

Supporting our customers during COVID-19

As part of our commitment to helping our customers and communities impacted by the global coronavirus (COVID-19) pandemic, we have implemented billing and service modifications to provide relief and support for our customers.

Financial assistance support

For qualified customers, including those who recently lost their jobs, even if they are receiving unemployment benefits, we offer additional support to help you save money on bills:

- **California Alternate Rates for Energy (CARE) Program.** Households can save 20% or more each month on their energy bill.
- **Family Electric Rate Assistance (FERA) Program.** Households with three or more persons can apply for a monthly discount on their electric bill.
- **Relief for Energy Assistance through Community Help (REACH).** Provides financial assistance during times of hardship.
- **Medical Baseline.** Residential customers with special energy needs due to certain medical conditions can receive a lower rate on monthly energy bills. **Additionally, customers can enroll without a medical professional signature, and PG&E has suspended removals from the program for up to one year.**

Customer support and protections

We have also implemented emergency protections to support customers impacted by the pandemic, including:

- **Offering flexible payment plans.** You can schedule payment of your outstanding balance over several months.
- **Suspending service disconnections for nonpayment and waiving deposit requirements.** We have suspended disconnections for nonpayment for all residential and small business customers.

Business customer support

We remain committed to helping our business customers save energy and money during this difficult time.
