## Potrero Site Cleanup Project

### Weekly Activity Report - Feb. 2, 2018

This report provides an update on the status of cleanup work at the former power plant located at 1201 Illinois Street. Cleanup work is being performed as part of a company-wide program to address sites that have been impacted by historic operations. Project oversight is provided by the San Francisco Bay Region Water Quality Control Board and the City/County of San Francisco.

As we prepare to resume cleanup of the Northeast Area (estimated to begin in mid-February), you may see an increased amount of activity on and around the Site. The majority of this work is focused on bringing equipment onto the Site and getting ready for active construction.

---

#### Work Planned for Upcoming Week (2/5/18 to 2/9/18)

- Continue site-wide mobilization activities
- Delivery and construction of large scale equipment, including a drill rig

---

#### Safety and Air Monitoring

- Air monitoring resumed on 1/22/2018. Results confirmed that air quality remained at levels protective of the health of the surrounding community.
- All work is done in accordance with a site-specific Health and Safety Plan that meets state and federal standards.

---

#### Work Hours

- 7 A.M. to 6 P.M., Monday through Friday

---

#### Anticipated Impacts

- Deliveries of construction materials, equipment and other trucking activities may cause minor traffic impacts.
- Trucks will use approved routes, avoid residential areas and not park off-site to minimize impacts.

---

#### Site Security

- On-site security is present at the Site after hours and the access gates are closed to the public at all times.

---
