Advice 3505-G

(Pacific Gas and Electric Company ID U39G)

Public Utilities Commission of the State of California

Subject: September 1, 2014 Gas Core Procurement and 2014 General Rate Case Decision 14-08-032 Gas Transportation Rate Changes

Pacific Gas and Electric Company ("PG&E") hereby submits for filing, revisions to its gas tariffs. The affected tariff sheets are included in Attachment I to this filing.

Purpose

The purpose of this filing is to submit changes to PG&E's core end-use customer gas rates effective **September 1, 2014**. Specifically, this filing:

1. Revises PG&E's gas procurement rates for core customers.
2. Revises core gas transportation rates in compliance with PG&E's 2014 General Rate Case (GRC) Decision (D.) 14-08-032. Noncore end-use transportation rates effective September 1, 2014, are being filed in Advice 3506-G to incorporate rate revisions adopted in D. 14-08-032.
3. Revises allowances for franchise fees and uncollectible accounts expense, effective January 1, 2014. The core transportation rates included in this filing incorporate the changes authorized in D. 14-08-032.

This filing is submitted in compliance with D. 97-10-065, which approved monthly changes for gas procurement rates for core customers. Consistent with D. 98-07-025, PG&E's core procurement rates changes are made effective no later than the fifth business day of the month.¹

Procurement Rate Changes

PG&E is revising the gas procurement charges shown on core end-use customer Schedules G-1, G1-NGV, GM, GS, GT, GL-1, GL1-NGV, GML, GSL, GTL, G-NR1,

¹ See D. 98-07-025, Ordering Paragraph 2.

G-NR2, G-NGV1, G-NGV2 and G-CP—*Gas Procurement Service to Core End-Use Customers*. The procurement charges shown on Schedule G-CP are for illustrative purposes only and are the same as those shown on the end-use customer schedules. The gas procurement rate varies by rate schedule due to the allocation of capacity charges and winter gas savings program costs to the core customer classes.

Schedule G-CP procurement charges proposed in this filing are shown below:

	Residential (G-1, GM, GS, GT, GL-1, GML, GSL, GTL)	Residential (G1-NGV, GL1-NGV)	Small Commercial (G-NR1)	Large Commercial (G-NR2)	Natural Gas Vehicles (G-NGV1/2)
Schedule G-CP Procurement Charge (\$/therm)	\$0.62347	\$0.60016	\$0.60452	\$0.57208	\$0.57532

The Schedule G-CP rates effective **September 1, 2014**, reflect:

1. A monthly weighted average cost of gas (“WACOG”) of \$0.38929 per therm, compared to last month’s WACOG of \$0.38527 per therm;
2. A charge of \$0.09364 per therm to amortize over 1 month a \$9.5 million under-collection in the Core Sales subaccount of the Purchased Gas Account (“PGA”). In addition, for the residential, small commercial and large commercial classes, the following amounts are included to true-up the 2013 bill credits versus 2013 revenues by class for the Procurement-related portion of the Winter Gas Savings Program (WGSP): a charge of \$0.00254 per therm for residential, a credit of \$0.00113 per therm for small commercial, and a credit of \$0.00511 per therm for large commercial customers to collect a \$4.0 million under-collection in the Winter Gas Savings program;
3. A charge of \$0.00622 per therm to amortize over 1 month a \$631 thousand under-collection in the Core Shrinkage subaccount of the PGA;
4. A charge of \$0.00261 per therm to amortize over 12 months a \$5.7 million under-collection in the Core Firm Storage Account; and
5. A charge of \$0.01382 per therm to amortize over 12 months a \$30.2 million under-collection in the Core Pipeline Demand Charge Account.

2014 GRC Gas Core Transportation Rate Changes

Background

On November 15, 2012, PG&E filed its 2014 GRC Application 12-11-009. In the application, PG&E proposed generation and distribution base revenue requirements for test year 2014 and attrition years 2015 and 2016. On April 18, 2013, the CPUC issued D.13-04-023 granting PG&E's request to make its 2014 GRC revenue requirement effective January 1, 2014, including interest.² On August 14, 2014, the CPUC issued D.14-08-032 adopting, among other items, gas base revenue requirements for the 2014-2016 GRC period.

Ordering Paragraph (OP) 2 of D.14-08-032 requires that "[w]ithin 30 days from the effective date of this decision, Pacific Gas and Electric Company shall file a Tier 1 advice letter with revised tariff sheets to implement (i) the revenue requirement authorized in Ordering Paragraph 1 above, and set forth in Appendix C, and (ii) all accounting procedures, fees, and charges authorized in this decision that are not addressed in the other advice letters required by this decision. The revised tariff sheets shall (a) become effective on filing, subject to a finding of compliance by the Commission's Energy Division, (b) comply with General Order 96-B, and (c) apply to service rendered on or after their effective date."

2014 Revenue Requirement

OP 1 of D. 14-08-032 authorizes the gas distribution base revenue requirement. The 2014 GRC authorized gas distribution base revenue requirement is \$1,559 million (net of operating revenues). In addition, D. 14-08-032 provides changes to the Franchise Fees and Uncollectible (FF&U) accounts expense factor. Detailed information regarding the FF&U changes is included in PG&E's GRC 2014 Noncore Gas Tariff Rate Change Advice Letter 3207-G.

Effective Date

In accordance with D. 97-10-065 and D. 98-07-025, PG&E requests that this advice filing be approved effective **September 1, 2014**.

GAS SCHEDULE G-NR1
GAS SERVICE TO SMALL COMMERCIAL CUSTOMERS

Sheet 1

APPLICABILITY: This rate schedule* applies to natural gas service to non-residential Core End-Use Customers on PG&E's Transmission and/or Distribution Systems. To qualify, average monthly use must not have exceeded 20,800 therms in those months during the last twelve (12) months in which gas use exceeded 200 therms. Each March, service to all Customers under this schedule will be reviewed to determine continued applicability. Such determination will be based on natural gas use in the twelve (12) billing months ending in the most recent calendar year. This schedule may be taken in conjunction with Schedule G-EG; however, electric generators permanently classified as Noncore End-Use Customers, per gas Rule 1, must procure gas from a third-party supplier, not from a Core Procurement Group, as defined in gas Rule 1. This rate schedule is also available as an option for service in separately metered common areas in a multifamily complex. Common area accounts are those accounts that provide separately metered gas service to Common Use Areas as defined in Rule 1.

TERRITORY: Schedule G-NR1 applies everywhere PG&E provides natural gas service.

RATES: Customers on this schedule pay a Customer Charge, a Procurement Charge and a Transportation Charge, per meter, as specified below. Customers that have executed a Request for Reclassification from Noncore Service to Core Service (Form 79-983) will pay the Customer Charge and Transportation Charge shown below. Such Customers will pay the Procurement Charge specified in Schedule G-CPX for any of the first twelve (12) regular monthly billing periods that they are taking core procurement service from PG&E. After the twelfth regular monthly billing period, such Customers will pay the Procurement Charge specified on this schedule.

The applicable Customer Charge specified below is based on the Customer's highest Average Daily Usage (ADU) determined from among the billing periods occurring within the last twelve (12) months, including the current billing period. PG&E calculates the ADU for each billing period by dividing the total usage by the number of days in the billing period.

See Preliminary Statement, Part B for the Default Tariff Rate Components.

The Procurement Charge on this schedule is equivalent to the rate shown on informational Schedule G-CP—Gas Procurement Service to Core End-Use Customers.

* PG&E's gas tariffs are available online at www.pge.com.

Note: Customers who are directly billed by Air Resources Board (ARB) for ARB AB32 Administration Fees are exempt from PG&E's ARB AB32 Cost of Implementation (COI) rate component. Customers on the Directly Billed list, as provided annually by the ARB, may change from year to year. The exemption credit will be equal to PG&E's currently-effective ARB AB32 COI per-therm rate component (as shown in PG&E's Preliminary Statement, Part B – "Default Tariff Rate Components"), times the customer's billed volumes (therms) for each billing period.
