ELECTRIC VEHICLES

Making the move

The EV Fleet program helps companies simplify electrification. PG&E offers expertise, insights, resources and Business EV rate plan options.

SAFETY

We are reducing the impact of Public Safety Power Shutoffs

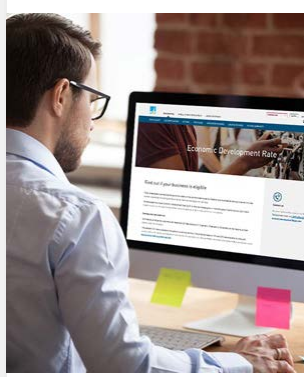

For public safety, we may need to turn off power during severe weather, which we call a Public Safety Power Shutoff (PSPS). We are improving our PSPS Program this year by making events smaller in size, shorter in length, and smarter for our customers. Learn what this means for your business.

ENERGY EFFICIENCY FINANCING

Replace inefficient equipment with financing from PG&E

PG&E's 0% interest financing program offers loans up to \$4,000,000 per premise, with repayment periods of up to 120 months and no out-of-pocket costs. Pay off your loan with savings from energy efficiency on your energy bill.

[Get started »](#)**Receive discounts on your electric bill**

PG&E's reduced electric rates help business customers stay afloat and maintain jobs in California. Rates are discounted at 12%, 18% or 25% on most of your electric costs for five years.

ENERGY EFFICIENCY

We're here to help you operate optimally and more efficiently

Our **Retrocommissioning Program** focuses on improving the efficiency of equipment that is already in place holistically.

ENERGY TRENDS

Can electrification supercharge a post COVID-19 economy?

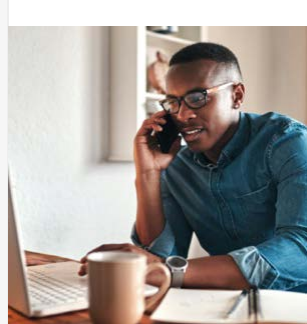

More than half of California's electricity already comes from carbon-free sources, and this should reach almost 80% by 2030.

[Review further benefits »](#)**Business Resources****Help us reach you when it's important**

Being notified in advance of outages can help your business prepare for and reduce the impact on your operations. To receive alerts for a Public Safety Power Shutoff, update your contact information today.

[UPDATE NOW ›](#)**Get your emergency preparedness checklist**

Download this checklist to help your employees, tenants and customers know what to do during an outage and help keep your operations running safely and smoothly.

[PREPARE TODAY ›](#)**Review renewable energy backup power options and incentives**

Contact your PG&E Account Manager to review technologies like solar and fuel cells, and the Self-Generation Incentive Program to meet your energy needs.
