Item 1.03. Bankruptcy or Receivership

On January 29, 2019 (the “Petition Date”), PG&E Corporation and Pacific Gas and Electric Company (the “Utility”) (together, the “Debtors”) filed voluntary petitions for relief under chapter 11 of title 11 (“Chapter 11”) of the United States Code (the “Bankruptcy Code”) in the U.S. Bankruptcy Court for the Northern District of California (the “Bankruptcy Court”). The Debtors have requested joint administration of their Chapter 11 cases under the caption In re: PG&E Corporation, et al., Case No. 19-30088 (the “Chapter 11 Cases”).

The Debtors continue to operate their businesses as debtors-in-possession under the jurisdiction of the Bankruptcy Court and in accordance with applicable provisions of the Bankruptcy Code and the orders of the Bankruptcy Court. The Debtors are seeking approval from the Bankruptcy Court of a variety of “first day” motions, including motions to obtain debtor-in-possession financing and other customary relief intended to assure the Debtors’ ability to continue their ordinary course operations.

Debtor-in-Possession (“DIP”) Financing

As previously reported, on January 21, 2019, PG&E Corporation and the Utility entered into a commitment letter with certain financial institutions for DIP financing. On January 28, 2019, the California Public Utilities Commission (the “CPUC”) granted the Utility exemptions from the requirement of prior CPUC approval for issuance of debt instruments for the incurrence of the DIP financing. The CPUC also indicated its position that the exemptions do not extend to the transfer of ownership of any Utility asset that is pledged as part of the DIP financing and that in the event of the Utility’s default under the DIP financing, the Utility would need to seek the CPUC’s approval to execute such a transfer. Further, the CPUC indicated that the Utility’s “expenditure of the initial DIP financing funds for any purposes may not be recovered from ratepayers without Commission approval in a future application for rate recovery” and that the Utility “bears the burden of demonstrating the reasonableness of any expenditure.”

Subsequently, in connection with the Chapter 11 Cases, on the Petition Date, the Debtors filed a motion (the “DIP Motion”) seeking, among other things, interim and final approval of DIP financing on the terms and conditions set forth in a proposed Senior Secured Superpriority Debtor-in-Possession Credit, Guaranty and Security Agreement (the “DIP Credit Agreement”), by and among PG&E Corporation, as Guarantor, the Utility, as Borrower, the financial institutions from time to time party thereto, as lenders and issuing lenders (the “DIP Lenders”), JPMorgan Chase Bank, N.A., as administrative agent, and Citibank, N.A., as collateral agent. If the DIP financing is approved by the Bankruptcy Court as proposed:

- the DIP Lenders would provide \$5.5 billion in senior secured superpriority DIP credit facilities in the form of (i) a revolving credit facility in an aggregate amount of \$3.5 billion (the “DIP Revolving Facility”), \$1.5 billion of which would be available through a subfacility in the form of letters of credit, (ii) a term loan facility in an aggregate principal amount of \$1.5 billion (the “DIP Initial Term Loan Facility”) and (iii) a delayed draw term loan facility in an aggregate principal amount of \$500 million (together with the DIP Revolving Facility and the DIP Initial Term Loan Facility, the “DIP Facilities”), subject to the terms and conditions set forth in the DIP Credit Agreement;
- borrowings under the DIP Facilities would be senior secured obligations of the Utility, secured by substantially all of the Utility’s assets and entitled to superpriority administrative expense claim status in the Utility’s Chapter 11 Case;
- the Utility’s obligations under the DIP Facilities would be guaranteed by PG&E Corporation, and such guarantee would be a senior secured obligation of PG&E Corporation, secured by substantially all of PG&E Corporation’s assets and entitled to superpriority administrative expense claim status in PG&E Corporation’s Chapter 11 Case;
- the scheduled maturity of the DIP Facilities would be December 31, 2020, subject to the Utility’s option to extend the maturity to December 31, 2021 if certain terms and conditions are satisfied; and
- the Utility would pay customary fees and expenses in connection with obtaining the DIP Facilities.

The DIP Credit Agreement is subject to approval by the Bankruptcy Court, which has not been obtained at this time. The Debtors are seeking interim approval of the DIP Facilities, and availability of a portion of the DIP Revolving Facility in the amount of \$1.5 billion, at an interim hearing in the Bankruptcy Court on or about January 29, 2019, and final approval, and availability of the remaining amount of DIP Facilities in the amount of \$4.0 billion, at a final hearing. The Debtors are unable to predict the date of the final hearing but expect it to occur within 30 to 45 days after the Petition Date. The Debtors anticipate that the DIP Credit Agreement will become effective promptly following interim approval of the DIP Facilities by the Bankruptcy Court. The foregoing description of the DIP Credit Agreement does not purport to be complete and is qualified in its entirety by reference to the final, executed DIP Credit Agreement, as approved by the Bankruptcy Court.

Additional information about the Chapter 11 Cases, court filings and other documents related to the Chapter 11 Cases are available on a website administered by the Debtors' claims agent, Prime Clerk, at <https://restructuring.primeclerk.com/pge>. This website address contains third-party content and is provided for convenience only. Third-party content is the responsibility of the third party, and PG&E Corporation and the Utility disclaim liability for such content.

Item 2.04. Triggering Events that Accelerate or Increase a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement

The commencement of the Chapter 11 Cases described in Item 1.03 above constituted an event of default or termination event, and caused the automatic and immediate acceleration of all debt outstanding under or in respect of a number of instruments and agreements relating to direct financial obligations of the Debtors (the "Accelerated Direct Financial Obligations"). - Obligations to repay up to a maximum of \$771 million pursuant to certain reimbursement agreements in respect of letters of credit provided by commercial banks in support of variable rate 1996 C, 1996 E, 1996 F, 1997 B, 2009 A and 2009 B pollution control bonds due 2026

The instruments and agreements relating to the Accelerated Direct Financial Obligations described above provide that as a result of the commencement of the Chapter 11 Cases, the principal amount, together with accrued interest thereon, and in case of the indebtedness outstanding under each of the indentures described above, premium, if any, thereon, shall be immediately due and payable. Any efforts to enforce payment obligations under the Accelerated Direct Financial Obligations are automatically stayed as a result of the filing of the Chapter 11 Cases and the creditors' rights of enforcement in respect of the debt instruments are subject to the applicable provisions of the Bankruptcy Code.

Item 7.01. Regulation FD Disclosure.

In connection with the filing of the Chapter 11 Cases, PG&E Corporation and the Utility issued a joint press release on January 29, 2019, a copy of which is attached as Exhibit 99.1 to this Current Report on Form 8-K.

The information being furnished in this Item 7.01 and in Exhibit 99.1 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section.

Item 8.01 Other Events.

Tubbs Fire

On January 24, 2019, the California Department of Forestry and Fire Protection ("Cal Fire") issued a press release and its investigative report into the cause of the 2017 Tubbs fire. Cal Fire has determined that the 2017 Tubbs fire, which occurred during the 2017 Northern California wildfires, "was caused by a private electrical system adjacent to a residential structure."

The 2017 Tubbs fire in Sonoma County started on October 8, 2017 and burned 36,807 acres, destroyed 5,636 structures and resulted in 22 fatalities.

PG&E Files for Reorganization Under Chapter 11

PG&E Committed to Providing Safe and Reliable Energy, Aiding Restoration and Rebuilding Efforts, and Working Together with Customers, Regulators and Community Leaders to Address Wildfire Threat

Seeks Court Approval to Access \$5.5 Billion in Debtor-in-Possession Financing to Support Operations and Ongoing Safety Initiatives

San Francisco, Calif.— PG&E Corporation (NYSE: PCG) and its primary operating subsidiary, Pacific Gas and Electric Company (the “Utility”), today filed voluntary petitions under Chapter 11 of the U.S. Bankruptcy Code in the United States Bankruptcy Court for the Northern District of California.

Throughout the forthcoming process, PG&E remains committed to:

- Delivering safe and reliable electric and natural gas service to customers;
- Continuing to make critical investments in system safety and maintenance;
- Supporting the orderly, fair and expeditious resolution of its liabilities resulting from the 2017 and 2018 wildfires;
- Working with customers, civic leaders, regulators, policymakers, the financial community and other key stakeholders to consider alternatives to provide for the safe delivery of natural gas and electricity and new safety solutions in an environment challenged by climate change; and
- Assisting our customers and communities impacted by wildfires in Northern California. PG&E’s restoration and rebuilding efforts will continue.

“Our most important responsibility is and must be safety, and that remains our focus. Throughout this process, we are fully committed to enhancing our wildfire safety efforts, as well as helping restoration and rebuilding efforts across the communities impacted by the devastating Northern California wildfires. We also intend to work together with our customers, employees and other stakeholders to create a more sustainable foundation for the delivery of safe, reliable and affordable service in the years ahead. To be clear, we have heard the calls for change and we are determined to take action throughout this process to build the energy system our customers want and deserve,” said John R. Simon, PG&E Corporation Interim CEO.

In conjunction with the filings, PG&E also filed a motion seeking interim and final approval of the Court to enter into an agreement for \$5.5 billion in debtor-in-possession (DIP) financing with J.P. Morgan, Bank of America, Barclays, Citi, BNP Paribas, Credit Suisse, Goldman Sachs, MUFG Union Bank and Wells Fargo acting as joint lead arrangers. PG&E expects the Court to act on an interim basis on the DIP motion in the coming days. The DIP financing, when approved, will provide PG&E with necessary capital to ensure essential maintenance and continued investments in safety and reliability for the expected duration of the Chapter 11 cases.

“Through this process, we will prioritize what matters most to our customers and the communities we serve – safety and reliability. We believe that this process will make sure that we have sufficient liquidity to serve our customers and support our operations and obligations,” Mr. Simon said.

“I know that our 24,000 dedicated employees remain steadfastly focused on delivering safe and reliable natural gas and electric service for the 16 million people across our service area,” said Mr. Simon. “Each day I see the hard work and resilience of our team, and I thank them for their continued dedication to working safely and delivering for our customers.”

As part of the filings, PG&E also filed various motions with the Court in support of its reorganization, including requesting authorization to continue paying employee wages and providing healthcare and other benefits. In the filings, PG&E also asked for authority to continue existing customer programs, including low income support, energy efficiency and other programs supporting customer adoption of clean energy. PG&E expects the Court to act on these requests in the coming days. PG&E also intends to pay suppliers in full under normal terms for goods and services provided on or after the filing date of January 29, 2019.

In order to help support the Company through the reorganization process, PG&E has appointed James A. Mesterharm, a Managing Director at AlixPartners, LLP (“AlixPartners”) and an authorized representative of AP Services, LLC (“APS”), to serve as Chief Restructuring Officer. In addition, PG&E appointed John Boken also a Managing Director at AlixPartners and an authorized representative of APS, to serve as Deputy Chief Restructuring Officer. Mr. Mesterharm, Mr. Boken and their colleagues at AlixPartners will continue to assist PG&E with the reorganization process and related activities.

Tubbs Fire

On January 24, 2019, CAL FIRE released the results of its investigation of the 2017 Tubbs Fire, which concluded that PG&E equipment did not cause the fire. The comprehensive analysis underlying PG&E’s decision to pursue reorganization under Chapter 11, conducted with the assistance of independent legal and financial advisors, took into account PG&E’s longstanding belief based on available evidence that its equipment did not cause the Tubbs Fire. As such, PG&E continues to believe that the Chapter 11 process will facilitate the orderly, fair and expeditious resolution of the liabilities that have arisen and will continue to arise in connection with the 2017 and 2018 Northern California wildfires.
