Advice 4086-G/5520-E
(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

Subject: Request to Establish a Subaccount in the Public Policy Charge Balancing Account (PPCBA) for San Joaquin Valley Disadvantaged Communities (SJVDAC) Data Gathering Plan and Net Energy Metering (NEM) Measurement and Evaluation Costs

Purpose

Pursuant to Advice 4030-G/5408-E submitted on October 22, 2018 (Request to Establish the San Joaquin Valley Disadvantaged Communities Data Gathering Plan Memorandum Account (SJVDAC DGPMA) and Adopt PG&E’s Recommended Approach for Tracking, Recording and Recovering Associated Costs) effective as of November 21, 2018, and Advice 5420-E submitted on November 2, 2018 (Establish the Net Energy Metering (NEM) Balancing Account for Measurement & Evaluation per Decision 18-09-044 Ordering Paragraph 13) effective as of December 2, 2018, Pacific Gas and Electric Company (PG&E) submits this Tier 1 advice letter to establish a subaccount for the San Joaquin Valley Disadvantaged Communities (SJVDAC) Data Gathering Plan and Net Energy Metering (NEM) measurement and evaluation costs in the Public Policy Charge Balancing Account (PPCBA).

Background

In 2015, the California Public Utilities Commission (CPUC or Commission) initiated a rulemaking to identify disadvantaged communities in the San Joaquin Valley, and then to evaluate the feasibility of options to improve access to affordable energy in these communities.¹ To assist in addressing these goals, CPUC Decision (D.) 18-08-019 consolidated and approved with modifications the Data Gathering Plans proposed by Pacific Gas and Electric Company (PG&E), Southern California Edison Company (SCE), and Southern California Gas Company (SoCalGas). The Data Gathering Plan will gather baseline data on energy, household and community conditions within SJVDACs. D.18-

Ordering Paragraph (OP) 14, directed PG&E, SCE, and SoCalGas to each establish a new memorandum account to record and recover costs associated with the Data Gathering Plan, including Utility administrative costs, and that proposes a recommended approach for tracking, recording and recovering the costs associated with the Data Gathering Plan. The Commission said the recommended approach may include a proposed split for the percentage of costs associated with gas and the percentage associated with electric, a proposed rate design, a proposal for incorporating a gas Public Purpose Program (PPP) cost into surcharge rates and true-up of costs, and additional proposals or recommendations that are necessary to implement the requirements of the Decision.

On October 22, 2018, pursuant to OP 14 of D.18-08-019, PG&E submitted Advice 4030-G/5408-E to establish the SJVDAC DGPMA to track and record the costs associated with the Data Gathering Plan, and to propose a recommended approach for tracking, recording and recovering the costs associated with the Data Gathering Plan. PG&E indicated it would submit a separate advice letter to add the subaccount for these data gathering costs once the PPCBA has been approved by the Commission. The advice letter was approved and effective as of November 21, 2018.

On November 2, 2018, pursuant to OP 13 of D.18-09-044, Adopting Net Energy Metering Consumer Protection Measures Including Solar Information Packet, PG&E submitted Advice 5420-E to establish the Net Energy Metering Balancing Account (NEMBA) to collect its proportionate share of the $2 million budget set aside for measurement and evaluation of the NEM successor tariff. PG&E also indicated in this advice letter that it would submit a separate advice letter to add the subaccount for these measurement and evaluation costs once the PPCBA has been approved by the Commission. The advice letter was approved on November 29, 2018 and was effective as of December 2, 2018.

The PPCBA was approved on January 24, 2019, effective as of September 19, 2018, in Advice 5363-E submitted on August 20, 2018 (Disadvantaged Communities – Single-family Solar Homes Program Balancing Account Implementation Advice Letter).

**Tariff Revisions**

Attached to this advice letter is Electric Preliminary Statement Part HM with the revisions set forth below:

1. Electric Preliminary Statement Part HM *Public Policy Charge Balancing Account*:
   - To add a Public Policy Charge Programs subaccount to track the costs transferred from the SJVDAC DGPMA and NEMBA which is authorized for recovery and the associated PPP charge revenue.
