

Potter Valley Hydroelectric Project

FERC Project No. 77

Welcome

Stakeholder Meeting
March 9, 2017

Susan Kester
PG&E, Relicensing Project Manager

Agenda

- Introduce the Team
- Relicensing Goals
- Overview of FERC's Relicensing Process
- Overview and History of Potter Valley Project
- Participation Opportunities + Next Steps

Relicensing Goals

- Meet all regulatory requirements and deadlines
- Preserve a portfolio of safe, reliable and economic sources of electric generation for our customers
- Achieve sound environmental stewardship
- Seek collaborative solutions that achieve a balance of beneficial uses

Relicensing Goals

- Engage stakeholders in an open, inclusive process
- Achieve mutual understanding of the interests of all stakeholders
- Promote mutual respect between and among participants

Meeting Goals

- Provide clear information about the relicensing process
- Provide an overview and history of Potter Valley Project facilities and operations
- Pass along information about opportunities and timing to provide your input
