

2018 Local Sub-Area Energy Storage RFO

Experience and Qualifications

Project Name:

PG&E reserves the right to request additional information to support documentation listed but not already provided in the Offer package.

Provide information in the order requested. Indicate if a question is not applicable and do not leave responses blank.

Please describe the Participant's experience and staff qualifications, including but not limited to:

1. Provide an organizational chart for the project that lists the project participants and identifies the management structure and responsibilities.
2. The staff make-up and size and the identification and brief description of Participant's key personnel and management.
3. Experience and qualifications in developing, designing and constructing, and operating and maintaining power storage and generation facilities, as well as contracting to sell and deliver long-term power supplies. Participant should highlight their experience in these areas as it relates to:
 - projects utilizing the same technology as the proposed Project;
 - projects of similar capacity and configuration as the proposed Project;
 - specific engineering, procurement and construction (EPC) contractors being considered for this Project; and
 - projects supplying storage and/or energy to California.
4. A description of the personnel structure of the proposed facility's development, design and construction, and operations and maintenance organizations.
5. Participant experience and history in financing power generation facilities, along with the financing plan and expected financing sources for the proposed Project. Identify any government assistance / program to be requested, expected, or received that would affect financing of this project.
6. In order for PG&E to address any potential conflicts of interest, please provide the name of the law firm or counsel representing the Participant in its Offer, or if a joint Offer, the names of all law firms or counsels representing all Participants in the joint Offer.
7. Provide the safety record of the Participant and identified contractors associated with the Project, and identify subsequent actions taken to manage or mitigate any safety incidents.

2018 Local Sub-Area Energy Storage RFO
