Advice 5975-E-A

(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Supplemental: PG&E's Modifications to Rule 18 per D.20-09-025

Purpose

Pursuant to Decision (D.) 20-09-025, Pacific Gas and Electric Company (PG&E) is providing modifications to its Electric Rule 18 as a supplement to Advice Letter 5975-E, filed October 14, 2020.

This supplemental advice letter replaces original Advice 5975-E in its entirety.

Background

On September 24, 2020, the Commission approved D.20-09-025, Decision Clarifying Status of Electric Vehicle Charging Service Providers as Public Utilities in Rulemaking (R.) 18-12-006. Per Ordering Paragraphs (OP) 3 and 4, PG&E is submitting a supplemental Tier 1 advice letter to its original Advice 5975-E making changes to its version of Electric Rule 18 necessary to conform to the holdings of the Decision. This supplemental advice letter moots the protest to Advice 5975-E filed by ChargePoint and CALSTART on November 2, 2020, and the changes to Electric Rule 18 are consistent with and do not affect the Commission's existing continuing statutory authority under the Public Utilities Code, including Section 218.¹

Proposed Tariff Revisions

This advice letter proposes to make the following revisions (in red) to the definition of Electric Vehicle in PG&E's Electric Rule 18 Part (C)(6):

¹ See, e.g., D.21-01-018, p. 33; Conclusion of Law 11, p. 107.

6. ELECTRIC VEHICLES

As provided by Public Utilities Code Section 216(i), a customer who owns, controls, operates or manages a facility that supplies electricity to the public only for use to charge light duty plug-in electric vehicles is not a public utility and therefore may resell electricity without regard to this Rule. **As provided by California Public Utilities Commission Decision No. 20-09-025, a customer who owns, controls, operates or manages a facility that supplies electricity to the public only for use to charge medium duty, heavy duty, or off-road plug-in electric vehicles or off-road electrical equipment is not a public utility and therefore may resell electricity without regard to this Rule.** Such resale of electricity for electric vehicle charging does not affect the Commission's authority under Public Utilities Code Sections 454, 740.2, or any other applicable statute.

ELECTRIC RULE NO. 18 Sheet 5
SUPPLY TO SEPARATE PREMISES AND SUBMETERING OF ELECTRIC ENERGY

C. FURNISHING AND METERING OF ELECTRICITY (Cont'd.)

6. ELECTRIC VEHICLES

As provided by Public Utilities Code Section 216(i), a customer who owns, controls, operates or manages a facility that supplies electricity to the public only for use to charge light duty plug-in electric vehicles is not a public utility and therefore may resell electricity without regard to this Rule. As provided by California Public Utilities Commission Decision No. 20-09-025, a customer who owns, controls, operates or manages a facility that supplies electricity to the public only for use to charge medium duty, heavy duty, or off-road plug-in electric vehicles or off-road electrical equipment is not a public utility and therefore may resell electricity without regard to this Rule. Such resale of electricity for electric vehicle charging does not affect the Commission's authority under Public Utilities Code Sections 454, 740.2, or any other applicable statute.

D. TESTING OF SUBMETERS

As a condition of service for submetering, where electric energy is furnished in accordance with Paragraphs C.1., C.2., C.3, and C.4. above, customers using submeters as a basis for charges for electricity shall submit to PG&E certification by a meter testing laboratory, satisfactory to PG&E, as to the accuracy of the submeters upon initial installation of such submeters, or for existing submeters upon request of PG&E. As a further condition of service for submetering, the customer shall agree that he will be governed by PG&E's Rule 17, Meter Tests and Adjustment of Bills for Meter Error, with the exception that the word "subcustomer" be substituted for "customer" and the words "Utility's customer" be substituted for "Company." As a further condition of service for submetering, the customer shall agree that PG&E may inspect and examine customer's billing procedures from time to time to determine that such service is made in accordance with this rule or as otherwise may be authorized by the Commission.

E. In the event such energy is furnished or resold otherwise than as provided for above, PG&E may either discontinue service to the customer or, where feasible, furnish electric energy directly to the subcustomer in accordance with PG&E's tariff on file with the Commission.
