Advice 5542-E

(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Submittal of Community Choice Aggregator (CCA) Financial Security Requirements in Compliance with D.18-05-022

Pacific Gas and Electric Company (PG&E) hereby submits its calculation of the financial security requirements for the Community Choice Aggregators (CCAs) serving customers within its service territory.

Purpose

In compliance with Ordering Paragraph (OP) 6 of Decision (D.) 18-05-022, this advice submittal is to provide the California Public Utilities Commission (CPUC or Commission) with the calculated financial security requirements for Community Choice Aggregators serving customers within its service territory.

Background

On May 31, 2018, the Commission issued D.18-05-022 which established a methodology to derive incremental procurement costs for the financial security requirement and re-entry fees for an involuntary return of Community Choice Aggregation Service customers.

On August 6, 2018, PG&E submitted Advice 5350-E with its initial calculation of the FSR amount for each CCA serving customers in PG&E's service area. Advice 5350-E was approved by the Commission on September 14, 2018 with an effective date of September 13, 2018.

In Advice 5354-E submitted on August 15, 2018, PG&E requested approval to revise PG&E Electric Rule 23, *Community Choice Aggregation Service*, to incorporate the reentry fees and financial security requirements and calculation methodology into PG&E's Community Choice Aggregation Service tariffs. On September 4, 2018, the Alliance the Alliance for Retail Energy Markets (AReM) submitted a protest to Advice

5354-E objecting that D.18-05-022 “does not involve direct access (“DA”) customers or suppliers” and identified four revisions which “have a, perhaps inadvertent effect on direct access that should be remedied....”¹ California Community Choice Association (CalCCA) also submitted a protest on September 4, 2018, raising a number of objections, including the “deletion of “certain provisions relating to the rights of DA-eligible customers (“DA Provisions”).”² On October 2, 2018, PG&E submitted Advice 5354-E-A to request further revisions to PG&E’s Electric Rule 23, *Community Choice Aggregation Service*, to resolve AReM and CalCCA’s Protest of Advice 5354-E.

OP 8 of D.18-05-022 states:

The amount of the applicable financial security requirement is to be updated twice each year, with a 10% deadband, consistent with the method adopted for electric service providers in Decision 13-01-021.

Consistent with OP 6 of D.13-01-021, the investor owned utilities are required to update the applicable financial security amounts by the 10th of May and November of each year and to submit them in a Tier 2 Advice Letter.

Attachment B contains a table showing, by CCA, the calculated financial security amount based upon the methodology adopted in D.18-05-022 and submitted for Commission approval in Advice 5354-E and Advice 5354-E-A. If the Commission directs otherwise, PG&E will recalculate the FSR amounts consistent with the Commission’s direction and submit the updated FSR amounts for Commission approval. The table has been redacted of any confidential CCA information. An unredacted version with the relevant supporting data and calculation of each respective CCA’s financial security amount is included in Confidential Attachment C. A declaration supporting confidential treatment is found in Attachment A. Concurrent with submitting this advice letter to the Energy Division, PG&E will serve by electronic means on each applicable CCA a copy of this advice letter, with the relevant supporting data, redacted of any third party proprietary information, and the calculation of each respective CCA’s FSR amount provided confidentially only to that specific CCA.

The version of this advice letter posted at www.pge.com is redacted.
