Background: Pacific Gas and Electric Company (www.pge.com), a subsidiary of PG&E Corporation, is one of the largest combined natural gas and electric energy companies in the United States. Based in San Francisco with more than 23,000 employees, PG&E is the primary natural gas and electric service provider for Northern and Central California spanning 70,000-square-mile service area stretches from Eureka to Bakersfield and from the Pacific Ocean to the Sierra Nevada. PG&E delivers some of the nation's cleanest energy to 16 million people.

RFP Contract Opportunity Description: California Public Utilities Commission (CPUC) Decision D.20-12-027 (December 17, 2020), issued updated requirements for California Investor-Owned Utilities (IOUs) to use revenue from their Low Carbon Fuel Standard (LCFS) credits to support transportation electrification. In accordance with the decision, PG&E filed AL 6226-E (available at https://www.pge.com/tariffs/assets/pdf/adviceletter/ELEC_6226-E.pdf) with the 2021 LCFS Implementation Plan.

One of PG&E's LCFS programs is the Multi-Family Housing and Small Business Direct Install Pilot, which will support the installation of Level 1 and Level 2 chargers at multi-family housing units and small businesses with the majority of sites located in equity communities, serving equity customers. PG&E's Multi-Family Housing and Small Business Direct Install Pilot term is approximately 3 years with a total inclusive budget of \$25.23 million for installation, administration, marketing, education, and outreach; and measure and evaluation.

The purpose of this RFP is to seek the services of an implementer to administer, at the direction of PG&E's program manager, PG&E's Multi-Family Housing and Small Business Direct Install Pilot that will include, but is not limited to, coordinating a marketing, education, and outreach strategy, customer acquisition, electric vehicle service equipment (EVSE) installation, develop site specific operations and maintenance (O&M) plans, collecting and reporting key program metrics, and conducting post-construction surveys to evaluate the impact of EVSE installation.

The successful implementer must have significant experience in providing turnkey solutions which include, but is not limited to, customer acquisition, developing educational resources, EVSE installation. The contents of this COA and related RFP are subject to change based on any updates or directive by the CPUC.
