**THE DIABLO CANYON DECOMMISSIONING ENGAGEMENT PANEL AND PG&E
ENCOURAGE COMMUNITY MEMBERS TO SUBMIT APPLICATIONS TO JOIN PANEL**

SAN LUIS OBISPO, Calif. (Feb. 7, 2022)—In keeping with Pacific Gas and Electric Company's (PG&E) commitment to involve the community in the decommissioning of Diablo Canyon Power Plant (DCPP), the utility and the Diablo Canyon Decommissioning Engagement Panel (Panel) announced jointly today that applications are now being accepted to join the Panel.

New members are sought to join this local, non-regulatory stakeholder group consisting of up to 11 members who have been providing community input to PG&E since 2018 regarding ongoing decommissioning planning activities. There are up to four positions subject for appointment or reappointment consistent with the Panel's Charter. The 30-day application period ends March 8.

Members of the community who are interested in participating on the Panel can obtain more information on how to apply at diablocanyonpanel.org or pge.com/engagementpanel.

PG&E representatives along with Panel members not seeking reappointment will select candidates who broadly reflect the diverse stakeholder viewpoints in proximity to DCPP.

The Panel public meetings will continue to provide members of the Panel with opportunities to learn about the technical aspects of the decommissioning process and provide input. This forum will also provide opportunities to engage with PG&E on the potential future use of the lands that surround DCPP and potential repurposing of its facilities. Public meetings occur on a quarterly basis (virtual during COVID-19) and are open to the public to receive additional community feedback.

About the Panel:

The Diablo Canyon Decommissioning Engagement Panel was created to foster open and frequent dialogue between members of the local community and PG&E on matters related to DCPD decommissioning. Panelists are local community members from across San Luis Obispo County who were selected to broadly represent diverse community viewpoints. The Panel meets periodically on matters related to DCPD decommissioning and the future use of DCPD lands and facilities.
