APPROVAL OF FINAL SUPPLEMENTAL SITE CHARACTERIZATION REPORT–  
NAPA 1 FORMER MGP SITE, 201-267 RIVERSIDE DRIVE, NAPA, CALIFORNIA

Dear Mr. Lee:

The Department of Toxic Substances Control (DTSC) has reviewed the Final Supplemental Site Characterization Report (Report), dated October 21, 2016, for the former Napa Manufactured Gas Plant (Site). The Report documents supplemental site characterization activities to complete a human and screening level ecological risk assessment, evaluate potential remedial measures in a Feasibility Study (FS); and, support remediation planning, to be documented in a Remedial Action Plan (RAP).

DTSC approves the Report as the responses to comments satisfactorily address comments on the previous version. If you have any questions please contact me at (818) 212-5340 or email me at [Tedd.Yargeau@dtsc.ca.gov](mailto:Tedd.Yargeau@dtsc.ca.gov).

Sincerely,

Tedd Yargeau  
Senior Scientist  
Manufactured Gas Plant Team – Chatsworth Office
