Advice 4061-G/5471-E

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

**Subject: Establish the San Joaquin Valley Disadvantaged Communities Pilots
Balancing Accounts in Compliance with Decision 18-12-015**

Purpose

Pursuant to Ordering Paragraph (OP) 23 of California Public Utilities Commission (CPUC or Commission) Decision (D.) 18-12-015 (the Decision), Pacific Gas and Electric Company (PG&E) submits for approval this Tier 1 advice letter to establish the San Joaquin Valley Disadvantaged Communities Pilots Balancing Account (SJVDAC PBA) to track the non-leveraged costs of pilot projects against the authorized budget as approved in the Decision over a period of three years using a rate design methodology approved for recovery of other non-CARE Public Purpose Program costs. In addition, the San Joaquin Valley Disadvantaged Communities Pilots Revenue Adjustment Mechanism Balancing Account (SJVDAC PRAM) is submitted for approval to record the authorized revenue requirements and recover amounts in rates.

Background

In 2015, the Commission initiated a rulemaking to identify disadvantaged communities in the San Joaquin Valley, and then to evaluate the feasibility of options to improve access to affordable energy in these communities.¹ To assist in addressing these goals, D.18-12-015 approved pilots in eleven (11) San Joaquin Valley Disadvantaged Communities (SJVDAC).

D.18-12-015, OP 23, directed PG&E and Southern California Edison Company to each file a Tier 1 advice letter within 45 days from issuance of the Decision to establish one-way balancing accounts to track the non-leveraged costs of pilot projects against the costs and budget as approved in the Decision over a period of three years using a rate

¹ Order Instituting Rulemaking to Identify Disadvantaged Communities in the San Joaquin Valley and Provide Economically Feasible Options for Affordable Energy, R. 15-10-030, p. 2 (April 3, 2015).

design methodology approved for recovery of other non-CARE Public Purpose Program costs.

Request

PG&E requests authorization of the following balancing accounts which will allow PG&E to begin recording the actual costs and revenue requirements authorized by Decision 18-12-015.

Pilot Balancing Account to record actual costs and authorized budget

PG&E requests the Commission to approve the establishment of the SJVDAC PBA, a one-way balancing account, to track the actual non-leveraged costs of pilot projects against the authorized budget as approved in the Decision over a period of three years. The purpose of the one-way balancing account is to ensure that cost recovery is limited to actual costs up to the authorized amount. As required by D.18-12-015, additional budget authority for the approved projects must be requested through a petition for modification of that decision.

Revenue Adjustment Mechanism Balancing Account to record the authorized revenue requirement and recover the amount in rates

PG&E also requests the Commission to approve the establishment of SJVDAC PRAM to record the authorized amounts and recover the amounts in rates. Any over or under collection will be refunded to or recovered from customers.

PG&E will record the authorized revenue requirement equitably over 3 years upon approval of this advice letter. However, PG&E does not expect to begin to recover these costs in rates until its billing and revenue accounting systems can be revised to accommodate the changes. Specifically, PG&E expects to derive the rate for the pilot programs based on the adopted method for setting rates for other non-CARE Public Purpose Program charges as directed in OP 23. That new rate would be added to the rates for other Public Purpose Program charges and presented on the bill with total Public Purpose Program charges. At the time PG&E files rates to begin to recover these costs, it will also provide revisions to Electric Preliminary Statement Part I, Rate Schedule Summary, in order to identify revenue supporting these programs for accounting purposes.

Additionally, PG&E notes that it currently has two pending requests for a Public Policy Charge Balancing Account (PPCBA) which would function as an umbrella balancing account with a subaccount structure to aggregate a variety of public policy programs that have been authorized for recovery through the Public Purpose Program charge into one balancing account.² Once one of the two outstanding requests for the PPCBA has been approved, PG&E would move the SJVDAC PRAM approved through this advice letter to the PPCBA as a separate SJVDAC PRAM subaccount. The PPCBA proposals would establish one charge for the PPCBA and the specific rate for each subaccount under the PPCBA will be shown in Preliminary Statement I which will be used allocate a portion of the Public Purpose Program charge to the appropriate subaccount. PG&E would submit the modified tariff for the PPCBA that includes the SJVDAC PRAM subaccount, and the request to eliminate the SJVDAC PRAM, through a Tier 1 advice letter.

Tariff Revisions

Attached to this advice letter are Electric Preliminary Statement Part HU and Part HV:

- To create a new San Joaquin Valley Disadvantaged Communities Pilots Balancing Account (SJVDAC PBA) to record and track the actual non-leveraged costs of pilot projects against the authorized budget as approved in Decision 18-12-015 over a period of three years.
- To create San Joaquin Valley Disadvantaged Communities Pilot Revenue Adjustment Mechanism Balancing Account (SJVDAC PRAM) to record and track the authorized revenue requirement over a period of three years against the amount collected in rates per Decision 18-12-015.

The submittal would not increase any current rate or change, cause the withdrawal of service, or conflict with any rate reschedule or rule.
