Dear Sidney Dietz,

On March 17, 2022, Pacific Gas and Electric Company (PG&E) filed Advice Letter (AL) 6530-E, seeking a waiver for its May 2022 year-ahead local Resource Adequacy (RA) requirement in the Greater Bay Area local area. In AL 6530-E, PG&E demonstrated that it was unable to meet the Greater Bay Area local requirement and described its efforts to obtain local RA in the Greater Bay Area local area.<sup>1</sup> Energy Division grants the waiver requests for the reasons explained below.

Commission Decision (D.) 06-06-064 established waiver provisions for local RA procurement. D.20-06-031 established criteria for fulfilling local RA obligations in the six disaggregated PG&E Other local areas. D.21-06-029 established 2022 compliance year obligations for all Load Serving Entities (LSEs). On March 17, 2022, PG&E submitted its May 2022 month-ahead local RA compliance filing, showing a deficiency in the Greater Bay Area local area. PG&E submitted requests for waivers via advice letter pursuant to D.06-06-064, D.20-06-031, and D.21-06-029.

Section 3.3.12 of D.06-06-064 approved a CPUC staff waiver process from LSE procurement obligations as a necessary “market power mitigation measure” and described a standard that an LSE may use to demonstrate that it could not reasonably achieve its Local Capacity Requirement (LCR) obligations:

- (1) a demonstration that the LSE reasonably and in good faith solicited bids for its RAR capacity needs along with accompanying information about the terms and conditions of the Request for Offer or other form of solicitation, and*
- (2) a demonstration that despite having actively pursued all commercially reasonable efforts to acquire the resources needed to meet the LSE’s local procurement obligation, it either*
  - (a) received no bids, or*
  - (b) received no bids for an unbundled RA capacity contract of under \$40 per kW-year or for a bundled capacity and energy product of under \$73 per kW-year, or*

---

<sup>1</sup> On February 3, 2023, PG&E submitted substitute sheets for AL 6530. These sheets replaced Attachments 7 and 8 to Appendix A, which were previously duplicates of Attachments 1 and 2.

*(c) received bids below these thresholds but such bids included what the LSE believes are unreasonable terms and/or conditions, in which case the waiver request must demonstrate why such terms and/or conditions are unreasonable.*

*An LSE's waiver request that meets these requirements is a necessary but not a sufficient condition for the grant of such waiver. The Commission will also consider other information brought to its attention regarding the reasonableness of the waiver request.*

In D.19-06-026, the Commission updated the local trigger price from \$40/kW-year to \$51/kW-year.

Energy Division reviewed PG&E's actions to procure local RA resources to meet the local RA requirement of the Greater Bay Area local area and finds them reasonable considering the capacity available to meet PG&E's local RA obligation. In this case, Energy Division finds that PG&E held solicitations and pursued all commercially reasonable efforts to acquire the resources needed to meet the LSE's local procurement obligation. PG&E's waiver request includes confidential market-sensitive information supporting this finding.

PG&E's waiver request demonstrated that it pursued all commercially reasonable efforts in procuring local capacity to meet its local RA obligations in the Greater Bay Area local area. Energy Division approves Advice Letters 6530-E, PG&E's request for a waiver from its local procurement obligation and any penalties associated with this obligation.

Thus, Energy Division grants PG&E's Advice Letters 6530-E, PG&E's request for a waiver of its May 2022 month-ahead local RA requirements.

Advice Letter 6530-E is effective on February 17, 2023.

Sincerely,

Leuwam Tesfai  
Deputy Executive Director for Energy and Climate Policy/

**Advice 6530-E**

(Pacific Gas and Electric Company U 39 E)

Public Utilities Commission of the State of California

**Subject: Demonstration Associated with Request for Waiver of Penalties for Failure to Meet May 2022 Local Resource Adequacy Procurement Obligations**

**I. Purpose**

On January 31, 2022, the California Public Utilities Commission's (Commission) Energy Division staff granted Advice Letter 6383-E, finding that Pacific Gas and Electric Company (PG&E) "pursued all commercially reasonable efforts in procuring local capacity to meet its local RA obligations . . . in the Greater Bay Area local area." Thus, any penalties associated with PG&E's resource adequacy (RA) obligations in the Greater Bay Area local area have been waived. Notwithstanding the foregoing, at the direction of Energy Division staff PG&E hereby submits this additional Advice Letter to make the demonstration associated with a request for a waiver of penalties for failure to demonstrate in its May 2022 RA compliance filing (May 2022 Filing) that it has met its local RA procurement obligations in the Greater Bay Area local capacity area (LCA) in connection with a change in information between PG&E's annual RA submittal and its May 2022 Filing. The referenced change in information does not impact the satisfactory demonstration included in Advice Letter 6383-E and could not constitute grounds for any change in the disposition of Advice Letter 6383-E. PG&E is submitting this Advice Letter at the same time it is submitting its May 2022 Filing.

**II. Background**

In Decision 06-06-064 and Decision 07-06-029, the Commission first established local RA procurement obligations and a penalty structure applicable when a load serving entity (LSE) fails to demonstrate in its required compliance filing that it has met its allocated local RA procurement obligations.<sup>1</sup> Anticipating that, despite commercially reasonable efforts, some LSEs may ultimately be unable to procure capacity necessary to meet local obligations due to limited availability in local areas, the Commission also adopted a

waiver-of-penalties process. An LSE is able to request, at the time it files its local RA compliance showing, a waiver of penalties associated with its failure to demonstrate that it has met its local RA procurement obligation, if certain conditions are met.<sup>2</sup> The Commission found that this waiver process is “necessary as a market power mitigation measure.”<sup>3</sup> If an LSE demonstrates that a waiver of penalties is justified, it will be obligated to pay for any backstop procurement, but it will not be penalized by the Commission.<sup>4</sup> In Decision 19-02-022, the Commission extended this waiver of penalties process to multiyear local RA procurement obligations.<sup>5</sup>

Initially, local RA penalty waiver requests were received and processed confidentially by Commission staff.<sup>6</sup> In Decision 19-06-026, the Commission adopted local RA obligations for all LSEs for 2020-2022, and determined that the recent increase in local waiver requests necessitated establishment of a formal, transparent waiver review process.<sup>7</sup> Accordingly, the Commission adopted a requirement that local RA penalty waiver requests be submitted via Tier 2 Advice Letter with service to the service list (in redacted form, if necessary) of the RA proceeding open at the time of the request.<sup>8</sup>

### **III. Waiver Request Requirements**

Decision 06-06-064 sets forth the required contents of a waiver request,<sup>9</sup> and Decision 19-06-026 provides an update to such required contents.<sup>10</sup> Section 25 of the Commission’s *2022 Filing Guide for System, Local and Flexible Resource Adequacy (RA) Compliance Filings*, issued October 18, 2021, includes these updated requirements, as follows:

The waiver process is as follows. An LSE requesting a waiver must make such request at the time it files its Local RAR compliance showing. The waiver request must include both of the following:

(1) a demonstration that the LSE reasonably and in good faith solicited bids for its RAR capacity needs along with accompanying information about the terms and conditions of the Request for Offer or other form of solicitation, and

(2) a demonstration that despite having actively pursued all commercially reasonable efforts to acquire the resources

needed to meet the LSE's local procurement obligation, it either

- (a) received no bids, or
- (b) received no bids for an unbundled RA capacity contract of under \$51 per kW-year or for a bundled capacity and energy product of under \$73 per kW-year, or
- (c) received bids below these thresholds but such bids included what the LSE believes are unreasonable terms and/or conditions, in which case the waiver request must demonstrate why such terms and/or conditions are unreasonable.

These requirements are necessary, but are not necessarily a sufficient, condition for CPUC to grant waiver. The Commission will also consider other information brought to its attention regarding the reasonableness of the waiver request.<sup>11</sup>

#### **IV. PG&E's Demonstration Associated with Waiver Request**

Despite good faith, commercially reasonable efforts, PG&E is submitting a May 2022 Filing that demonstrates that PG&E has failed to meet the entirety of its local RA obligations for the May 2022 period. As described below, PG&E reasonably and in good faith issued several electronic solicitations and made all commercially reasonable efforts to meet its current local RA procurement obligations, but it was unable to close its short positions.

##### **A. PG&E reasonably and in good faith solicited bids for PG&E's local RA capacity needs**

Below, PG&E provides a demonstration that it reasonably and in good faith solicited bids for its local RA capacity needs along with accompanying information about the terms and conditions of PG&E's electronic solicitations.

##### **PG&E Solicitations for Capacity to Meet Local RA Procurement Obligations**

PG&E undertook several electronic solicitations to fulfill its local procurement obligations for the 2022 compliance year. Specifically, the first was a Q3 Balance of Year and 2021-2023 Local RA Procurement Resource Adequacy Electronic Solicitation which sought to

procure volumes in the Greater Bay Area LCA, as well as other LCAs. This solicitation was announced on April 6, 2020.

Subsequent solicitations also requested multi-year offers for PG&E to purchase the capacity needed in the Greater Bay Area LCA and other LCAs. These included the Q4 Balance of Year and 2021-2022 Local RA Procurement Resource Adequacy Electronic Solicitation (launched July 9, 2020), as well as a final solicitation with two phases. A Multi-Year Resource Adequacy Electronic Solicitation – Phase 1 was launched on August 11, 2020 for purchases and sales of Local, System, and Flexible RA, and Import Allocation Rights for the years 2021 through 2022.

On September 18, 2020, PG&E started Phase 2 of the 2020 Multi-Year RA Electronic Solicitation for the same products. On November 10, 2020, PG&E launched its February – December 2021 Resource Adequacy Electronic Solicitation that also included PG&E indicating an intent to purchase 2022 Local RA resources.

On January 11, 2021, PG&E launched its Q2 Balance of Year 2021 Resource Adequacy Electronic Solicitation that also included PG&E indicating an intent to purchase 2022 Local RA resources. On April 7, 2021, PG&E launched its Q3 Balance of Year 2021 Resource Adequacy Electronic Solicitation that also included PG&E indicating an intent to purchase 2022 Local RA resources. On July 8, 2021, PG&E launched its Q4 Balance of Year Solicitation that also included PG&E indicating an intent to purchase 2022 Local RA resources. On August 13, 2021, PG&E launched Phase 1 of its 2022 Annual RA solicitation that included Local RA as one of the products PG&E was interested in purchasing. On September 23, 2021, PG&E launched Phase 2 of this solicitation for the same products.

On November 10, 2021, PG&E launched its February – December 2022 Resource Adequacy Electronic Solicitation. On January 11, 2022, PG&E launched its Q2 Balance of Year 2022 solicitation.

The documents associated with these solicitations can be found in Appendix A.

See the table below for a visual representation of these PG&E Electronic Solicitations.

**B. Despite having actively pursued all commercially reasonable efforts to acquire needed resources in the Greater Bay Area LCA, PG&E either received no bids, or received no bids under the specified thresholds**

Below, PG&E provides a demonstration that, despite having actively pursued all commercially reasonable efforts to acquire the resources needed to meet its local procurement obligations in the Greater Bay Area LCA, PG&E either: (a) received no bids, or (b) received no bids for an unbundled RA capacity contract of under \$51 per kW-year or for a bundled capacity and energy product of under \$73 per kW-year.

Results

PG&E was able to procure capacity in each of the required LCAs. However, despite commercially reasonable efforts, PG&E was unable to procure to its full local RA obligations for the Greater Bay Area LCA.<sup>12</sup>

<sup>12</sup> PG&E's results with respect to certain other LCAs are discussed separately in Advice Letter 6384-E, submitted concurrently herewith. In Advice Letter 6384-E, PG&E makes the required demonstration as part of the current local waiver process for its disaggregated PG&E Other local capacity requirements. Such demonstration is made in support of PG&E's utilization of the alternative compliance mechanism adopted by the Commission in Decision 20-06-031.

In the Greater Bay Area LCA, there were (a) suppliers who had no capacity to sell and therefore PG&E received no bids from those suppliers, or (b) suppliers that submitted bids to PG&E with prices that exceeded the applicable \$51 per kW-year or \$73 per kW-year thresholds. Detailed descriptions of PG&E's efforts to procure in the Greater Bay Area LCA, including descriptions of bids received, can be found in Appendix B.

### C. Other information

In Decision 20-06-031, the CPUC adopted local RA requirements for the Greater Bay Area LCA for 2021 that are approximately 40% higher than the local RA requirement for the Greater Bay Area LCA adopted in 2019 for the 2020 compliance year.<sup>13</sup> The large increase was due to the California Independent System Operator Corporation's (CAISO) local capacity requirements (LCR) study, which altered the previously utilized LCR criteria to consider a T-1-1 (i.e. loss of a transformer followed by the loss of second transformer) outage at the Metcalf 500 kV substation. PG&E explained in its comments to the CAISO's Draft LCR Study that this contingency should not be considered given PG&E's layered and robust strategy for addressing the loss of high voltage transformers at the Metcalf substation and citing North American Electric Reliability Corporation standards and Federal Energy Regulatory Commission Order 693.<sup>14</sup> Though the Commission acknowledged that the significant increase in Greater Bay Area LCA LCR was "concerning"<sup>15</sup> and declined to adopt its results for the Greater Bay Area LCA for 2022 or 2023 RA requirements, the Commission did ultimately adopt the 2021 requirements for the Greater Bay Area LCA based off of the CAISO's LCR study in order to "avoid creating a disconnect between setting local RA requirements for 2021 and CAISO's 2021 backstop decisions."<sup>16</sup> The Commission later adopted the CAISO's 2022 LCR Study that continued to use the new LCR criteria.<sup>17</sup> This significantly increased requirement continued to greatly reduce the amount of excess capacity in the Greater Bay Area LCA for the 2022 compliance year, as shown in the table below.

---

Decision 20-06-031, p. 70, Ordering Paragraph 22. Advice Letter 6384-E was not styled as a request for waiver of penalties for failure to meet local RA procurement obligations in the PG&E Other LCA because PG&E fulfilled its local RA procurement obligations in the six disaggregated PG&E Other LCAs pursuant to Ordering Paragraph 22 of Decision 20-06-031. Thus, no penalties were warranted with respect to the PG&E Other LCAs, as confirmed by Energy Division on January 31, 2022.

<b>Greater Bay Area LCA Supply &amp; Requirement</b>		
<b>Year</b>	<b>Sum of August NQC<sup>18</sup> (MW)</b>	<b>Local Requirement<sup>19</sup> (MW)</b>

When the excess capacity in a LCA is reduced, transactional friction can become more impactful with respect to an LSE's ability to meet its local RA requirements.

### Notes:

- PG&E is only accepting same-month offers for sale / bids to purchase (*i.e.*, **simultaneous PG&E buys/PG&E sells**).
- With respect to local for 2020, PG&E is specifically interested in procuring capacity in the Kern local capacity area.
- PG&E prefers to transact Import Energy with prices indexed to CAISO LMP. PG&E will also consider offers with prices indexed to ICE or with fixed prices.

All responses are due **Wednesday, April 15 by 5:00pm Pacific Prevailing Time ("PPT")** at the latest. However, PG&E encourages all participants to submit offers and bids in advance of this deadline.

This email describes the schedule and process by which participants may submit offers and bids, and under which PG&E will evaluate all offers and bids submitted. PG&E, at its sole discretion, may change the terms, requirements, and schedule of this Electronic Solicitation.

## **1. Master Agreement and Confirmations**

PG&E will transact RA and IAR products under an EEI Master Agreement. The executed Master Agreement shall govern transactions entered into pursuant to this Electronic Solicitation, including transaction details agreed to in any RA or IAR Confirmation Agreement ("Confirmation").

PG&E's accompanying Confirmations set forth the terms and conditions to create and define the Products to be transacted. The Confirmations requires participants to comply with the RA requirements as implemented by both the California Public Utilities Commission and the California Independent System Operator. The Confirmation is specific to transactions executed under an EEI Master Agreement with a PG&E Collateral Annex, and, as such, successful participants must have an EEI Master Agreement with a PG&E Collateral Annex in place with PG&E prior to execution of an unmodified Confirmation in this Electronic Solicitation. Modification of the Confirmation may be necessary for those participants without a PG&E Collateral Annex.

Import Energy offers should be for WSPP Schedule C firm energy.

PG&E seeks to include the following language in Import Energy Confirmations:

Any energy associated with a Real Time schedule interruption due to an Uncontrollable Force, consistent with provision C-3.7(b) of the WSPP Service Schedule C for Firm Capacity/Energy Sale or Exchange shall be deemed "Undelivered Energy". PG&E deems CAISO overscheduling on paths as Uncontrollable Force. The contract quantity shall be reduced by the amount of any Undelivered Energy for settlement purposes.

The Parties agree that the following provisions of the Master Agreement shall not be applicable to this Confirmation or Transactions hereunder: Section 22.1(c), Section 27, and the final paragraph of Section 37 (or, if transacting under the EEI Agreement, Sections 5.1(d), 5.1(e), 5.1(f), 10.2(v), 10.2(vi), 10.2(x), and 10.10). Notwithstanding anything to the contrary contained herein, with respect to Buyer: Seller acknowledges and agrees that the existence or continuation of Buyer's Chapter 11 bankruptcy cases pending before the United States Bankruptcy Court for the Northern District of California (Case Nos. 19-30088 (DM) and 19-30089 (DM)) is not an Event of Default with respect to Buyer under the Master Agreement and does not entitle Seller to terminate the Master Agreement or this Confirmation solely because of such existence or continuation.

## **2. Submitting Offers and Bids**

Participants should submit the Offer and Bid Form. If seeking to transact Import Energy, participants should also include an Import Energy Confirmation which incorporates the language from Section 1 above. PG&E will not consider material changes to its RA or IAR confirmations issued with this solicitation.

All offers included in the Offer and Bid Form should be submitted with final pricing. PG&E will not be conducting a price refresh as part of this solicitation. PG&E will consider offers and bids final.

Offers and bids must be submitted via e-mail to the PGE RA Solicitations mailbox ([RASolicitations@pge.com](mailto:RASolicitations@pge.com)), with a copy to the Independent Evaluator Charles Janecek ([Charles.Janecek@PACONSULTING.COM](mailto:Charles.Janecek@PACONSULTING.COM)) by the deadline indicated in Table 1. PG&E deems CAISO overscheduling on paths as Uncontrollable Force. The contract quantity shall be reduced by the amount of any Undelivered Energy for settlement purposes.

Seller hereby agrees that the Product is not sourced from resources internal to the CAISO Balancing Authority Area. Buyer shall have no obligation to accept any energy sourced from resources internal to the CAISO Balancing Authority Area, and any such energy shall not be considered Product.

### 4. Submitting Offers and Bids

Interested participants should submit the Offer and Bid Form. Notes:

- a) PG&E is only accepting same-month offers for sale / bids to purchase (*i.e.*, **simultaneous PG&E buys/PG&E sells**).
- b) With respect to local for 2020, PG&E is specifically interested in procuring capacity in the Kern local capacity area.
- c) PG&E prefers to transact Import Energy with prices indexed to CAISO LMP. PG&E will also consider offers with prices indexed to ICE or with fixed prices.

All responses are due **Wednesday, April 15 by 5:00pm Pacific Prevailing Time (“PPT”)** at the latest. However, PG&E encourages all participants to submit offers and bids in advance of this deadline.

This email describes the schedule and process by which participants may submit offers and bids, and under which PG&E will evaluate all offers and bids submitted. PG&E, at its sole discretion, may change the terms, requirements, and schedule of this Electronic Solicitation.

## 1. Master Agreement and Confirmations

PG&E will transact RA and IAR products under an EEI Master Agreement. The executed Master Agreement shall govern transactions entered into pursuant to this Electronic Solicitation, including transaction details agreed to in any RA or IAR Confirmation Agreement (“Confirmation”).

PG&E’s accompanying Confirmations set forth the terms and conditions to create and define the Products to be transacted. The Confirmations requires participants to comply with the RA requirements as implemented by both the California Public Utilities Commission and the California Independent System Operator. The Confirmation is specific to transactions executed under an EEI Master Agreement with a PG&E Collateral Annex, and, as such, successful participants must have an EEI Master Agreement with a PG&E Collateral Annex in place with PG&E prior to execution of an unmodified Confirmation in this Electronic Solicitation. Modification of the Confirmation may be necessary for those participants without a PG&E Collateral Annex.

Import Energy offers should be for WSPP Schedule C firm energy.

PG&E seeks to include the following language in Import Energy Confirmations:

Any energy associated with a Real Time schedule interruption due to an Uncontrollable Force, consistent with provision C-3.7(b) of the WSPP Service Schedule C for Firm Capacity/Energy Sale or Exchange shall be deemed “Undelivered Energy”. PG&E deems CAISO overscheduling on paths as Uncontrollable Force. The contract quantity shall be reduced by the amount of any Undelivered Energy for settlement purposes.

The Parties agree that the following provisions of the Master Agreement shall not be applicable to this Confirmation or Transactions hereunder: Section 22.1(c), Section 27, and the final paragraph of Section 37 (or, if transacting under the EEI Agreement, Sections 5.1(d), 5.1(e), 5.1(f), 10.2(v), 10.2(vi), 10.2(x), and 10.10). Notwithstanding anything to the contrary contained herein, with respect to Buyer: Seller acknowledges and agrees that the existence or continuation of Buyer’s Chapter 11 bankruptcy cases pending before the United States Bankruptcy Court for the Northern District of California (Case Nos. 19-30088 (DM) and 19-30089 (DM)) is not an Event of Default with respect to Buyer under the Master Agreement and does not entitle Seller to terminate the Master Agreement or this Confirmation solely because of such existence or continuation.

## 2. Submitting Offers and Bids

Participants should submit the Offer and Bid Form. If seeking to transact Import Energy, participants should also include an Import Energy Confirmation which incorporates the language from Section 1 above. PG&E will not consider material changes to its RA or IAR confirmations issued with this solicitation.

All offers included in the Offer and Bid Form should be submitted with final pricing. PG&E will not be conducting a price refresh as part of this solicitation. PG&E will consider offers and bids final.

Offers and bids must be submitted via e-mail to the PGE RA Solicitations mailbox ([RASolicitations@pge.com](mailto:RASolicitations@pge.com)), with a copy to the Independent Evaluator Charles Janecek ([Charles.Janecek@PACONSULTING.COM](mailto:Charles.Janecek@PACONSULTING.COM)) by the deadline indicated in Table 1. Telephonic, hardcopy, or facsimile transmission of an offer or bid is not acceptable. PG&E will not be responsible for any unsuccessful transmittals.

Hi [REDACTED] - I just wanted to provide you with an update... our legal counsel completed their review, and identified some issues that the business needs to make decisions on. Due to vacation schedules, I have not been able to get input from the relevant stakeholders yet, so I think this is going to take me another week. I am committed to getting this done ASAP, and apologize for the delay!

I understand and agree. I have not had a chance to review the proposed edits from our legal counsel, and I will be on vacation tomorrow, but I am prioritizing this for early next week. I am planning to send our proposed redlines to you all by Thursday. Would that work for you?

Thanks,

Hi [REDACTED],

Our legal counsel has finished review/redlines of PG&E's standard Cover Letter, Confirm, and Paragraph 10, but we would like to hold off for a couple of weeks before we make an offer for 2022. We have a few outstanding offers that we are waiting to hear back on, and those outcomes will determine how much [REDACTED] capacity we can offer to PG&E. Can we reconnect in mid-July?

Thanks,

Hi [REDACTED] & [REDACTED],

Thank you for the discussion this morning about the outstanding documents required to finalize the transaction initiated in the "2021 Balance of Year PG&E RA eSolicitation". I found drafts of the EEI Cover Sheet, EEI RA Confirm, and Paragraph 10 to the Collateral Annex, and just want to make sure that they are the most recent versions since the RFO was almost 8 months ago. The Paragraph 10 is dated 6/19/20, and the Cover Sheet shows "Version 2.1", but I don't see a date or any other identifier on the EEI RA Confirm . Could you please confirm that the first two are the correct versions and send over the current EEI RA Confirm (or just send over the current versions of each document and I will compare them), and confirm which of our 2022 offers were selected?

Thanks,

[REDACTED]

Good morning [REDACTED],

Thank you for your message -- we appreciate your following up about the potential RA transaction between PG&E and [REDACTED]

I'd like to make sure that we're aligned on the delivery term now under consideration. Whereas we originally contemplated deliveries in [REDACTED] and [REDACTED] of [REDACTED] plus some or all months of 2022, [REDACTED] is no longer able to provide additional RA to PG&E in [REDACTED]. You'll recall from [REDACTED] February 23 email below that [REDACTED] withdrew its offer to PG&E due to impending supply plan-related deadlines. To be clear, our intent was to withdraw the offers for both [REDACTED] and [REDACTED] as the economics of these two offer-months were interdependent.

That being said: [REDACTED] is still very interested in continued discussion of RA deliveries to PG&E during 2022. I have therefore included [REDACTED] on this email, who is now leading [REDACTED] RA contracting efforts. Perhaps you and [REDACTED] can arrange a call to discuss next steps in this process?

Best,

[REDACTED]

Can you please review the documents and provide any updates on your end when you get a chance?

Hi [REDACTED],

Hope you had a great weekend! I apologize for the delay on our end.

Our internal teams have reviewed [REDACTED] and the associated documentation [REDACTED] provided and we are able to move forward. Attached are 3 documents: the EEI cover sheet and PG&E's standard RA confirm (previously reviewed and agreed upon), as well as Paragraph 10 to the Collateral Annex. Paragraph 10 to the Collateral Annex outlines specific credit requirements and is part of our standard process when executing an EEI agreement with a new counterparty. I've updated these 3 documents to reflect the name change to [REDACTED] and removed the reference to [REDACTED] in the RA confirm.

Please review these documents and let me know if you have any questions. Once we receive your feedback we may move forward with execution.

Thank you,

Thank you for the update. We are interested in continuing discussions for [REDACTED] and 2022 deliveries once we have completed internal review of [REDACTED] and have an EEI Master Agreement in place!

Our Credit team has a few follow-up questions that we're hoping to get more clarity on in the meantime:

- Can you provide a breakdown of the ownership percentages of the entities in the diagram as it relates to [REDACTED]

- Can you provide any audited financial statements for [REDACTED]
- [REDACTED] intends on purchasing from PG&E in the future, does [REDACTED] / [REDACTED] have access to a credit facility (e.g. in order to post a Letter of Credit)?

Hi [REDACTED] and the PG&E team,

[REDACTED] is very appreciative of your quick attention to this matter. However, we are withdrawing the offer due to our Supply Plan internal and external deadlines.

We are certainly interested in discussing a new contract for the [REDACTED] month and for future 2022 and beyond deliveries. Thank you for working with us through this process, and I hope we can touch base soon to discuss other opportunities to meet PG&E's RA needs.

Hi [REDACTED] and the PG&E team,

We appreciate the diligence that PG&E is putting towards this contract. However, due to the first delivery month for this contract being [REDACTED] and Supply Plan internal and external deadlines, we are requesting that PG&E complete review of the documents provided by [REDACTED] and that PG&E return the countersigned agreement by 5PM PT on Monday, February 22nd. If PG&E cannot execute the contract by the February 22nd date, we intend to withdraw this particular offer and remove PG&E from our Supply Plans for the impacted months. We welcome the opportunity to contract for other delivery terms, but for this particular [REDACTED] delivery package we are seeking resolution by next week so we can plan our Supply Plans accordingly.

Best,

Hi [REDACTED]

Hope all is well. Just checking in, we are good to start moving with you this week on contracting if you're ready, we can also wait until next week if you still need the time due to the year ahead transaction workload.

Thanks,

I know our team will appreciate the extra time as well next week as we also are working on a few other contracts for the year ahead filings. However, we will get this moving on our end, knowing it will be executed later this month.

Sounds great. Since we do not need these quantities for our year ahead filing, we may de-prioritize execution of this until later in the month while we get everything else settled that needs to get done in October. I apologize in advance if that means I am less responsive to your questions. Just want to make sure you know that we are still interested in getting this transaction done.

Is there anything else you need from us in the interim?

Thanks for the new proposals. We are comfortable moving forward with option 1.

Have you reviewed the EEI master and confirm to determine whether we can provide you with an execution copy? We would like to get this signed by the end of the week if possible. If not, as early as possible next week works.

Thanks,

Hi █

Following up, we can provide two alternative bids, the first providing only █ and █ volumes. Alternatively, we could offer a flat price, providing greater volumes in █ and █. Again, these bids are contingent on accepting all months offered in each offer. We are happy to jump on a quick call to discuss and review the options if that would be helpful.

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
█	█	█	█	█	█	█	█	█	█	█	█

Based on our assessment of █'s offers, we calculate that the average \$/kW-month for the █ MWs submitted is █. We would be willing to purchase the █ MWs submitted at \$█/kW-month, subject to PG&E validating that the CPUC will count these MWs (this will be completed by reviewing the CPUC's approval of █ filing).

Alternatively, if you are willing to reduce MWs in certain months such that PG&E can buy more of the █ MWs offered compared to other months, PG&E would consider paying a higher price.

Thanks,

PG&E Bid Team,  
Thank you for the feedback on [REDACTED]'s 2021 RA offer. We did want to clarify our offer as there seems to be misalignment in the presentation of our bids. What we offered was a multi-month strip, inclusive of April to December, noted as "Group 1" in our submission back on October 5th.

Can you please confirm that [REDACTED] was only shortlisted for May and September volumes? If that is the case, it does not conform with our offer as presented last week.

We appreciate in advance PG&E providing additional clarity on our shortlisted bids.

Best,

Dear Market Participant:

PG&E would like to inform all participants that we will evaluate offers to sell to PG&E even if they do not conform to the Offer and Bid Form or the term of the solicitation. These offers will be considered non-conforming, and will be evaluated

after offers that are considered conforming. If your offer cannot be captured through the Offer and Bid Form as it is currently structured, please describe your offer in the body of the email in your response to the solicitation.

Kind regards,  
PG&E

**To Prospective Participant:**

4	Import Energy *	Buy	5 MW	Jan-Dec 2021	CAISO LMP, ICE Index, or Fixed Price \$/MWh

*\*PG&E’s preference is to transact Import Energy indexed to CAISO LMP, but PG&E will consider offers for ICE Indexed or Fixed Prices transactions too.*

The deadline to submit a response is 5:00 pm (PPT), 2 business days after the final NQC list is published by the CAISO. PG&E reserves the right to distribute an updated solicitation timeline to participants when more information is available.

This email describes the schedule and process by which participants may submit offers and bids, and under which PG&E will evaluate all offers and bids submitted. PG&E, at its sole discretion, may change the terms, requirements, and schedule of this Electronic Solicitation.

**1. Master Agreement and Confirmations**

PG&E will transact RA and IAR products under an EEI Master Agreement. The executed Master Agreement shall govern transactions entered into pursuant to this Electronic Solicitation, including transaction details agreed to in any RA or IAR Confirmation Agreement (“Confirmation”).

PG&E’s provides the attached RA and IAR Confirmations that set forth the terms and conditions to create and define the Products to be transacted. The Confirmations requires participants to comply with the RA requirements as implemented by both the California Public Utilities Commission and the California Independent System Operator. The Confirmation is specific to transactions executed under an EEI Master Agreement with a PG&E Collateral Annex, and, as such, successful participants must have an EEI Master Agreement with a PG&E Collateral Annex in place with PG&E prior to execution of

an unmodified Confirmation in this Electronic Solicitation. Modification of the Confirmation may be necessary for those participants without a PG&E Collateral Annex.

Import Energy offers should be for WSPP Schedule C firm energy.

PG&E seeks to include the following language in Import Energy Confirmations:

Any energy associated with a Real Time schedule interruption due to an Uncontrollable Force, consistent with provision C-3.7(b) of the WSPP Service Schedule C for Firm Capacity/Energy Sale or Exchange shall be deemed "Undelivered Energy". PG&E deems CAISO overscheduling on paths as Uncontrollable Force. The contract quantity shall be reduced by the amount of any Undelivered Energy for settlement purposes.

Any Import Energy transaction must be compliant with CPUC decision D.20-06-028. PG&E will discuss necessary requirements with interested sellers.

## 2. Submitting Offers and Bids

Participants should submit the Offer and Bid Form. If seeking to transact Import Energy, participants should also include an Import Energy Confirmation which incorporates the language from Section 1 above. PG&E will not consider material changes to its RA or IAR confirmations issued with this solicitation.

Please note a few PG&E changes to the Offer and Bid Form functionality. For RA, the allowable count per mutually exclusive group increases from 3 to 6, and the maximum number of groups allowed increases to 10. PG&E has also added the ability to use mutually exclusive groups for import allocation rights.

All offers included in the Offer and Bid Form should be submitted with final pricing. PG&E will not be conducting a price refresh as part of this solicitation. PG&E will consider offers and bids final.

Offers and bids must be submitted via e-mail to the PGE RA Solicitations mailbox ([RASolicitations@pge.com](mailto:RASolicitations@pge.com)), with a copy to the Independent Evaluator Charles Janecek ([Charles.Janecek@PACONSULTING.COM](mailto:Charles.Janecek@PACONSULTING.COM)) by the deadline indicated in Table 1. Telephonic, hardcopy, or facsimile transmission of an offer or bid is not acceptable. PG&E will not be responsible for any unsuccessful transmittals.
