

PG&E has tools and programs to help you prepare for **time-of-use rates**, starting in November 2016.

In November, your business will transition to a time-of-use rate plan.

PG&E has developed these free, easy-to-use tools to help you assess your business's energy use and prepare for time-of-use rates.

Your PG&E online account

Lets you view your energy use and rate plan options

Business Energy Checkup

Provides a customized energy assessment and savings plan

Energy Efficiency Financing

Provides 0% interest loans that can be used to repair or upgrade old and worn-out equipment

Visit pge.com/tou now to try these tools and discover ways to prepare.
