

Notice of Joint Electric Program Investment Charge Program Innovation Symposium

Pacific Gas and Electric Company (PG&E), Southern California Edison Company (SCE), San Diego Gas & Electric Company (SDG&E), and the California Energy Commission (CEC) (collectively referred to as the Administrators) will host their first Electric Program Investment Charge (EPIC) Symposium on December 3, 2015. EPIC, an energy innovation funding program, seeks to drive efficient, coordinated investment in new and emerging energy solutions.

The Symposium will showcase a variety of EPIC projects. The Investor Owned Utilities (IOUs) will highlight investments in data analytics and system architecture. In addition to systems architecture and data analytics, the CEC will also discuss investments in energy efficiency, and generation and integration and offer a post-Symposium “How to Apply to EPIC” workshop. The Symposium will contribute to ongoing coordination and understanding among administrators, parties, and the California Public Utilities Commission (CPUC); raise awareness and visibility of EPIC investments; and promote EPIC program transparency. The EPIC Administrators will consider ideas generated by the discussion to inform development of future funding opportunities.
