

# Business Customers

## Know your rate plan options

We provide a range of electric and natural gas rate plans. Find the plan that works best for you based on your budget and energy needs.

Log in or register at [pge.com](https://www.pge.com) to:

- Get detailed information about your usage
- Compare your rate plan options

In addition to these online tools, you can call [1-800-468-4743](tel:1-800-468-4743) for help with a rate analysis.

# Clean Energy Alternatives

**Net Energy Metering** allows businesses to install a renewable generator, interconnect to the PG&E grid and receive credits to offset the cost of their energy usage. With certain additional requirements, storage can also be installed with the renewable generation. To learn more, visit [pge.com/interconnectionprograms](http://pge.com/interconnectionprograms).

We also offer incentives to make installing renewable energy more affordable for your business. To learn more and see if you qualify, visit [pge.com/businesssolarincentives](http://pge.com/businesssolarincentives).

**Option R** is available for qualifying E19, E20, B19 and B20 customers with solar generators that provide 15 percent or more of their annual electricity usage.

**Option S** is also available for qualifying B19 and B20 customers with storage that has rated capacity in watts of at least 10 percent of peak demand over the previous 12 months. Subject to program caps.

## Coming in 2020

A new **Business Electric Vehicle Rate** will allow customers more affordable charging, simpler pricing structures, and improved budget certainty. Rate availability and more information coming in 2020.

A new **B1 Storage Rate** will be available for small business customers with eligible storage capacity. Rate availability and more information coming in 2020.

# Electric Rate Plan Options

For details and more information on all electric rate plan options, visit [pge.com/tariffs](http://pge.com/tariffs).

## Time-of-Use

Time-of-Use rate plans can help you save money based on when your business uses energy. Prices are higher during peak hours and lower at all other times.

**Peak hours will be changing** for business customers in November 2020 to 4–9 p.m. Optional early enrollment in these new rate plans is available. Sign up or log into your online account to see how your bill will be affected.

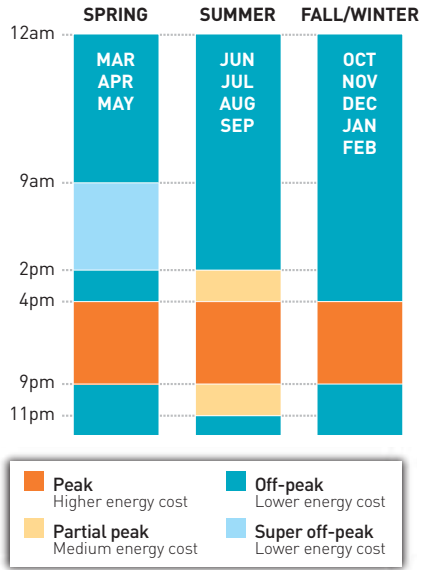

For details and more information, visit [pge.com/tou](http://pge.com/tou).

**Business Low Use (B1)** is for small businesses with low energy use, whose demand is less than 75 kW.

**Business Low Use Alternative (B6)** is for small businesses with low energy use, whose demand is less than 75 kW and who have some flexibility to adjust their energy use throughout the day.

**Business Medium Use (B10)** is for medium business with moderate energy demand consistently under 500 kW and includes a demand charge per kW based on maximum load.

**Business Medium-High Use (B19)** is for large and medium businesses with moderate to high energy demand consistently under 500 kW. This rate features lower energy rates but a higher Demand Charge than the B10 Rate Plan.

## Peak Day Pricing

Peak Day Pricing combines a time-of-use rate with surcharges on a handful of Event Days each year plus rate credits all summer.

Learn more about how Peak Day Pricing works by visiting [pge.com/pdp](http://pge.com/pdp).

**California Alternate Rates for Energy (CARE)** program provides business customers a monthly discount on energy bills for qualified group living facilities. To learn more about the CARE program, visit [pge.com/CARE](http://pge.com/CARE).

**Note:** Direct Access and Community Choice Aggregation customers purchase electricity from another provider and receive electric transmission and distribution services from PG&E. These customers are eligible for many, but not all, of the rate plans or features listed in this notice. To learn more, contact your provider.

## Natural Gas Rates

Your rate plan is determined by the level of service you need, and the amount of gas used per month. For details and more information on all gas rates, visit [pge.com/tariffs](https://www.pge.com/tariffs).

**Small Commercial (G-NR1)** is for businesses averaging less than 20,800 therms per month for 12 months. This rate is also available to separately metered common areas in a multifamily complex.

**Large Commercial (G-NR2)** is for businesses averaging greater than 20,800 therms per month for 12 months, excluding the months not exceeding 200 therms.

For both gas rates, you choose who supplies your natural gas—PG&E or a third party gas supplier. We will continue to deliver gas to your business regardless of which supplier you choose.

For more information and to learn about noncore rate plans, such as **G-NT** and **G-EG**, where your gas must be supplied by a third party gas supplier, visit [pge.com/tariffs](https://www.pge.com/tariffs).

## Rates for Natural Gas Vehicles

**Refueling Stations for Natural Gas Vehicles (G-NGV1)** applies to the sale of uncompressed natural gas for the sole purpose of compressing it for use as a motor vehicle fuel while **G-NGV2** provides compressed service at our stations open to the public.

**G-NGV4** is for natural gas fueling stations who have elected noncore service and average greater than 20,800 therms per month through a single meter, excluding the months that do not exceed 200 therms.
