PUBLIC UTILITIES COMMISSION
505 Van Ness Avenue
San Francisco CA 94102-3298

To: Energy Company Filing Advice Letter

From: Energy Division PAL Coordinator

Subject: Your Advice Letter Filing

The Energy Division of the California Public Utilities Commission has processed your recent Advice Letter (AL) filing and is returning an AL status certificate for your records.

The AL status certificate indicates:

- Advice Letter Number
- Name of Filer
- CPUC Corporate ID number of Filer
- Subject of Filing
- Date Filed
- Disposition of Filing (Accepted, Rejected, Withdrawn, etc.)
- Effective Date of Filing
- Other Miscellaneous Information (e.g., Resolution, if applicable, etc.)

The Energy Division has made no changes to your copy of the Advice Letter Filing; please review your Advice Letter Filing with the information contained in the AL status certificate, and update your Advice Letter and tariff records accordingly.

All inquiries to the California Public Utilities Commission on the status of your Advice Letter Filing will be answered by Energy Division staff based on the information contained in the Energy Division's PAL database from which the AL status certificate is generated. If you have any questions on this matter please contact the:

Energy Division's Tariff Unit by e-mail to
edtariffunit@cpuc.ca.gov

Advice 6547-E
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Crag View-Cascade 115kV Power Line Reconductoring and Pole Replacement Project, County of Shasta

Pacific Gas and Electric Company ("PG&E" or "the Company") hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

To comply with California Public Utilities Commission (CPUC) General Order (GO) 95 minimum ground-to-conductor (wire) clearance requirements, eliminate conductor over-tensioning, and replace outdated facilities with newer, more resilient ones, Pacific Gas and Electric Company (PG&E) is proposing to replace conductors over approximately 8.7 miles of the existing Crag View-Cascade 115 kilovolt (kV) Power Line within unincorporated Shasta County. To support the new conductors PG&E will replace approximately 7 existing 3-pole structures with 7 new H-frame (2-pole) structures, and 30 existing H-frame structures with 30 new H-frame structures. The existing structures, which are made of wood and light duty steel, will be replaced with stronger and more-resilient structures made of engineered direct-embedded and tubular steel poles. One existing 3-pole structure will be removed and not replaced. Approximately 31 of the 37 new structures will be approximately 1 to 26 feet taller than the existing structures to comply with CPUC GO 95 minimum ground-to-conductor clearance requirements while accommodating hilly terrain.

The Project begins at an existing PG&E 3-pole structure where the Crag View-Cascade 115kV Power Line connects with the PacifiCorp Dog Creek-Antler Tap 115kV Power Line located approximately 400 feet south of the intersection of Sugarloaf Road with Lakeshore Drive, Shasta County. The project then runs in a southeasterly direction approximately 3.9 miles through unincorporated Shasta County and the community of Lakehead, extending through and adjacent to forest service, rural residential and commercial lands, and crossing 2 unnamed streams, Interstate Highway 5 and Union Pacific Railroad; the alignment then continues southeasterly approximately 4.8 miles through and adjacent to forest service and rural residential lands, crossing the Sacramento River arm of Shasta Lake, 2 unnamed streams, Nelson Creek and Coal Creek, and terminating at an existing 3-pole structure located approximately 375 feet south of the intersection of Coal Creek Road with Skyline Drive, Shasta County. The entire project alignment is in existing PG&E easements or PG&E-owned property.

Helicopters will be used to facilitate construction and minimize ground disturbance. The project will span over the Sacramento River arm of Shasta Lake, Nelson Creek, Coal Creek and 4 unnamed intermittent streams. No work will occur within the lake, bed or bank of the lake or streams, or within wetlands, and no removal of riparian vegetation is required. Construction is tentatively scheduled to begin in June 2022, or as soon as practicable after project approval. Construction will be completed in December 2022, or as soon as possible after construction begins.

Exemption Under GO 131-D

CPUC General Order 131-D, Section III, Subsection B.1 exempts a utility from the CPUC's requirement to file an application requesting authority to construct if a project meets specific conditions. This project qualifies for the following exemption(s):

- b. "the replacement of existing power line facilities or supporting structures with equivalent facilities or structures."

This project consists of the replacement of outdated 115 kV conductors and supporting structures with new 115 kV conductors and supporting structures that have the same form and function as the existing facilities. The line replacement is within the same utility corridor, following the same route as the existing lines.

None of the exceptions to the exemptions in Section III B.2, as specified in CEQA Guidelines section 15300.2, exist to disqualify this project from the NOC process.

The exceptions, and why they do not apply, include the following:

- a. There is a reasonable possibility that the activity may impact an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies.

Discussion: There is no federally- or state-designated critical habitat for any special-status species within the project area. Jurisdictional waters and wetlands within the project area will be avoided. No other designated, mapped and officially-adopted resources of hazardous or critical concern are known to occur in the project area.

- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant.

Discussion: PG&E is not aware of any other projects of the same type in the same place, or over time, that would result in significant cumulative impacts. Moreover, the proposed project would minimize the frequency of repairs and reduce the need for similar work within the transmission corridor in the future.

- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Discussion: There is no reasonable possibility that the project will have a significant effect on the environment due to unusual circumstances. In *Berkeley Hillside Preservation v. City of Berkeley* (2015) 60 Cal.4th 1086 (Berkeley Hillside), the California Supreme Court found that, to apply this exception, the lead agency must find both (a) an unusual circumstance that makes this project different from others in the class, and (b) a reasonable possibility of a significant impact due to that unusual circumstance. (Id. at 1104-1105.) Thus, the first question is whether there is an unusual circumstance that would make this project different from others in the class.

PG&E is continually undertaking reconductoring projects throughout its territory, most of which require replacement, removal and/or addition of structures as well as replacement of the conductors. PG&E's power lines pass through all different land-use types. Numerous reconductoring projects have established laydown yards, used helicopters for construction, required vegetation removal or surface recontouring, used overland access, and adjusted structure locations to avoid resources or other impacts. There is nothing about this project that is different from others in its class. In litigation over the meaning of "unusual circumstances," most courts have declined to find that circumstances were unusual; examples where unusual circumstances were identified were striking in their difference from the norm, including, e.g., a project in a leaking landfill (*Azusa Land Reclamation Company v. Main San Gabriel Basin Watermaster* (1997) 52 Cal.App. 4th 1665, 1207), involving a particular historic wall (*Committee to Save the Hollywoodland Specific Plan v. City of Los Angeles* (2008) 161 Cal.App 4th 1168, 1187), and stock car racing at a fairgrounds near residences (*Lewis v. Seventeenth Dist. Agricultural Ass'n* (1985) 165 Cal App. 3d 823). Each of these cases presented circumstances that were atypical for the type of project proposed and created potentially significant effects due to the unusual circumstances. There is no similar anomaly present in this project.

Even if unusual circumstances were present, which they are not, there is no reasonable possibility of a significant impact due to an unusual circumstance. As explained above,

no significant impacts of any kind have been identified. This project consists of replacing existing power lines with similar facilities. It has been designed to avoid impacts to biological resources, and no other potential impacts have been identified.

Protests

Anyone wishing to protest this submittal may do so by letter sent electronically via E-mail, no later than April 20, 2022, which is 20 days after the date of this submittal. Protests must be submitted to:

CPUC Energy Division
ED Tariff Unit
E-mail: EDTariffUnit@cpuc.ca.gov

The protest shall also be electronically sent to PG&E via E-mail at the address shown below on the same date it is electronically delivered to the Commission:

Sidney Bob Dietz II
Director, Regulatory Relations
c/o Megan Lawson
E-mail: PGETariffs@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

Public Comment

Individuals or groups who do not submit an official protest may still submit a comment on the request to the Energy Division at the address noted above, referencing Advice Letter 6547-E

Effective Date

The Company requests that this Tier 2 advice letter become effective on April 30, 2022, which is 30 days after the date of submittal. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

A copy of this advice letter is being sent electronically and via U.S. Mail to parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. All electronic approvals should be sent to e-mail PGETariffs@pge.com. Advice letter submittals can also be accessed electronically at <http://www.pge.com/tariffs/>.

ADVICE LETTER SUMMARY

ENERGY UTILITY

MUST BE COMPLETED BY UTILITY (Attach additional pages as needed)

Company name/CPUC Utility No.: Pacific Gas and Electric Company (ID U39 E)

Utility type:

- ELC GAS WATER
 PLC HEAT

Contact Person: Kimberly Loo

Phone #: (415)973-4587

E-mail: PGETariffs@pge.com

E-mail Disposition Notice to: KELM@pge.com

EXPLANATION OF UTILITY TYPE

ELC = Electric GAS = Gas WATER = Water
 PLC = Pipeline HEAT = Heat

(Date Submitted / Received Stamp by CPUC)

Advice Letter (AL) #: 6547-E

Tier Designation: 2

Subject of AL: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Crag View-Cascade 115kV Power Line Reconductoring and Pole Replacement Project, County of Shasta

Keywords (choose from CPUC listing): G.O. 131-D

AL Type: Monthly Quarterly Annual One-Time Other:

If AL submitted in compliance with a Commission order, indicate relevant Decision/Resolution #:

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL:

Confidential treatment requested? Yes No

If yes, specification of confidential information:

Confidential information will be made available to appropriate parties who execute a nondisclosure agreement. Name and contact information to request nondisclosure agreement/ access to confidential information:

Resolution required? Yes No

Requested effective date: 4/30/22

No. of tariff sheets: 0

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed¹: N/A

Pending advice letters that revise the same tariff sheets: N/A

¹Discuss in AL if more space is needed.

Protests and correspondence regarding this AL are to be sent via email and are due no later than 20 days after the date of this submittal, unless otherwise authorized by the Commission, and shall be sent to:

PROJECT NAME: Crag View-Cascade 115kV Power Line Reconductor and Pole Replacement Project (Shasta County, P. No. 5790354)**ADVICE LETTER NUMBER: 6547-E**

Proposed Project: To comply with California Public Utilities Commission (CPUC) General Order (GO) 95 minimum ground-to-conductor (wire) clearance requirements, eliminate conductor over-tensioning, and replace outdated facilities with newer, more resilient ones, Pacific Gas and Electric Company (PG&E) is proposing to replace conductors over approximately 8.7 miles of the existing Crag View-Cascade 115 kilovolt (kV) Power Line within unincorporated Shasta County. To support the new conductors PG&E will replace approximately 7 existing 3-pole structures with 7 new H-frame (2-pole) structures, and 30 existing H-frame structures with 30 new H-frame structures. The existing structures, which are made of wood and light duty steel, will be replaced with stronger and more-resilient structures made of engineered direct-embedded and tubular steel poles. One existing 3-pole structure will be removed and not replaced. Approximately 31 of the 37 new structures will be approximately 1 to 26 feet taller than the existing structures to comply with CPUC GO 95 minimum ground-to-conductor clearance requirements while accommodating hilly terrain.

The Project begins at an existing PG&E 3-pole structure where the Crag View-Cascade 115kV Power Line connects with the PacifiCorp Dog Creek-Antler Tap 115kV Power Line located approximately 400 feet south of the intersection of Sugarloaf Road with Lakeshore Drive, Shasta County. The project then runs in a southeasterly direction approximately 3.9 miles through unincorporated Shasta County and the community of Lakehead, extending through and adjacent to forest service, rural residential and commercial lands, and crossing 2 unnamed streams, Interstate Highway 5 and Union Pacific Railroad; the alignment then continues southeasterly approximately 4.8 miles through and adjacent to forest service and rural residential lands, crossing the Sacramento River arm of Shasta Lake, 2 unnamed streams, Nelson Creek and Coal Creek, and terminating at an existing 3-pole structure located approximately 375 feet south of the intersection of Coal Creek Road with Skyline Drive, Shasta County. The entire project alignment is in existing PG&E easements or PG&E-owned property.

Helicopters will be used to facilitate construction and minimize ground disturbance. The project will span over the Sacramento River arm of Shasta Lake, Nelson Creek, Coal Creek and 4 unnamed intermittent streams. No work will occur within the lake, bed or bank of the lake or streams, or within wetlands, and no removal of riparian vegetation is required. Construction is tentatively scheduled to begin in June 2022, or as soon as practicable after project approval. Construction will be completed in December 2022, or as soon as possible after construction begins.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III, Subsection B.1, exempts a utility from the CPUC's requirement to file an application requesting authority to construct if a project meets specific conditions. This project qualifies for the following exemption:

b. "the replacement of existing power line facilities or supporting structures with equivalent facilities or structures."

Additional Project Information: To obtain further information on the proposed project, please call PG&E's [Project Information Line at \(415\) 973-5530](tel:4159735530).

Public Review Process: Individuals or groups may protest the proposed construction if they believe that PG&E has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

- Your name, email address and daytime telephone number.
- Reference to the CPUC Advice Letter Number and Project Name.
- A clear description of the reason for the protest.
- Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by April 20, 2022 at the following address:

Director, Energy Division
ED Tariff Unit
California Public Utilities Commission
E-mail: EDTariffUnit@cpuc.ca.gov

With a copy emailed to:
PG&E Tariffs
Pacific Gas and Electric Company
E-mail: PGETariffs@pge.com

PG&E must respond within five business days of receipt and serve its response on each protestant and the Energy Division. Within 30 days after PG&E has submitted its response, the CPUC Executive Director will send you a copy of an Executive Resolution granting or denying PG&E's request and stating the reasons for the decision.

Assistance in Filing a Protest: If you need assistance in filing a protest, contact the CPUC Public Advisor: email: public.advisor@cpuc.ca.gov or call: 1-866-849-8390 (toll-free), or (415) 703-2074, or TTY (415) 703-5258.

Public Comment: Even if you do not want to file an official protest, you may still comment on the request. To do so, send your comments to the Energy Division at the address noted above. Please reference Advice Letter 6547-E.
