PG&E manually reads meters for customers who have chosen to opt out of the SmartMeter™ program or if the meter can't be read remotely.

Follow the steps below to find the date we will read the meter.

- 1 Locate your serial letter in the Service Information section on the right side of your energy statement.
- 2 In the table above, locate your serial letter in the Serial column.
- 3 In the same row as your serial letter, locate the date we will read the meter(s) each month (October 1 in the example above).

We make every effort to read the meter on the scheduled date. However, we may need to read the meter on a slightly different date. Please allow safe and clear access to the meter and secure your pet **one day before** and **one day after** your scheduled meter read date.
