Advice 6740-E

(Pacific Gas and Electric Company U 39 E)

Public Utilities Commission of the State of California

Subject: Pacific Gas and Electric Company (PG&E) 3rd Quarter 2022 Solar Complaint Trends Information-Only Advice Letter

Purpose

Pacific Gas and Electric Company (PG&E) hereby submits via an information-only submittal a report on complaints received by PG&E from solar customers, in compliance with California Public Utilities Commission (CPUC) Decision (D.)18-09-044 *Adopting Net Energy Metering Consumer Protection Measures Including Solar Information Packet*. This submittal covers the period from July 1, 2022, through September 30, 2022.

Background

California Assembly Bill (AB) 1070 (Gonzalez-Fletcher, approved October 11, 2017) requires, among other things, the Contractors State License Board (CSLB) to receive and review customer complaints regarding solar energy companies and solar contractors, and publish an annual report documenting these complaints beginning July 1, 2019. In Ordering Paragraph (OP) 6 of D.18-09-044, the CPUC directs the IOUs to support solar consumer protection efforts by proposing a method for categorizing and reporting to the CPUC, customer complaints related to solar on a quarterly basis — to be submitted in a Tier 2 advice letter within 90 days of issuance of the Decision per OP 7 of D.18-09-044.

On January 3, 2019, the Joint Investor Owned Utilities (IOU) submitted a Tier 2 Advice Filing — Southern California Edison Company (SCE) AL 3932-E, PG&E AL 5463-E, and San Diego Gas & Electric Company (SDG&E) AL 3320-E — proposing a method for tracking and reporting solar complaints on a quarterly basis to the CPUC. The California Solar & Storage Association (CALSSA) and Solar Energy Industries Association (SEIA) filed a protest on January 23, 2019 to these initial joint IOU submittals.

The IOUs received additional feedback from CPUC Energy Division staff that was informed in part by meetings staff had held with the CSLB on the CSLB's AB 1070 reporting requirements, along with feedback from the joint Solar Agency Task Force complaint working group. Based on this feedback, the IOUs submitted a joint

supplemental Tier 2 advice submittal — SCE AL 3932-E-A, PG&E AL 5463-E-A, and SDG&E AL 3320-E-A — on November 8, 2019 which replaced in full the prior submittal.

We will refer here to the supplemental joint submittal as the “Joint IOU Solar Complaint Categories Filing”.

CPUC Energy Division approved the Joint IOU Solar Complaint Categories Filing on September 24, 2020.

Per OP 7, within 90 days of the Energy Division approval of the Joint IOU Solar Complaint Categories Filing, the utilities are directed to submit quarterly information-only advice filings to the Energy Division documenting solar complaint trends.

Complaints Received from PG&E’s Solar Customers

Pacific Gas and Electric Company (PG&E) submits this information-only advice submittal in compliance with D.18-09-044, to report on solar complaint trends. This submittal covers complaints received by PG&E from solar customers in PG&E’s service area between July 1, 2022, and September 30, 2022 (Q3 2022).

Complaint Tracking

PG&E has a specialized Solar Customer Service Center (SCSC) with teams that are staffed by senior Customer Service Representatives (CSRs). These CSRs are trained to support the specialized needs of solar customers related to Net Energy Metering billing, solar programs, and other services. PG&E’s SCSC CSRs record solar complaints received by phone from PG&E customers by submitting a pre-formatted email to a dedicated internal “Solar Complaints” mailbox. In that email form, CSRs mark the complaint category — per those approved in PG&E AL 5463-E-A — into which the complaint should be categorized.

The four complaint categories are provided below, with sub-categories:

A. Inappropriate Access to Customer Data

1. Solar company use of IOUs’ emergency help line to access customer data inappropriately
2. Solar company use of customers’ online My/Your Account portal or otherwise impersonating a customer

B. Misrepresentation or impersonation

1. Solar company impersonating an IOU representative or partner, misuse of IOUs’ brand or logo
2. Solar company impersonating a government agency representative

C. Equipment or Workmanship Complaints

1. Solar company unresponsive regarding equipment or workmanship issues
2. System never permitted to interconnect by applicable IOU

D. Other

1. Misrepresentation of solar contract terms
2. Other missing or incorrect solar documentation

Table 1 shows the number of complaints received by category during Q3 2022 (i.e., from July 1, 2022, to September 30, 2022). In Q3 2022, PG&E received a total of 99 complaints that fall into the categories approved per PG&E AL 5463-E-A.
