Santa Rosa, CA 95402

Dear Ladies and Gentlemen:

Subject: Concurrence with Final Remedial Action Plan in accordance with Cleanup and Abatement Order R1-2006-0033 (Order)

Site: PG&E Gas Plant – Musco, First and B Streets, Santa Rosa
Case No. 1NSR228

On August 24, 2015, PG&E submitted a Final Remedial Action Plan (Plan) for the above referenced Site. Regional Water Board staff reviewed and concurs with the Plan which includes long-term monitoring, a land use covenant, and cap maintenance. No significant comments on the proposed final remedy were received during the public comment period. Implementation of the Plan can now begin.

The above referenced Order was issued for the Site on March 27, 2006, replacing previous Cleanup and Abatement Orders. Numerous remedial actions were completed at the Site, including removal of underground tanks, excavation of highly impacted soils, electrical

resistance heating, and in-situ soil mixing. The requirements of the Order have been satisfied. Final rescission of the Order will not occur until the project is closed with no further action required.

If you have any questions please contact Beth Lamb of my staff at (707) 576-2669 or Beth.Lamb@waterboards.ca.gov.

Sincerely,

Matthias St. John
Executive Officer
