Introducing Willdan’s

Public Energy Efficiency Program

Reopen safely and efficiently

Designed to help cities like yours reopen safely while meeting California energy mandates and explore clean, cost-effective, energy solutions.

This innovative program offers financing and incentives to support cities in achieving their sustainability goals. Willdan will guide your city along the path to clean and affordable energy for a sustainable tomorrow.

www.willdan.com

Willdan is a recognized sustainability leader for cities

6.85M Cumulative MWh saved
110M Cumulative therms saved
$1.4B Paid in utility incentives and rebates
5.4M Metric tons of GHG avoided

Case study
Willdan provided turnkey services for 8 buildings and 3 parks at an East Bay City resulting in:
- $290,000 in annual utility bill savings
- $5.8 million in estimated lifetime savings
- $650,000 in incentives, grants, and rebates

Measures*
Over 100 measures available, including:
- LED Lighting and Controls
- Whole-building Retro-commissioning
- High Efficient Boilers, Chillers, and HVAC package units
- Variable Fan Drives and Controls
- Building Management System Controls and Optimization

*Measures are subject to change

We do the work, so you don’t have to.
Our team of experts provides assistance from enrollment to installation, freeing up your staff to focus on critical city functions. Willdan services are provided to qualified PG&E local government customers. Utility incentives and financing offset the cost of services and equipment investments. It’s easy to get started!

Enroll. Call 844.250.8505 or scan the QR code below to begin the enrollment process and schedule your no-cost site audit.

Audit. Our engineers will identify key energy-efficiency measures (EEMs) for your facility.

Select. Use our business case report to determine which measures work best for your site. This report is complete with costs, energy savings, incentives, and financing opportunities.

Install. Once your incentives are approved, you are ready to install. We can refer trade professionals or work with your preferred contractors.

Save. Sit back and enjoy the savings on your utility bills, as the program pays for itself and more over the equipment lifecycle.

Already working with a service provider for the above steps? No problem, Willdan can still provide incentives and technical services to qualified projects.

How to participate
1. Use the QR code to see if your facility is eligible
2. Let us know what type of project you’re thinking about
3. Request your no-cost facility audit
