PUBLIC SAFETY POWER SHUTOFFS

How can you prepare?

Is your contact information and language preference updated?
Update your information for notifications at pge.com/mywildfirealerts or call 1-866-743-6589.

Do you rely on power for medical or mobility needs?
Enterroll in our Medical Baseline Program at pge.com/medicalbaseline.

Do you need extra help?
Learn about the Disability Disaster Access and Resources Program at disabilitydisasteraccess.org.

Do you need backup power?
You may be eligible for a no-cost backup portable battery at pgebatteryprogram.com.

Are you a solar customer considering battery storage?
Learn about assistance to cover up to 15% of the cost and make your home more resilient at pge.com/batteryincentive.

PUBLIC SAFETY POWER SHUTOFFS

IMPORTANT SAFETY INFORMATION FOR YOU

What is a Public Safety Power Shutoff (PSPS)?
With wildfire risk in our state continuing to grow, we are working year-round and nonstop to make our system safer. High winds can cause trees and debris to contact energized lines, damage our equipment and cause a wildfire. That is why, during severe weather, we may need to turn off power to help prevent wildfires.

We carefully review a combination of factors when deciding if power must be turned off. These include, but are not limited to:

- Low humidity levels, generally 30% and below
- Forecasted high winds above 19 mph and gusts above 30-40 mph
- Condition of dry material on the ground and low moisture content of vegetation
- Red Flag Warning declared by the National Weather Service
- Real-time observations on the ground

Powerlines travel long distances. A line that serves your community may need to be shut off if severe weather affects even a portion of that line farther up the road. That is why your power may be shut off even if it is not windy at your home or business.

Follow us on: 

Pacific Gas and Electric Company
P.O. Box 997320
Sacramento, CA 95899

PREPARE NOW FOR WILDFIRE SEASON

For translated support in over 250 additional languages, please contact PG&E at 1-866-743-6589.

How is PG&E reducing the impact of PSPS outages this year?

We know how disruptive it is to be without power, especially if you rely on power for medical devices. That is why we are doing even more this year to help customers and communities before, during, and after a PSPS. We are:

- Partnering with community-based organizations to provide food replacements, portable batteries and hotel stays to qualifying customers and those with medical needs
- Providing better information about when power will be turned off and back on, available in 16 languages
- Offering more options for backup power, including portable batteries and generator rebates for qualifying customers
- Preparing additional ADA-accessible Community Resource Center sites to support customers

To learn more about PSPS, visit pge.com/pssps.

| STAY PREPARED Recharge your devices, restock your supply kit and update your emergency plan at safetyactioncenter.com. |

NEW FOR 2021: How will you know about a PSPS?

Customers in the Medical Baseline Program or those who self-certify for Vulnerable Customer Status will receive extra notifications before a PSPS.

To learn more, visit pge.com/mywildfirealerts.

Answer the phone and say “hello” or reply “1” to our texts. If you do not respond, we will attempt to notify you in person.

Save PG&E’s number (1-800-743-5002) as a contact in your phone, so you know when we are trying to reach you.

How will you know about a PSPS?

We will share what we know as soon as we can, keeping in mind that weather can be uncertain and change quickly.

You will be notified in advance through automated calls, texts and emails.

Watch for notifications about potential PSPS outages from:

- CALLS 1-800-743-5002
- TEXTS 976-33
- EMAILS PGEcustomerService@notifications.pge.com

Address Alerts | Receive notifications about PSPS outages for any additional addresses you care about, such as:
- The home of a friend or loved one
- Your child’s school or day care
- Your work or business

Apply at: pge.com/vcstatus
Enroll at: pge.com/addressalerts

Two days before One day before Just before Daily until power is restored

Address Alerts | Receive notifications about PSPS outages for any additional addresses you care about, such as:
- The home of a friend or loved one
- Your child’s school or day care
- Your work or business

Apply at: pge.com/vcstatus
Enroll at: pge.com/addressalerts

NEW FOR 2021: Self-certify for Vulnerable Customer Status | You can now sign up to receive additional PSPS notifications, including an in-person visit if needed, if anyone in your home has a condition that could become life threatening if power is disconnected.

Your contact information is up to date. Visit pge.com/mywildfirealerts.
