

Enhanced Powerline Safety Settings (EPSS) Progress Report

MONTEREY COUNTY

The following is an update on the actions we are taking in Monterey County to improve the reliability of your power during wildfire season. Earlier this year, we adjusted safety settings on electric equipment in your community to help prevent wildfires. While these adjustments made the electric system safer, they also resulted in more frequent outages. That is why we took immediate action to improve, without compromising safety.

Improvements in Monterey County

Made to Date

- **Fine-tuned sensitivity** on **28** devices to reduce the likelihood of an outage
- **Improved device coordination** to make outages smaller
- **Improved circuit patrol coordination** to restore power faster

Currently Underway

- **Installing additional animal protection devices** on our equipment
- **Targeted vegetation clearing** to prevent branch and tree fall-ins
- **Targeted equipment inspections and hardening**

Hazards Identified in Monterey County

There were **3** EPSS outages in Monterey County this past month, which could have resulted in fire ignition without the enhanced settings in place.

An example of vegetation damage in Monterey County

Monterey Circuit Level Improvements

We have optimized all circuits in Monterey County. This will reduce the frequency, size and duration of outages, while maintaining wildfire protection.

As a result of optimization:

Average Decrease in Outage Duration

CIRCUIT: Del Monte 2104

■ Before optimization ■ After optimization

Monterey County Weather Outlook

The recent rainfall has increased the moisture content in vegetation and decreased the risk of wildfire. As a result, we have restored circuits back to their normal, pre-EPSS settings. This will result in fewer power outages. We will continue to monitor wildfire risk, weather and fuel conditions to determine if EPSS settings need to be turned back on in Monterey County.

Recent EPSS Outages in Monterey County

(10/20 to 11/10)

OUTAGE DATE	NUMBER OF CUSTOMERS	AVERAGE DURATION	CAUSE*
11/6	8	1.7 HRS	Undetermined
10/30	8	1.4 HRS	Undetermined
10/20	2,103	1.7 HRS	Undetermined

*Undetermined causes could be the result of hazards, such as a tree branch or animal, that were no longer present during patrols
