10,000-MILE UNDERGROUNDING PROGRAM

Our wildfire safety and undergrounding efforts are making the electric system safer and more resilient for our customers and communities.

We are prioritizing undergrounding in areas where we can have the greatest impact on reducing wildfire risk.

2022 - 2023 Local Undergrounding Maps

To view locations of recently completed projects, as well as areas we have identified for potential undergrounding work in 2023, click the county name below:

- Alameda
- Amador
- Butte
- Calaveras
- Contra Costa
- El Dorado
- Fresno
- Glenn
- Humboldt
- Lake
- Marin
- Mariposa
- Mendocino
- Napa
- Nevada
- Placer
- Plumas
- San Luis Obispo
- San Mateo
- Santa Cruz
- Shasta
- Solano
- Sonoma
- Tehama
- Trinity
- Tuolumne

Maps are for illustrative purposes. Forecasts can change as our risk model evolves to address the greatest wildfire risk. Forecast miles also exceed annual targets. Mileage in your community may increase or decrease due to access, weather, permitting or other constraints. In most cases, if a project is not completed during the year originally identified, it will continue through planning/construction phases during subsequent years.
To reduce the risk of wildfires and keep our customers and communities safe, PG&E is undergrounding 350 miles of distribution lines across our service area in 2023. The map below shows the locations of recently completed projects, as well as areas we have identified for potential undergrounding work in 2023. Forecast miles include areas that are in any stage of the planning process and projects may be completed over multiple years.

Data as of 01/03/2023. This map is for illustrative purposes. Forecasts can change as our risk model evolves to address the greatest wildfire risk. Forecast miles also exceed annual targets. Mileage in your community may increase or decrease due to access, weather, permitting or other constraints. In most cases, if a project is not completed during the year originally identified, it will continue through planning/construction phases during subsequent years.

Some of the measures included in this document are contemplated as additional precautionary measures intended to further reduce the risk of wildfires. "PG&E" refers to Pacific Gas and Electric Company, a subsidiary of PG&E Corporation. ©2023 Pacific Gas and Electric Company. All rights reserved. 1/26/2023.
To reduce the risk of wildfires and keep our customers and communities safe, PG&E is undergrounding 350 miles of distribution lines across our service area in 2023. The map below shows the locations of recently completed projects, as well as areas we have identified for potential undergrounding work in 2023. Forecast miles include areas that are in any stage of the planning process and projects may be completed over multiple years.
