PUBLIC UTILITIES COMMISSION
505 Van Ness Avenue
San Francisco CA 94102-3298

To: Energy Company Filing Advice Letter

From: Energy Division PAL Coordinator

Subject: Your Advice Letter Filing

The Energy Division of the California Public Utilities Commission has processed your recent Advice Letter (AL) filing and is returning an AL status certificate for your records.

The AL status certificate indicates:

- Advice Letter Number
- Name of Filer
- CPUC Corporate ID number of Filer
- Subject of Filing
- Date Filed
- Disposition of Filing (Accepted, Rejected, Withdrawn, etc.)
- Effective Date of Filing
- Other Miscellaneous Information (e.g., Resolution, if applicable, etc.)

The Energy Division has made no changes to your copy of the Advice Letter Filing; please review your Advice Letter Filing with the information contained in the AL status certificate, and update your Advice Letter and tariff records accordingly.

All inquiries to the California Public Utilities Commission on the status of your Advice Letter Filing will be answered by Energy Division staff based on the information contained in the Energy Division's PAL database from which the AL status certificate is generated. If you have any questions on this matter please contact the:

Energy Division's Tariff Unit by e-mail to
edtariffunit@cpuc.ca.gov

Advice 5874-E

(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Mesa-Santa Maria 115kV Power Line Reconductoring Project in the County of San Luis Obispo and the City Santa Maria (Santa Barbara County)

Pacific Gas and Electric Company ("PG&E" or "the Company") hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

To maintain safe and reliable electric service in San Luis Obispo and Santa Barbara counties, Pacific Gas and Electric Company (PG&E) is proposing to replace wires (reconductoring), re-tension wires, replace hardware, install tower extensions, install new shield wire with tower peaks, install 1 new tubular steel pole (TSP), and install 3 new grounding rods on approximately 4.0 miles of the existing Mesa-Santa Maria double circuit 115 Kilovolt (kV) Power Line in agricultural, residential and undeveloped areas of unincorporated San Luis Obispo County, and in residential and commercial areas in the City of Santa Maria (Santa Barbara County), all within existing utility easement or franchise. The project is needed to comply with CPUC General Order 95 minimum ground-to-conductor clearance requirements and eliminate wire over-tensioning.

The project begins at an existing PG&E tower in unincorporated San Luis Obispo County approximately 0.3 mile northwest of the intersection of Hutton Road with Vista del Rio Road and runs south approximately 1.3 miles crossing over Highway 101,

traversing farmland, residential, and crossing over the Santa Maria River into the City of Santa Maria (Santa Barbara County). The project continues due south approximately 2.7 miles parallel with Railroad Avenue through the City of Santa Maria, ending at PG&E's Santa Maria Substation located at the intersection of South Railroad Avenue with West Cypress Street. PG&E will modify approximately 9 existing towers with 10-foot to 15-foot tall extensions. PG&E will install 2-foot to 5-foot tall peaks on approximately 30 existing towers to support new shield wire. PG&E will also install (inter-set) 1 new TSP approximately 95 feet tall within the existing power line alignment. Helicopters will be used to facilitate construction at approximately 5 tower locations with constrained access in undeveloped and agricultural areas of San Luis Obispo County. The existing line spans over the Santa Maria River, however helicopters will be used to avoid impacting the bed, bank and channel, by eliminating the need for ground access. Construction is tentatively scheduled to begin in September 2020, or as soon as practicable after project approval, with completion in December 2020, or as soon as possible after construction begins.

CPUC General Order 131-D, Section III, Subsection B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. The Company believes this project qualifies for the following exemption(s).

- g. "power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR [Environmental Impact Report] finds no significant unavoidable environmental impacts."

This filing will not cause the withdrawal of service, or conflict with any other rate schedule or rule.

Protests

*****Due to the COVID-19 pandemic and the shelter at home orders, PG&E is currently unable to receive protests or comments to this advice letter via U.S. mail or fax. Please submit protests or comments to this advice letter to EDTariffUnit@cpuc.ca.gov and PGETariffs@pge.com*****

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by July 29, 2020, which is 20 days after the date of this filing. Protests should be mailed to the following address:

CPUC Energy Division
ED Tariff Unit
505 Van Ness Avenue, 4th Floor
San Francisco, California 94102

Facsimile: (415) 703-2200
E-Mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

David T. Kraska
Attorney, Law Department
Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120

Facsimile: (415) 973-0516

Erik Jacobson
Director, Regulatory Relations
Pacific Gas and Electric Company
P.O. Box 770000, Mail Code B13U
San Francisco, California 94177

Facsimile: (415) 973-3582
E-Mail: PGETariffs@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

Public Comment

Individuals or groups who do not file an official protest may still submit a comment on the request to the Energy Division at the address noted above, referencing Advice Letter 5874-E.

Effective Date

The Company requests that this Tier 2 advice filing become effective on August 8, 2020, which is 30 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

A copy of this advice letter is being sent electronically and via U.S. Mail to parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI,

Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. All electronic approvals should be sent to e-mail PGETariffs@pge.com. Advice letter filings can also be accessed electronically at <http://www.pge.com/tariffs/>.

ADVICE LETTER SUMMARY

ENERGY UTILITY

MUST BE COMPLETED BY UTILITY (Attach additional pages as needed)

Company name/CPUC Utility No.: Pacific Gas and Electric Company (ID U39E)

Utility type:

☒ ELC ☐ GAS ☐ WATER
☐ PLC ☐ HEAT

Contact Person: Kimberly Loo

Phone #: (415)973-4587

E-mail: PGETariffs@pge.com

E-mail Disposition Notice to: KELM@pge.com

EXPLANATION OF UTILITY TYPE

ELC = Electric GAS = Gas WATER = Water
PLC = Pipeline HEAT = Heat

(Date Submitted / Received Stamp by CPUC)

Advice Letter (AL) #: 5874-E

Tier Designation: 2

Subject of AL: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Mesa-Santa Maria 115kV Power Line Reconductoring Project in the County of San Luis Obispo and the City Santa Maria (Santa Barbara County)

Keywords (choose from CPUC listing): Compliance, G.O. 131-D

AL Type: ☐ Monthly ☐ Quarterly ☐ Annual ☒ One-Time ☐ Other:

If AL submitted in compliance with a Commission order, indicate relevant Decision/Resolution #:

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL:

Confidential treatment requested? ☐ Yes ☒ No

If yes, specification of confidential information:

Confidential information will be made available to appropriate parties who execute a nondisclosure agreement. Name and contact information to request nondisclosure agreement/ access to confidential information:

Resolution required? ☐ Yes ☒ No

Requested effective date: 8/8/20

No. of tariff sheets: 0

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed¹: N/A

Pending advice letters that revise the same tariff sheets: N/A

¹Discuss in AL if more space is needed.

Protests and all other correspondence regarding this AL are due no later than 20 days after the date of this submittal, unless otherwise authorized by the Commission, and shall be sent to:

PROJECT NAME: Mesa-Santa Maria 115kV Power Line Reconductoring Project - (San Luis Obispo, Santa Barbara Counties and City of Santa Maria, PM 74010764)
ADVICE LETTER NUMBER: 5874-E

Proposed Project: To maintain safe and reliable electric service in San Luis Obispo and Santa Barbara counties, Pacific Gas and Electric Company (PG&E) is proposing to replace wires (reconductoring), re-tension wires, replace hardware, install tower extensions, install new shield wire with tower peaks, install 1 new tubular steel pole (TSP), and install 3 new grounding rods on approximately 4.0 miles of the existing Mesa-Santa Maria double circuit 115 Kilovolt (kV) Power Line in agricultural, residential and undeveloped areas of unincorporated San Luis Obispo County, and in residential and commercial areas in the City of Santa Maria (Santa Barbara County), all within existing utility easement or franchise. The project is needed to comply with CPUC General Order 95 minimum ground-to-conductor clearance requirements and eliminate wire over-tensioning.

The project begins at an existing PG&E tower in unincorporated San Luis Obispo County approximately 0.3 mile northwest of the intersection of Hutton Road with Vista del Rio Road and runs south approximately 1.3 miles crossing over Highway 101, traversing farmland, residential, and crossing over the Santa Maria River into the City of Santa Maria (Santa Barbara County). The project continues due south approximately 2.7 miles parallel with Railroad Avenue through the City of Santa Maria, ending at PG&E's Santa Maria Substation located at the intersection of South Railroad Avenue with West Cypress Street. PG&E will modify approximately 9 existing towers with 10-foot to 15-foot tall extensions. PG&E will install 2-foot to 5-foot tall peaks on approximately 30 existing towers to support new shield wire. PG&E will also install (inter-set) 1 new TSP approximately 95 feet tall within the existing power line alignment. Helicopters will be used to facilitate construction at approximately 5 tower locations with constrained access in undeveloped and agricultural areas of San Luis Obispo County. The existing line spans over the Santa Maria River, however helicopters will be used to avoid impacting the bed, bank and channel, by eliminating the need for ground access. Construction is tentatively scheduled to begin in September 2020, or as soon as practicable after project approval, with completion in December 2020, or as soon as possible after construction begins.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III, Subsection B.1, exempts a utility from the CPUC's requirement to file an application requesting authority to construct if a project meets specific conditions. This project qualifies for the following exemptions:

- g. "power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR [Environmental Impact Report] finds no significant unavoidable environmental impacts."

Additional Project Information: To obtain further information on the proposed project, please call PG&E's Project Information Line at (415) 973-5530.

Public Review Process: Individuals or groups may protest the proposed construction if they believe that PG&E has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

- Your name, mailing address and daytime telephone number.
- Reference to the CPUC Advice Letter Number and Project Name.
- A clear description of the reason for the protest.
- Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by July 29, 2020 at the following address:

Director, Energy Division
 ED Tariff Unit
 California Public Utilities Commission
 505 Van Ness Avenue, Fourth Floor
 San Francisco, California 94102

With a copy mailed to:
 David Kraska, Law Department
 Pacific Gas and Electric Company
 P.O. Box 7442
 San Francisco, California 94120

PG&E must respond within five business days of receipt and serve its response on each protestant and the Energy Division. Within 30 days after PG&E has submitted its response, the CPUC Executive Director will send you a copy of an Executive Resolution granting or denying PG&E's request and stating the reasons for the decision.

Assistance in Filing a Protest: If you need assistance in filing a protest, contact the CPUC Public Advisor: email: public.advisor@cpuc.ca.gov or call: 1-866-849-8390 (toll-free), or (415) 703-2074, or TTY (415) 703-5258.

Public Comment: Even if you do not want to file an official protest, you may still comment on the request. To do so, send your comments to the Energy Division at the address noted above. Please reference Advice Letter 5874-E.
