Advice 6941-E

(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Amendment No. 6 to Supplement No. 2 Under the Master Agreement with the Peninsula Corridor Joint Powers Board Regarding the Peninsula Corridor Electrification Project in Accordance with General Order 96-B, Section 9.2.3, and Resolution E-4811

Purpose

Pacific Gas and Electric Company (PG&E or Company) requests approval for Amendment No. 6 to Supplement No. 2 under the Master Agreement between PG&E and the Peninsula Corridor Joint Powers Board (JPB or Caltrain) for work related to the design and extension of electric transmission facilities to two JPB traction power substations to provide power for the Caltrain Modernization Program (Electrification Project).¹

As required by Ordering Paragraph 9 of Resolution E-4886, PG&E is submitting this Supplement for approval by the Commission pursuant to Section 9.2.3 of General Order (G.O.) 96-B, and Section 5.3 (8) of the Energy Industry Rules.

Background

The background of the Electrification Project is set forth in PG&E's Advice Letter 4853-E and in Resolution E-4811. The Master Agreement, approved in Resolution E-4811 subject to the conditions therein, governs the overall relationship between PG&E and Caltrain with respect to the Electrification Project. Individual scopes of work are or will be addressed in "Supplements" that will set forth the particular scope of work, the authorized dollar amount, and various milestones, deliverables, and respective responsibilities.

Supplement No. 2 was approved by Resolution E-4830 with an authorized contract amount of up to \$1,000,000 for PG&E's monitoring of and assistance with Caltrain's work on interties for its two traction power substations, including the scope of environmental

review, permit responsibility, and land rights. There were three Amendments to Supplement No. 2 that primarily related to increases in the authorized contract amount.²

Amendment No. 3 to Supplement No. 2 addressed the terms regarding certain facilities for the Caltrain intertie project located within Hamline Street. Amendment No. 3 to Supplement No. 2 was executed by JPB and PG&E on April 26, 2021.

Amendment No. 5 to Supplement No. 2 (September 22, 2022) addressed changes to the easement grant date provided under Amendment No. 4 to Supplement No. 2 and clarifies the last sentence.

The subject of this Advice Letter, Amendment No. 6 to Supplement No. 2 (May 3, 2023), addresses changes to the easement grant date provided under Amendment No. 5 to Supplement No. 2.

Discussion

The Amendment No. 6 to Supplement No. 2 under the Master Agreement changes the easement grant date provided under Amendment No. 5 to Supplement No. 2. Other than the change to the easement grant date, Supplement No. 2 remains unchanged.

Safety

The actual work performed under these agreements (oversight, design, and construction) presents no specific safety risks to the public or employees. All work required to interconnect PG&E's transmission system with Caltrain facilities will conform to all current and applicable Commission, industry, and Company safety requirements.
