Advice 5982-E

(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Palermo Oroville No. 2 60kV Power Line Relocation Project in the City of Oroville.

Pacific Gas and Electric Company ("PG&E" or "the Company") hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

To accommodate the widening of State Route 162 (Highway 162) in the City of Oroville, Butte County, the State of California Department of Transportation (Caltrans) has requested Pacific Gas and Electric Company (PG&E) to relocate approximately 1.25 miles of the existing Palermo-Oroville No. 2 60 kilovolt (kV) Power Line. PG&E will replace and relocate approximately 20 existing wood poles with approximately 20 new wood poles; and install one new wood pole on the existing power line. The project begins at an existing wood pole located approximately 100 feet east of the intersection of Highway 162 with Foothill Boulevard and runs east along Highway 162 to an existing wood pole located approximately 1,500 feet west of the intersection of Highway 162 with Tyme Way. The new wood poles will be approximately 0 to 26 feet taller than the existing wood poles to comply with California Public Utilities Commission (CPUC) General Order 95 minimum ground-to-conductor requirements, while accommodating Caltrans proposed improvements, and electric distribution wires (underbuild) on the power line poles. Construction is tentatively scheduled to begin in the first quarter of 2021, or as soon as practicable after project approval. Construction is scheduled to be completed in May 2021, or as soon as possible after construction begins.

CPUC General Order 131-D, Section III, Subsection B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. The Company believes this project qualifies for the following exemption(s),

- f. "power lines or substations to be relocated or constructed which have undergone environmental review pursuant to CEQA as part of a larger project, and for which the final CEQA document (Environmental Impact Report (EIR) or Negative Declaration) finds no significant unavoidable environmental impacts caused by the proposed line or substation."

Caltrans adopted an Initial Study with Mitigated Negative Declaration for the Butte 162 Road Widening Project, finding no significant unavoidable environmental impacts resulting from PG&E's required utility relocations (February 9, 2020; State Clearinghouse No. 2018122050). <https://ceqanet.opr.ca.gov/2018122050/2>

This submittal will not cause the withdrawal of service, or conflict with any other rate schedule or rule.

ADVICE LETTER NUMBER: 5982-E

Proposed Project: To accommodate the widening of State Route 162 (Highway 162) in the City of Oroville, Butte County, the State of California Department of Transportation (Caltrans) has requested Pacific Gas and Electric Company (PG&E) to relocate approximately 1.25 miles of the existing Palermo-Oroville No. 2 60 kilovolt (kV) Power Line. PG&E will replace and relocate approximately 20 existing wood poles with approximately 20 new wood poles; and install one new wood pole on the existing power line. Construction is tentatively scheduled to begin in the first quarter of 2021, or as soon as practicable after project approval. Construction is scheduled to be completed in May 2021, or as soon as possible after construction begins.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III, Subsection B.1, exempts a utility from the CPUC's requirement to file an application requesting authority to construct if a project meets specific conditions. This project qualifies for the following exemption:

- f. "power lines or substations to be relocated or constructed which have undergone environmental review pursuant to CEQA as part of a larger project, and for which the final CEQA document (Environmental Impact Report (EIR) or Negative Declaration) finds no significant unavoidable environmental impacts caused by the proposed line or substation."

Caltrans adopted an Initial Study with Mitigated Negative Declaration for the Butte 162 Road Widening Project, finding no significant unavoidable environmental impacts resulting from PG&E's required utility relocations (February 9, 2020; State Clearinghouse No. 2018122050). <https://ceqanet.opr.ca.gov/2018122050/2>

Additional Project Information: To obtain further information on the proposed project, please call PG&E's Project Information Line at (415) 973-5530.

Public Review Process: Individuals or groups may protest the proposed construction if they believe that PG&E has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

- 1. Your name, mailing address and daytime telephone number.
- 2. Reference to the CPUC Advice Letter Number and Project Name.
- 3. A clear description of the reason for the protest.
- 4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.
