Four steps to a safe excavation

1. Call 811 before digging
2. Wait for operators to mark lines
3. Dig with hand-digging tools near the line and backfill properly
4. Notify PG&E regarding damage or leaks

Be safe. Dig safe.
Call 811 Before You Dig

Always call at least two working days before you dig. Your local utilities will locate and mark underground lines using specific colors.

**APWA Uniform Color Code:**

<table>
<thead>
<tr>
<th>Proposed Excavation</th>
<th>Temporary Survey Marking</th>
</tr>
</thead>
<tbody>
<tr>
<td>Electric Power Lines</td>
<td>Gas, Oil, Steam, Chemical</td>
</tr>
<tr>
<td>Cable, Communication</td>
<td>Sewer, Storm Drain</td>
</tr>
<tr>
<td>Irrigation</td>
<td>Potable Water</td>
</tr>
</tbody>
</table>

Have the following information ready when you contact 811:

- Contact name
- Phone number
- County/City
- Nearest cross street
- Start date
- Type of work
- Job location
- Special marking instructions
