

Business Customers

Know your rate plan options

We provide a range of electric and natural gas rate plans. Find the plan that works best for you based on your budget and energy needs. Log in or register at [pge.com](https://www.pge.com) to compare your current rate plan with other eligible plans or options.

Online you can:

- Get detailed information about your usage
- Manage your energy with our bill-lowering tools
- Compare your rate plan options

In addition to these online tools, you can call [1-800-468-4743](tel:1-800-468-4743) for help with a rate analysis.

Peak hours will be changing for business customers in November 2020 to 4–9 p.m. Optional early enrollment in these new rate plans will begin in November 2019. More information and tools for assessing impacts to your bill will be available at that time.

Time-of-Use* (TOU) Rate Plans

TOU rate plans can help you save money based on when your business uses energy. The price of electricity varies by time of day and season. Prices are higher during peak hours and lower at all other times.

Small General TOU Service (A-1)

is for businesses with peak monthly demand consistently less than 75 kilowatt (kW) or usage of less than 150,000 kilowatt hour (kWh) per year. This rate includes:

- Customer and energy (per kWh) charges only

Small General TOU Service (A-6)

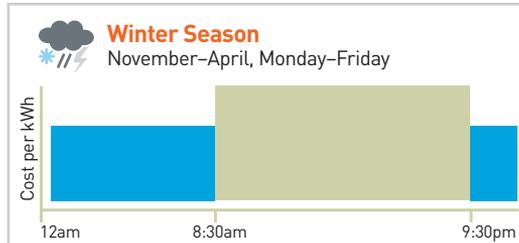

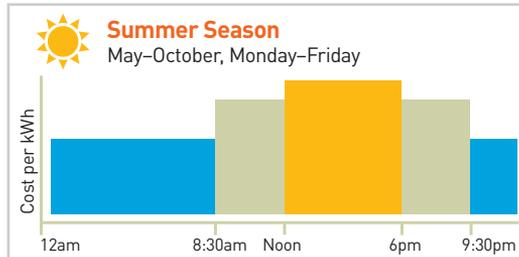

is for businesses with peak monthly demand consistently less than 75 kW or usage of less than 150,000 kWh per year. All customers above these cutoff levels who began service on A-6 prior to April 2017 can remain on A-6 if their demand does not exceed 499 kW for more than three consecutive months during a 12-month period. This rate includes:

- Customer and energy charges only
- Higher energy charges on summer weekday afternoons compared to A-1 TOU
- Slightly lower winter and off-peak energy charges than A-1 TOU

Medium General TOU Service (A-10)

is an optional plan for businesses with peak monthly demand consistently under 500 kW. This rate includes:

- A demand charge (per kW) based on the maximum load
- Higher customer charge than A-1 TOU or A-6 TOU
- Lower energy charges than A-1 TOU or A-6 TOU

- Peak Hours
 - Partial-Peak Hours
 - Off-Peak Hours
- Saturday, Sunday and holidays:** Off-peak hours apply all day, year round.

Medium General Demand-Metered Service (E-19**)

is an optional plan for businesses whose peak monthly demand is consistently under 500 kW. This rate includes:

- A demand charge (per kW) based on the maximum load
- On-peak and part-peak demand charges
- Lower energy charges than A-1 TOU, A-6 TOU or A-10 TOU

*TOU periods will be adjusted for daylight savings time.

**Customers over 499 kW for three consecutive months will automatically transition to E-19 TOU, and those over 999 kW for three consecutive months will automatically transition to E-20 TOU rates. To learn more, visit pge.com/tariffs.

More Information about Rate Plans

Net Energy Metering allows businesses to install a renewable generator, interconnect to the PG&E grid and receive credits to offset the cost of their energy usage. With certain additional requirements, storage can also be installed with the renewable generation. Programs depend on the technology and options you select. To learn more, visit pge.com/interconnectionprograms.

In addition, we offer incentives to make installing renewable energy more affordable for your business. To learn more and see if you qualify, visit pge.com/businesssolarincentives.

California Alternate Rates for Energy (CARE) Program provides business customers a monthly discount on energy bills for qualified group living facilities. To learn more about the CARE program, visit pge.com/CARE.

Peak Day Pricing combines a TOU rate with Peak Day Pricing credits and charges. To learn more, visit pge.com/pdp.

Option R is a voluntary option for qualifying E-19 and E-20 customers with solar generators that provide 15 percent or more of their annual electricity usage. To learn more, visit pge.com/tariffs. This option has:

- Higher on-peak and part-peak energy charges
- Lower on-peak and part-peak demand charges

Note: Direct Access and Community Choice Aggregation customers purchase electricity from another provider and receive electric transmission and distribution services from PG&E. These customers are eligible for many, but not all, of the rate plans or features listed in this notice. To learn more, contact your provider.

Natural Gas Services

Your rate plan is determined by the level of service you need and the amount of gas used per month. For more detailed information, visit pge.com/tariffs.

Small Commercial (G-NR1) is for businesses averaging less than 20,800 therms per month for 12 months. You choose who supplies your natural gas—PG&E or a third-party gas supplier. We will continue to deliver gas to your business regardless of which supplier you choose. This rate is also available to separately metered common areas in a multifamily complex.

Large Commercial (G-NR2) is for businesses averaging greater than 20,800 therms per month for 12 months, excluding the months not exceeding 200 therms. You choose who supplies your natural gas—PG&E or a third-party gas supplier. We will continue to deliver gas to your business regardless of which supplier you choose.

Gas Transportation Service to Noncore End-Use Customers (G-NT) is for businesses that initially qualify for G-NR2 and elect noncore service. Features include:

- Gas must be supplied by a third-party provider
- Service may be curtailed or interrupted due to supply or system constraints
- Reduced rate for transportation of natural gas

Other Natural Gas Rate Plans

Natural Gas Service for Compression on Customer's Premises (G-NGV1) applies to the sale of uncompressed natural gas for the sole purpose of compressing it for use as a motor vehicle fuel while G-NGV2 provides compressed service at our NGV stations open to the public.

Gas Transportation Service to Noncore Natural Gas Vehicles (G-NGV4) is for customers who have elected noncore service and have a natural gas fueling station that averages greater than 20,800 therms per month through a single meter, excluding the months that do not exceed 200 therms.
