## I. Overview

### A. Overview

---

Pacific Gas and Electric Company (“PG&E”) is issuing the 2019 Bundled Renewable Portfolio Standard (“RPS”) Energy Sale Solicitation (“Solicitation”) to solicit bids (“Bids”) from participants (“Participants”) for bundled RPS-eligible energy and associated Renewable Energy Credits (“REC”) (collectively, “Product”) pursuant to a confirmation (“Agreement”). This Solicitation protocol (“Solicitation Protocol”) describes the process by which PG&E seeks, evaluates, and accepts Bids in this solicitation from winning Participants (“Buyers”).

The Solicitation complies with PG&E’s 2018 RPS Plan, which was approved by the California Public Utilities Commission (“CPUC” or “Commission”) in Decision (D.19-02-007).

Subject to Bid pricing and other factors in this Solicitation Protocol, PG&E seeks to sell a volume of Product commensurate with revenue of Bids received.

PG&E will make all sales according to the terms and conditions set forth in the Agreement. This Solicitation Protocol sets forth the procedures a Participant must follow in order to participate in the Solicitation. Capitalized terms used in this Solicitation Protocol, but not otherwise defined herein, have the meanings set forth in the Agreement.

PG&E’s evaluation may result in the selection of multiple Bids from the same Participant, provided that the selected Bids from the same Participant do not have Delivery Terms that overlap (i.e., if PG&E selects a Participant’s Bid for 2019, it will not select the 2019-2020 strip from the same Participant).”

#### A. Quantitative Evaluation

---

PG&E plans to evaluate Bids based on a portfolio approach with the objective of maximizing revenue from the bids received.

#### B. Qualitative Evaluation

---

For the Solicitation, PG&E may apply a qualitative adjustment factor for counterparties that have acceptable credit with PG&E and propose minimal or no edits to PG&E’s form of Agreement.

##### 1. Credit

PG&E may consider the Participant’s capability to perform all of its financial and financing obligations under the Agreement and PG&E’s overall credit concentration with the Participant or its banks, including any of Participant’s affiliates.

##### 2. Agreement Modifications

PG&E may assess the materiality and cost impact of any of Participant’s proposed modifications to the Agreement. PG&E has a strong preference for standardized Agreements. PG&E will consider edits to the Agreement in the following sections:

- Quantity
- Green Attributes Price
- Delivery Term(s)
- Credit Terms

##### 3. Other Qualitative Considerations

In addition to the criteria specifically listed above, PG&E may consider other qualitative factors that could impact the value of Bids, including, but not limited to: previous adverse commercial experience between PG&E and Participant; Participant concentration; and existence of an acceptable EEI Master Agreement between PG&E and Participant.

PG&E assumes no responsibility for the actions of the PRG, including actions that may delay or otherwise affect the schedule for this Solicitation, including the timing of the selection of Bids and the obtaining of Regulatory Approval.

## **VII. Regulatory Approval**

After Agreement execution, PG&E is required to submit executed Agreements to the CPUC for approval via an advice letter filing.

The effectiveness of any executed Agreement is expressly conditioned on PG&E's receipt of final and non-appealable CPUC approval of such Agreement ("Regulatory Approval").

## **VIII. Dispute Resolution**

Except as expressly set forth in this Solicitation Protocol, by submitting a Bid, Participant knowingly and voluntarily waives all remedies or damages at law or equity concerning or related in any way to the Solicitation, the Solicitation Protocol and/or any attachments to the Solicitation Protocol ("Waived Claims"). The assertion of any Waived Claims by Participant may, to the extent that Participant's Package has not already been disqualified, automatically disqualify such Bid from further consideration in the Solicitation.

By submitting a Bid, Participant agrees that the only forums in which Participant may assert any challenge with respect to the conduct or results of the Solicitation is through

**2019 Bundled RPS Energy Sale Solicitation Protocol**

the Alternative Dispute Resolution (“ADR”) services provided by the CPUC pursuant to Resolution ALJ-185, August 25, 2005. The ADR process is voluntary in nature, and does not include processes, such as binding arbitration, that impose a solution on the disputing parties. PG&E will consider the use of ADR under the appropriate circumstances. Additional information about this program is available on the CPUC’s website at the following link: [www.cpuc.ca.gov/PUBLISHED/Agenda\\_resolution/47777.htm](http://www.cpuc.ca.gov/PUBLISHED/Agenda_resolution/47777.htm).

Participant further agrees that other than through the ADR process, the only means of challenging the conduct or results of the Solicitation is a protest to an Advice Letter Filing seeking approval of one or more Agreements entered into as a result of the Solicitation, that the sole basis for any such protest shall be that PG&E allegedly failed in a material respect to conduct the Solicitation in accordance with this Solicitation Protocol, and the exclusive remedy available to Participant in the case of such a protest shall be an order of the CPUC that PG&E again conduct any portion of the Solicitation that the CPUC determines was not previously conducted in accordance with the Solicitation Protocol. Participant expressly waives any and all other remedies, including, without limitation, compensatory and/or exemplary damages, restitution, injunctive relief, interest, costs, and/or attorney’s fees. Unless PG&E elects to do otherwise in its sole discretion during the pendency of such a protest or ADR process, the Solicitation and any related regulatory proceedings related to the Solicitation, will continue as if the protest had not been filed, unless the CPUC has issued an order suspending the Solicitation or PG&E has elected to terminate the Solicitation.

Participant agrees to indemnify and hold PG&E harmless from any and all claims by any other Participant asserted in response to the assertion of a Waived Claim by Participant or as a result of a Participant’s protest to an advice letter filing with the CPUC resulting from the Solicitation.

Except as expressly provided in this Solicitation Protocol, nothing herein including Participant’s waiver of the Waived Claims as set forth above, shall in any way limit or otherwise affect the rights and remedies of PG&E. Nothing in this Solicitation Protocol is intended to prevent any Participant from informally communicating with the CPUC or its staff regarding this solicitation.

## **IX. Termination of the Solicitation-Related Matters**

PG&E reserves the right at any time, in its sole discretion, to terminate the Solicitation for any reason without prior notification to Participants and without liability to, or responsibility of, PG&E or anyone acting on PG&E’s behalf. Without limitation, grounds for termination of the Solicitation may include the assertion of any Waived Claims by a Participant or a determination by PG&E that, following evaluation of the Bids, there are no Bids that meet the requirements of this Solicitation.

PG&E reserves the right to terminate further participation in this process by any Participant, to accept any Bid or to enter into any Agreement, and to reject any or all Bids, all without notice and without assigning any reasons and without liability to PG&E or anyone acting on PG&E’s behalf. PG&E shall have no obligation to consider any Bids.

In the event of termination of the Solicitation for any reason, PG&E will not reimburse

**2019 Bundled RPS Energy Sale Solicitation Protocol**

PG&E shall have no obligation to reimburse any Participant's expenses regardless of whether such Participant's Package is selected, not selected, rejected or disqualified. In the event that no Agreements are executed, then the solicitation will terminate automatically on July 15, 2019.
