and of the rates, charges, terms and conditions under which the service is provided. Although the advice letter may be effective pending disposition under General Rule 7.5.3, the Commission may determine, in an appropriate proceeding, the reasonableness of such service." PG&E believes the exception request for the County of Sonoma outlined above is consistent with this provision of General Order 96-B.

### **Protests**

Pursuant to General Order 96-B Section 7.5.1, due to the limited nature of this supplemental advice letter, PG&E requests the original protest period not be extended.

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than **July 16, 2012**, which is 5 days after the date of this filing. Protests should be mailed to:

CPUC Energy Division  
Tariff Files, Room 4005  
DMS Branch  
505 Van Ness Avenue  
San Francisco, California 94102

Facsimile: (415) 703-2200  
E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

Brian K. Cherry  
Vice President, Regulatory Relations  
Pacific Gas and Electric Company  
77 Beale Street, Mail Code B10C  
P.O. Box 770000  
San Francisco, California 94177

Facsimile: (415) 973-7226  
E-mail: PGETariffs@pge.com

**Effective Date**

PG&E requests that this Tier 1 supplemental advice filing become effective pending disposition on the date of filing, **July 11, 2012**.

**Notice**

In accordance with General Order 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list and the parties on the service list for R.10-05-004. Address changes to the General Order 96-B service list should be directed to PG&E at email address PGETariffs@pge.com. For changes to any other service list, please contact the Commission's Process Office at (415) 703-2021 or at Process\_Office@cpuc.ca.gov. Send all electronic approvals to PGETariffs@pge.com. Advice letter filings can also be accessed electronically at: <http://www.pge.com/tariffs>

## ADVICE LETTER FILING SUMMARY ENERGY UTILITY

MUST BE COMPLETED BY UTILITY (Attach additional pages as needed)

Company name/CPUC Utility No. **Pacific Gas and Electric Company (ID U39 M)**

Utility type:

ELC       GAS  
 PLC       HEAT       WATER

Contact Person: Kimberly Chang

Phone #: (415) 972-5472

E-mail: kwcc@pge.com

EXPLANATION OF UTILITY TYPE

ELC = Electric      GAS = Gas  
PLC = Pipeline      HEAT = Heat      WATER = Water

(Date Filed/ Received Stamp by CPUC)

Advice Letter (AL) #: **3314-G-A/4073-E-A**

Tier: **1**

Subject of AL: **Supplemental: Request for Exception under General Order 96-B Section 8.2.3 for the County of Sonoma, Department of General Services, to Retain their Self Generation Incentive Program Incentive**

Keywords (choose from CPUC listing): Self Generation

AL filing type:  Monthly  Quarterly  Annual  One-Time  Other \_\_\_\_\_

If AL filed in compliance with a Commission order, indicate relevant Decision/Resolution #: N/A

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL: \_\_\_\_\_

Is AL requesting confidential treatment? If so, what information is the utility seeking confidential treatment for:

Confidential information will be made available to those who have executed a nondisclosure agreement:  Yes  No

Name(s) and contact information of the person(s) who will provide the nondisclosure agreement and access to the confidential information: \_\_\_\_\_

Resolution Required?  Yes  No

Requested effective date: **July 11, 2012**

No. of tariff sheets: N/A

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed: N/A

Pending advice letters that revise the same tariff sheets: N/A

Protests, dispositions, and all other correspondence regarding this AL are due no later than 20 days after the date of this filing, unless otherwise authorized by the Commission, and shall be sent to:
