

# AN IMPORTANT SAFETY MESSAGE

ARE YOUR HOME  
AND FAMILY  
PREPARED FOR  
POWER OUTAGES  
FROM SEVERE  
WEATHER?

# HOW CAN YOU PREPARE?

Severe weather can cause unexpected power outages. Here are a few ways you and your family can prepare and stay safe:

**Restock your emergency kit** after each power outage

**Keep important contacts in a convenient location**, including numbers for relatives, friends, doctors and police and fire departments

**Keep a battery-operated flashlight** and radio accessible

**Have at least one corded landline**, as they can operate if cell towers are down

**Store water-filled plastic containers** in your freezer to help keep food cold
