Advice 6723-E

Pacific Gas and Electric Company (U 39 E)

Public Utilities Commission of the State of California

Subject: Resource Adequacy Sales Agreements Pursuant to Decision 22-05-015

Purpose

Pacific Gas and Electric Company (PG&E) hereby informs the California Public Utilities Commission (Commission or CPUC) of two executed sales agreements pursuant to Decision (D.) 22-05-015 issued in the Electric Integrated Resource Planning and Related Procurement Processes proceeding, Rulemaking 20-05-003.

Background

In Ordering Paragraph (OP) 4 of D. 22-05-015, the Commission ordered that for procurement conducted on behalf of bundled service customers of the investor-owned utilities (IOU) in accordance with D.19-11-016, where the load has subsequently migrated to be served by another load serving entity (LSE), the LSE with such new load shall have the option to enter into a new agreement with the relevant IOU to purchase the system resource adequacy (RA) capacity associated with the procurement conducted by the IOU on behalf of the bundled service customers that have since departed from IOU service and are now being served by such other LSE (RA Benefits), at the Power Charge Indifference Adjustment Market Price Benchmark (MPB). D.22-05-015 stipulated that “[o]nce executed, the IOU(s) shall file Tier 1 Advice Letters with all such agreements by no later than October 1, 2022.”¹

On August 23, 2022, two LSEs independently contacted PG&E to express interest in purchasing their share of RA Benefits through a sales agreement pursuant to D.22-05-015. Through subsequent and separate conversations between PG&E and these two LSEs, PG&E agreed to execute a sales agreement to sell RA Benefits to each of the two LSEs for the 2023 RA compliance year. PG&E also agreed to continue working on additional sales agreements to sell RA Benefits for RA compliance years after 2023 to

¹ Rule 1.5 of General Order (GO) 96-B extends the due date to include the first business day after the Commission-directed compliance requirement is due, if the last day does not fall on a business day. Therefore, the time limit to serve this advice letter is extended to Monday, October 3, 2022.

the two LSEs and aims to have these sales agreements for the later years executed by no later than December 31, 2022. PG&E will submit a separate Tier 1 Advice Letter upon execution of these other sales agreements.

I. Overview of the Agreements

The agreed upon sales agreements have been entered into using an Edison Electric Institute (EEI) RA confirmation letter. In accordance with OP 4 of D.22-05-015, these sales agreements were both entered into at the 2022 forecast RA MPB, which was the most recent RA MPB available at the time. Both agreements include a provision for this price to be updated and, for all settled months, to be trued up upon the publication of the 2023 final RA MPB, anticipated to be available in early October 2023.

More information about these sales agreements are available in confidential Appendix A to this advice letter.

Confidential Declaration of Alan Wecker

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

PACIFIC GAS AND ELECTRIC COMPANY

**DECLARATION OF ALAN WECKER
SEEKING CONFIDENTIAL TREATMENT FOR CERTAIN INFORMATION
CONTAINED IN ADVICE LETTER 6723-E**

I, Alan Wecker, declare:

1. I am a Manager in the Energy Transactions department within Energy Policy and Procurement at Pacific Gas and Electric Company (PG&E). In this position, I am responsible for overseeing commercial negotiations and execution of energy transactions at PG&E, including Resource Adequacy transactions. Through these experiences I have become familiar with the types of information that the Commission has indicated is confidential and gained knowledge about the types of information that electricity sellers consider confidential and proprietary. This declaration is based on my personal knowledge of PG&E's practices and my understanding of the Commission's decisions protecting the confidentiality of market-sensitive information.

2. Based on my knowledge and experience, and in accordance with Decisions 06-06-066, 08-04-023, and relevant Commission rules, I make this declaration seeking confidential treatment for certain confidential information contained in PG&E's Advice Letter 6723-E, submitted on October 3, 2022.

3. Attached to this declaration is a matrix identifying the data and information for which PG&E is seeking confidential treatment. The matrix specifies that the material PG&E is seeking to protect constitutes confidential market sensitive data and information covered by Decision 06-06-066 and Decision 08-04-023. The matrix also specifies why confidential protection is justified. Further, the data and information: (1) is not already public; and (2) cannot be aggregated, redacted, summarized or otherwise protected in a way that allows partial disclosure. By this reference, I am incorporating into this declaration all of the explanatory text that is pertinent to my testimony in the attached matrix.

4. The statement in the foregoing paragraph that the identified confidential data are not already public means that, to my knowledge, PG&E does not have a practice of releasing data of this type to the general public without a protective order or applicable non-disclosure agreement in place. It is possible that the data have been released publicly by another party, including by the counterparty to a particular procurement contract. Additionally, it is possible that a member of the public could ascertain with reasonable certainty the confidential data using publicly available circumstantial evidence, including through public statements made by third parties. I understand that pursuant to Ordering Paragraph 8 of Decision 06-06-066, if a party seeks access to specific information that is marked confidential in this upload and that party can demonstrate that the information has already been made publicly available, then the Commission may reject PG&E's assertion of confidentiality and disclose the data.

I declare under penalty of perjury, under the laws of the State of California, that the foregoing is true and correct. Executed on October 3, 2022, at San Francisco, California.
