

Medical Baseline Program

Savings and safety for people with special energy needs

Program Overview

PG&E's Medical Baseline Program is an assistance program for residential customers who have special energy needs due to qualifying medical conditions. Eligibility is based on medical conditions or needs of a person in your home, NOT on income. The program includes two different kinds of help:

- A lower rate on your monthly energy bill (Additional energy at the lowest rate)
- Extra notifications in advance of a Public Safety Power Shutoff

Examples of Qualifying Medical Conditions and Devices:

- Multiple Sclerosis
- Asthma/Sleep Apnea
- Special Heating/Cooling Needs
- Respirators
- Motorized Wheelchairs
- IPPB/CPAP Machines
- Hemodialysis Machines

For a complete list of qualifying medical conditions and devices, visit [pge.com/medicalbaseline](https://www.pge.com/medicalbaseline) or call 1-800-743-5000.

Extra Notifications During a Public Safety Power Shutoff

During a Public Safety Power Shutoff event, electricity could be turned off for as long as several days in an effort to help prevent a wildfire.

When possible, PG&E provides extra alerts for households participating in the Medical Baseline Program leading up to and during such an event to help them prepare.

If we are unable to reach you via phone, text or email, PG&E will also attempt to knock on the doors of those customers who rely on electricity for critical life sustaining equipment when possible.
