

WILDFIRE SAFETY WORK: Tree Inspection on Your Property

Dear Valued Customer:

PG&E has expanded and enhanced our vegetation safety work to address vegetation that poses a higher potential for wildfire risk in high fire-threat areas, like your community.

Today, PG&E contractor crews conducted an inspection on your property and identified vegetation that will need to be addressed to protect public safety.

Working to keep trees away from power lines and cutting down dead, diseased, dying or defective trees that could harm power lines or equipment.
