Apply online for fast rebates at pge.com/myhome/erebates

Pacific Gas and Electric Company (PG&E) offers rebates on qualified energy-efficient products and improvements for your home. When you purchase and install these products, you can save energy and money while reducing your impact on the environment.

Learn more at pge.com/rebates.

How to apply

1. **Read** the Terms and Conditions. For energy-efficient product terms and conditions visit [here](#). For Generator and Battery Rebate Program terms and conditions [here](#). These will help you determine if you are eligible for a product rebate.

2. **Locate** the item(s) that you are applying for in this catalog. Be sure to review the important qualification information.

3. **Purchase and install** the qualifying product(s) in your home between January 1, 2022 and December 31, 2022, unless otherwise noted.

4. **Complete and submit** your rebate application online at [pge.com/myhome/erebates](http://pge.com/myhome/erebates). All rebate applications must be received within 60 days from date of purchase unless otherwise noted in the applicable terms and conditions.

5. **Rebate eligibility and amounts** are subject to change at any time.

For PG&E rebate process assistance, please call the Smarter Energy Line at 1-800-933-9555.

DEFINITIONS:

A manually operated thermostat allows user to adjust temperature setting up or down as desired by manually turning a dial or moving a lever.

Please note: manually operated thermostats contain mercury which need to be disposed of carefully and properly. To find a safe and free collection site near you, visit recyclehomethermostats.org/california.

A programmable thermostat uses a built-in calendar and clock for temperature adjustment by day and time.

A smart thermostat, in addition to doing everything a programmable thermostat does, is Wi-Fi enabled and automatically adjusts heating and cooling temperature settings in your home for optimal performance.

Uniform Energy Factor (UEF) is a measure of a water heater’s efficiency. UEF is based on recovery efficiency, standby losses and cycling losses. A higher UEF indicates a more efficient water heater.
REQUIREMENTS:

• To see the full list of qualifying products, visit the ENERGY STAR website.

• Smart thermostat must be new, replacing an existing manual or programmable thermostat.

• Installation address must have an electric and/or gas account with PG&E.*

• Only one rebate is available per account.

• Smart thermostat must be installed and connected to Wi-Fi.

• Residence must have a central heating and/or cooling system.

EXCLUSIONS:

• Smart thermostats already discounted at the point of sale through other PG&E-sponsored programs are not eligible for this rebate.

• Customers who already received a rebate or discount on a qualified smart thermostat from PG&E, a PG&E-sponsored program, or another utility are not eligible.

ADDITIONAL REQUIREMENTS FOR TOU96:

• Must be enrolled in a Time-of-Use rate plan or agree to enroll in a Time-of-Use rate plan (TOU-C). Learn more about TOU-C at pge.com/tou4to9.

• For TOU96 rebate, installation address must have an electric account with PG&E.

• Customers who already received a rebate for HV396 cannot re-apply for TOU96.

*Customers who are part of a third party program such as Community Choice Aggregation (CCA), Core Gas Aggregation Service (CGAS) or Direct Access (DA) also qualify as long as all other eligibility requirements are met.
REQUIREMENTS:

• Select rebate code BW114 if your qualified Energy Star Electric Heat Pump Water Heater replaces a 35 to 45 gallon water heater.

• Select rebate code BW115 if your qualified Energy Star Electric Heat Pump Water Heater replaces a 46 to 55 gallon water heater.

• Electric heat pump water heater must be ENERGY STAR certified at time of purchase and have a Uniform Energy Factor (UEF) of 3.09 or greater
  • Must have a capacity greater than 40 gallons and less than or equal to 55 gallons.
  • Must be new and meet or exceed all applicable local, state and federal standards.
  • New electric heat pump water heater must replace an existing electric-powered water heater.

• For qualifying models, download the qualifying product list. Visit marketplace.pge.com for online offers.

• Check with your contractor for installation requirements as regulations vary across California.

• Installation address must have an electric account with PG&E.*

EXCLUSIONS:

• Instantaneous or tankless water heaters do not qualify.

• New construction (residential development projects, e.g. subdivisions) installations do not qualify.

• Thermal efficiency (TE)-rated households do not qualify; only UEF-rated households are eligible for rebates.

• Gas water heater replacement does not qualify for a rebate.

*Customers who are part of a Community Choice Aggregation (CCA) or Direct Access (DA) program also qualify as long as all other eligibility requirements are met.
Generator and Battery Rebate Program

LEVEL REBATES (based on retail price points):

- **$300** (LEVEL 1: $0–$500)
- **$500** (LEVEL 2: $501–$1,000)
- **$1,000** (LEVEL 3: $1,001–above)

**REBATE CODE: GEN20 for Water Well Pump Customers**

**REBATE CODE: GEN21 for Medical Baseline Customers who Purchase Portable Power Stations/Batteries**

This program supports the following groups:

- A qualified backup power generator that meets the specifications to pump water for PG&E eligible customers dependent on well-water pumping for their water needs (verified through the CA Water Agency map, if the address is listed in the purple zone, this indicates that the location relies on a water agency and should not have a well pump).

- A qualified portable power station, or portable battery, to help support PG&E eligible customers who are on the Medical Baseline program and rely on medical devices to sustain life.

PG&E customers must reside in Tier 2 or 3 high fire-threat areas as determined by the California Public Utilities Commission on the High Fire-Threat District map at [https://ia.cpuc.ca.gov/firemap](https://ia.cpuc.ca.gov/firemap).

**Requirements:**

- Backup power generator must be listed on PG&E’s Qualifying Product List (QPL)
- Portable Battery (or Portable Power Station) must be listed on PG&E’s Qualifying Product List (QPL)

Rebate amounts cannot exceed the purchase price of the product, nor can it include taxes or shipping costs. Customers who participate in PG&E’s CARE or FERA Program can receive an additional $200 if the total Rebate amount which includes the applicable Level amount, does not exceed the qualifying Product’s purchase price.
More ways to save

• Visit marketplace.pge.com to compare and purchase products for your next energy-efficient upgrade.

• In addition to rebates, PG&E offers a wide range of ways to conserve energy, save money and help the environment. Visit PG&E’s Home Energy Checkup at pge.com/checkup to see where your energy goes, pinpoint problem areas and start on the path to an energy-efficient home.

• PG&E also offers several financial assistance programs for customers in need. Visit pge.com/financialassistance to see if you are eligible.
