

IMPORTANT SAFETY WORK: Tree Inspection on Your Property

Dear Valued Customer:

To ensure the safety of you and your community, we surveyed trees today near power lines on your property that could cause a power outage or wildfire.

- _____ tree(s) need to be pruned.
(number)
- _____ tree(s) need to be cut down.
(number)
 - Stumps may be treated with an EPA approved herbicide to control resprouting unless you choose to opt out by speaking to a crew member or calling 1-800-743-5000.
 - Any wood debris less than four inches in diameter will be chipped and spread on-site, if accessible by equipment. In remote areas, crews will cut and scatter debris to avoid necessary wood build-up.
- No tree work is needed at this time.
