**Footnotes**

<sup>1</sup> GRC funding is authorized at the Major Work Category (MWC) level, not the project level. All work under the same MWC is fungible, hence, this column is "N/A". Direction to provide amounts in this manner was provided by Energy Division in DR Advice 3829-G 5041-E\_001, following PG&E's submittal of the 2016 High-Speed Rail Annual Report.

<sup>2</sup> GT&S budget was not used for HSR as CHSRA was responsible for the costs. The requested forecast was only based on historical net spend in WRO, which excludes HSR's payments.

<sup>3</sup> No CHSRA work was requested in a FERC rate case prior to the 2017 FERC TO case. Further, please note that in 2018, PG&E changed from a stated rate to a formula rate and began only filing costs for projects that are forecast to go operative during or before the test and rate years being filed. As most HSR is forecast to go operative in the future no projects/costs were filed.

<sup>4</sup> GRC has changed switched from using "Authorized" to "Imputed Adopted" in 2021. Will use this term moving forward.
