10,000-MILE UNDERGROUNDING PROGRAM

Our wildfire safety and undergrounding efforts are making our system safer and more resilient while positioning us to better serve our customers.

We are prioritizing undergrounding in areas where we can have the greatest impact on reducing wildfire risk and wildfire safety-related outages for our customers.

2022 - 2023 County Work Area Maps

To view approximate undergrounding work locations planned over the next two years, click the county name below:

- Amador County
- Butte County
- Calaveras County
- Contra Costa County
- El Dorado County
- Fresno County
- Lake County
- Marin County
- Mariposa County
- Mendocino County
- Napa County
- Nevada County
- Placer County
- Plumas County
- San Mateo County
- Santa Cruz County
- Shasta County
- Solano County
- Sonoma County
- Tehama County

Maps are for illustrative purposes only. Work plans are subject to change due to weather, access, and permitting, among other constraints. Data is as of 02/1/22 and does not include undergrounding work related to PG&E’s Rule 20 Program.
To reduce the risk of wildfires and keep our customers and communities safe, PG&E is undergrounding 10,000-miles of electric distribution lines in high fire-risk areas. The below map includes approximate work locations for your community planned over the next two years. As we continue to ramp up our undergrounding efforts, additional projects may be considered in your area. For more information, please visit pge.com/undergrounding.
