

NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO INCREASE RATES FOR THE ENERGY RESOURCE RECOVERY ACCOUNT COMPLIANCE APPLICATION (A.19-02-018)

Summary

On February 28, 2019, Pacific Gas and Electric Company (PG&E) filed its 2018 Energy Resource Recovery Account (ERRA) Compliance application with the California Public Utilities Commission (CPUC). The purpose of this application is to review costs recorded to the ERRA balancing account from the prior year. The application also includes a request to increase rates to recover \$4.69 million in costs related to the seismic (earthquake) studies performed at Diablo Canyon Power Plant.

Background

The ERRA balancing account is used to record fuel and purchased power costs which can be recovered in rates. PG&E recovers these costs with no mark up for return or profit. The purpose of this ERRA Compliance proceeding is to review PG&E's costs associated with obtaining energy for customers and approve rate increases for other program costs noted above. The CPUC will review PG&E's costs to ensure compliance with the previously approved forecast and energy purchasing plans.

How will PG&E's Application affect me?

Many customers receive bundled electric service from PG&E, meaning they receive electric generation, transmission and distribution services. Based on rates currently in effect, the bill for a typical residential NonCARE customer using 500 kWh per month would increase from \$112.08 to \$112.13 or 0.04 percent. Actual bill impacts will vary depending on electricity usage.

How will PG&E's Application affect customers who buy electricity from a third party?

Direct Access (DA) and Community Choice Aggregation (CCA) customers only receive electric transmission and distribution services from PG&E. These customers will not be impacted by this application.

Departing Load customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required to pay certain charges by law or CPUC decision. These customers will not be impacted by this application.

CPUC process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The California Public Advocates Office (CalPA) may review this application. CalPA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. CalPA has a multidisciplinary staff with expertise in economics, finance, accounting and engineering.
