Advice 4116-G/5581-E

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

Subject: Establishment of the Butte County Mobilehome Park Rebuild Program Agreement (Form 79-1201) for Mobilehome Park Owners/Operators in Butte County

Purpose

As part of Pacific Gas and Electric Company's (PG&E) Butte County Rebuild efforts, PG&E has created a program specifically for mobilehome parks affected by the Camp Fire that is fashioned after the Mobilehome Park (MHP) Utility Upgrade Program that will expedite the reestablishment of utility service to the mobilehome parks and provide direct utility service to the individual mobilehomes. PG&E is seeking approval of PG&E's Butte County Mobilehome Park (MHP) Rebuild Program Agreement (Form 79-1201) to establish an agreement between PG&E and the mobilehome park Owner/Operator for PG&E to install, own and operate traditional utility services in mobilehome parks located in Butte County. This program is referred to herein as the MHP Rebuild Program.

Background

Pursuant to the California Public Utilities Commission's (CPUC or Commission) Decision (D.)14-03-021, Resolution E-4878, and Resolution E-4958, PG&E is offering the Mobilehome Park Utility Upgrade Program ("MHP Program") as a voluntary living pilot program to convert eligible master-metered submetered Mobilehome Parks or Manufactured Housing Communities spaces within PG&E's service territory.

PG&E is working towards restoring services for facilities that were damaged or destroyed in the aftermath of the Camp fire by building new infrastructure to serve standing structures and to build to the future needs of Butte County. This rebuild program does not cover new developments – rather it is focused on restoring service and replacing facilities for MHPs that lost service or had electric and gas facilities damaged or destroyed due to the Camp Fire.

With customers actively requesting services, PG&E is currently working with various MHP Owners/Operators in Butte County to assist their residents by restoring their service as expeditiously as possible.

To accomplish this, PG&E is seeking approval of PG&E's Butte County MHP Rebuild Program Agreement (Form 79-1201) that describes the work being performed by PG&E and the MHP Owners/Operators' designated contractor in restoring the utility service to the MHP. This effort is one of PG&E's Butte County rebuild efforts to provide residents of Butte County the utility services that they need for their homes.

Butte County MHP Rebuild Program (MHP Rebuild Program)

This program is modeled after the MHP Utility Upgrade Program, but there are some differences that have been incorporated to enhance and expedite the MHP Rebuild Program. The difference between the MHP Utility Upgrade Program and the MHP Rebuild Program are:

- All MHPs affected by the Camp Fire are eligible for the MHP Rebuild Program (estimated 36 MHP representing 1,652 spaces) and are not required to be prioritized or pre-qualified by the Safety Enforcement Division (SED) of the CPUC. This will assure that all MHPs in the affected area will be eligible for the MHP Rebuild Program, even those that were deemed low priority or whose spaces were previously directly served by PG&E and were not eligible for the MHP Utility Upgrade Program.
- Consistent with the MHP Utility Upgrade Program, PG&E will reimburse the cost for the MHP Owner/Operator's contractor to purchase and/or install the electric meter pedestals at mobilehomes permitted by the California Department of Housing and Community Development (HCD).
- The connection from the electric pedestals and/or gas meters to the mobilehomes are not covered under this program as most mobile home spaces do not currently have mobile homes available to receive service, and
- This program will also cover the cost of service to any habitable/useable structure on the property. This will insure that other habitable/useable structures on the MHP property will receive their utility service at the same time as the rest of the MHP and will not be delayed due a separate service request application that may have a different timeline.

Like the MHP Utility Upgrade Program, the MHP Owner/Operator selected Contractor will perform all necessary "Beyond-the-Meter" construction and/or electrical work for the MHP Rebuild Program. PG&E will reimburse the MHP Owner/Operator for reasonable and prudently incurred expenses for the installation of the meter pedestal.

PG&E anticipates that it will take about three years to engineer and rebuild the utility infrastructure for the mobilehome parks affected by the Camp Fire, assuming all requirements and permits are obtained within a reasonable time frame from the various agencies. The MHP Rebuild Program will continue until all of the MHPs' utility services impacted by the Camp Fire have been rebuilt or the owners have opted not to participate in this program. PG&E plans to start working with interested MHP owners now using the attached agreement.

PG&E does not plan to track these costs as part of the MHP Utility Upgrade Program due to the differences noted above. PG&E has not determined whether or not it may seek to recover any additional costs associated with the MHP Rebuild Program. Should PG&E wish to do so, PG&E would track the incremental costs incurred in any eligible memoranda accounts and would bring such costs to the Commission for review prior to collection from customers. Given the urgency of the situation, PG&E wants to implement the use of the agreement as soon as practicable despite PG&E's current uncertainty over whether its costs will be recovered.

The purpose of this program is for PG&E to help rebuild the infrastructure in Butte County and provide gas and electric services to residents at MHPs. Furthermore, PG&E is modeling the agreement after that used in the MHP Utility Upgrade Program as the scope of the work is similar and this will allow PG&E to reimburse the MHP Owner/Operator for program covered costs in a timely manner.

Tariff Revisions

With PG&E's Paradise Rebuild Program, PG&E is creating the Paradise Rebuild Program Agreement (Gas and Electric Sample Form 79-1201) to establish an agreement between PG&E and the mobile home park (MHP) owner/ operator. This agreement is fashioned after PG&E's Mobilehome Park Utility Upgrade Program Application (Form 79-1164). The Paradise Rebuild Program Agreement is included as Attachment 1 of this advice letter.

BUTTE COUNTY MHP REBUILD PROGRAM AGREEMENT

- 5.5.2.1. The MHP Owner/Operator, or its representative, is responsible to collect any and all fees associated with “To-the-Meter” service modifications that are not covered by the MHP Rebuild Program that were requested on behalf of the Owner and due to PG&E under the current Rules and Tariffs and forward those payments to PG&E.
- 5.5.2.2. “Beyond-the-Meter” service modifications that are not covered by the Rebuild Program, including installation costs that exceed the most cost-effective option (e.g. alternate routes or below ground installations), will not be eligible for reimbursement from PG&E.
- 5.5.2.3. Any requests for service entrance relocations, rearrangements and upgrades that occur after the design and engineering phase has been completed will result in a change order that may require redesign and/or re-engineering. Additional redesigning and/or re-engineering costs will not be eligible for reimbursement from PG&E.
- 5.5.3. The MHP Owner/Operator shall keep any worksite(s) free of debris, obstructions, landscape, and temporary facilities prior to the initiation of work by PG&E and/or the contractor. Additional facilities that may be requested (e.g. streetlight fixtures) and associated energy charges for the common area facilities will be based on the applicable tariff and will not be eligible for reimbursement from PG&E.
- 5.5.5. The MHP Owner/Operator will work with PG&E to place meter stakes for the contractor which the MHP Owner/Operator selected to install meters at locations that are compliant with PG&E’s standards. In the event where the MHP Owner/Operator is unable to work with PG&E to identify meter locations, MHP Owner/Operator will have to provide detailed, to scale, park layout drawings that include future lot layout and meters will be set based on future building/ lot configurations by the owner. Once the Butte County MHP Rebuild is complete, subsequent meter location issues will be the responsibility of the MHP Owner/ Operator.

5.6. Existing Distribution System (Legacy System)

5.6.1. If the MHP has an existing propane gas distribution system, PG&E will, upon request, replace it with a natural gas distribution system, provided that; 1) the Utility offers natural gas service and the MHP is located within the franchise area that the Utility serves; 2) a distribution line is located nearby and can be connected safely and economically to the MHP; and 3) the request would be replaced under the Utility's existing Distribution and Service Extension Rules (Rule 15 & 16) and would not qualify under the Butte County MHP Rebuild Program.

PG&E may assist the MHP Owner/Operator in preparation and submittal of all other permit applications, but construction permits not covered by PG&E will be paid by the MHP Owner/Operator.

5.8. Environmental, Endangered Species and Cultural Resources Review

5.8.1. Any environmental, endangered species and cultural resources remediation, or other resolution of environmental issues are the sole responsibility of MHP Owner/Operator and must be addressed as required by the agency with jurisdictional authority. PG&E shall not assume remediation responsibility nor bear any costs associated with any required remediation.

5.8.2. Any environmental, endangered species, and cultural resources issues that are identified during construction will result in the immediate suspension of work at the MHP. The MHP Owner/Operator shall resolve these issues prior to work resuming at the MHP. Project completion is contingent on the MHP Owner/

BUTTE COUNTY MHP REBUILD PROGRAM AGREEMENT

Operation resolving outstanding issues. To help avoid project delays, MHP Owner/Operator should make every effort to complete remediation within 90 days.

- 5.9.6. The MHP Representative shall ensure that the MHP Owner/Operator's contractor works with PG&E and keeps the MHP residents informed of the status of the "Beyond-the-Meter" work. Communications will include notices such as temporary outages, detours or street closures. The MHP Representative will also ensure that such notices will remain consistent with PG&E communications and be distributed in a timely manner.

Where such access may be restricted due to fencing or locked gating, the MHP Owner/Operator or the owner of the individual MH-Spaces shall provide a utility approved locking device with a utility keyway. Where electronic gates may be involved, the gate will be fitted with a key switch, with utility keyed keyway, which may activate the controller.
- 5.11.3. If requested by PG&E, the MHP Owner/Operator shall require Contractor to be available to perform joint commissioning with PG&E for the individual services within the MHP.

- 6.5.4. PG&E shall not remove the existing legacy system, unless necessary and the system shall be abandoned in place and PG&E shall isolate the new and existing legacy systems. Parties shall plan and conduct the work and shall require all contractors and subcontractors to abide by all safety requirements incorporated herein and to perform their portion of the work, in accordance with all applicable local, state and federal rules, regulations, codes, and ordinances to safeguard persons and property from injury. The MHP Owner/Operator shall require its Contractor to provide necessary training to its employees and Subcontractors to inform them of the foregoing safety and health rules and standards.

BUTTE COUNTY MHP REBUILD PROGRAM AGREEMENT

- Should PG&E at any time observe the contractor, or any of its subcontractors, performing the work in an unsafe manner, or in a manner that may, if continued, become unsafe, then PG&E shall have the right (but not the obligation) to require the MHP Owner/Operator to stop contractor's work affected by the unsafe practice until contractor has taken corrective action so that the work performance has been rendered safe.

MHP Owner/Operator shall direct the performance of the work by its contractor in compliance with reasonable safety and work practices and with all applicable federal, state, and local laws, rules, and regulations, including but not limited to "Occupational Safety and Health Standards" promulgated by the U.S. Secretary of Labor and the California Division of Occupational Safety and Health, including the wearing of "hard hats" at the worksite if applicable. PG&E may designate safety precautions in addition to those in use or proposed by contractor. PG&E reserves the right to inspect the work and to halt construction to ensure compliance with reasonable and safe work practices and with all applicable federal, state, and local laws, rules, and regulations. Neither the requirement that contractor working on behalf of the MHP Owner/Operator follow said practices and applicable laws, rules, and regulations, nor adherence thereto by contractor, shall relieve MHP Owner/Operator of the sole responsibility to maintain safe and efficient working conditions.
- 7.3. Additional Precautions: Upon PG&E's request, the MHP Owner/Operator shall require its contractor to provide certain safeguards not in use but considered necessary and if contractor fails to comply with the request within a reasonable time, PG&E may provide the safeguards at MHP Owner/Operator's expense. Failure to comply with safety precautions required by PG&E may result in termination of the Agreement for cause.
- 7.4. Parties will immediately notify each other regarding safety and hazardous conditions that may cause harm to PG&E, MHP Owner/Operator, contractors, subcontractors, MHP residents, and/or the general public. Upon notice, the responsible party shall investigate the potential safety hazard, and if necessary, take actions to remedy the situation.
- 7.5. The MHP Owner/Operator shall be responsible for notifying local emergency services, if required, about pending road closures or detours that may affect life safety and services to the MHP and MHP residents.

 - 9.1.2.2. Repay in full to PG&E any reimbursements paid to the MHP Owner/Operator for partial work completed by its contractor.
- 9.1.3. In the event of termination, PG&E shall reimburse the MHP Owner/Operator for services satisfactorily completed prior to the date of cancellation that resulted in direct PG&E service which are of benefit to PG&E. In no event shall PG&E be liable for lost or anticipated profits or overhead on uncompleted portions of the work due to termination.

- 9.1.4. Cancelled MHP Agreement may, at the Utilities option, result in the removal the MHP from the MHP Rebuild Program. 8. Delay and Suspension of Work

- 8.1. Suspension of Work by PG&E: PG&E reserves the right to suspend the work under the MHP Rebuild Program to serve the needs of the greater public.

- 8.2. Notification of Delays: MHP Owner/Operator shall cause contractor to promptly notify PG&E in writing of any impending cause for delay that may affect PG&E's schedule. If possible, PG&E will coordinate and assist contractor in reducing the delay.

9. Termination

- 9.1. Either Party may, at its option, terminate upon 30 day written notice to the other Party.
- 9.1.1. PG&E may cancel or suspend this Agreement for, but not limited to, the following situations:
- 9.1.1.1. The failure, refusal or inability of the MHP Owner/Operator to perform the work in accordance with this Agreement for any reason (except for those reasons that are beyond MHP Owner/Operator's control) after receiving notice from PG&E and an opportunity to cure and MHP Owner/Operator has failed to do so; provided however, at PG&E's option, safety or security violations may result in immediate termination; or
 - 9.1.1.2. The failure, refusal, or inability of the MHP Owner/Operator to initiate its responsibilities under this Agreement within three (3) months of the execution of this Agreement; or
 - 9.1.1.3. The failure or inability of the MHP Owner/Operator to complete the work and be ready to receive service from PG&E within twelve (12) months of the execution of this Agreement; or
 - 9.1.1.4. A legal action is placed against the MHP Owner/Operator which, in PG&E's opinion, may interfere with the performance of the MHP Rebuild.
- 9.1.2. If the MHP Owner/Operator terminates the Agreement, the MHP Owner/Operator will:
- 9.1.2.1. Not be eligible for reimbursement for any "Beyond-the-Meter" work that did not result in a direct Utility service of an individual MH-Space; and
 - 9.1.2.2. Repay in full to PG&E any reimbursements paid to the MHP Owner/Operator for partial work completed by its contractor.
- 9.1.3. In the event of termination, PG&E shall reimburse the MHP Owner/Operator for services satisfactorily completed prior to the date of cancellation that resulted in direct PG&E service which are of benefit to PG&E. In no event shall PG&E be liable for lost or anticipated profits or overhead on uncompleted portions of the work due to termination.

- 9.1.4. Cancelled MHP Agreement may, at the Utilities option, result in the removal of the MHP from the MHP Rebuild Program. MHP Owner/Operator shall be liable for additional costs to PG&E arising from termination. PG&E may terminate this Agreement, suspend work and/or the MHP Rebuild Program if directed to do so by the CPUC.

10. Costs Covered by the MHP Rebuild Program and Reimbursement to MHP Owner/Operator

- 10.1. All costs incurred by PG&E to provide “To-the-Meter” facilities for a typical utility service for each qualifying MH-Space will be covered under the MHP Rebuild Program.
- 10.2. Requests for service entrance relocations, rearrangements, and upgrades are not covered under the MHP Rebuild Program.
- 10.3. Additional reasonable services for common use areas and any eligible habitable/useable structure that pre-date the fire on the property within the MHP that will be served under commercial rate schedules are eligible for inclusion in the MHP Rebuild Program. Except as expressly agreed herein, PG&E will not provide “Beyond-the-Meter” reimbursements for common area services or for other habitable/useable structure. Please see PG&E appendix on covered and non-covered cost (Attachment C).
- 10.4. PG&E will reimburse the MHP Owner/Operator based on the invoice for the “Beyond-the-Meter” to be performed by the contractor. The amount that is eligible for reimbursement for the “Beyond-the-Meter” work shall not exceed the “Cost Covered by the Rebuild Program” amount listed on Attachment C, without prior written approval from PG&E. PG&E will review all invoices received for the “Beyond-the-Meter” work by the contractor and will reimburse the MHP Owner/Operator for all prudently occurred and reasonable construction expenditures. The Rebuild Program will not cover or reimburse costs for any modification or retrofit of the mobilehome or manufactured home.
- 10.5. PG&E will reimburse the MHP Owner/Operator for the cost of the electric meter pedestal and for its installation by the contractor selected by the MHP Owner/Operator. The installation locations of these pedestals must be compliant with PG&E’s standards.
- 10.6. As soon as practicable and after any jurisdictional authorities have inspected and approved operation of the “Beyond-the-Meter” work, the MHP Owner/Operator may submit invoices to PG&E for “Beyond-the-Meter” work. Invoices submitted shall be submitted in no less than twenty-five percent (25%) increments based on the number of converted MH-Space compared to the total number of eligible MH-Spaces at the MHP. The final reimbursement for the “Beyond-the-Meter” work will be paid to the MHP Owner/Operator after the final commission has been completed and the entire MHP is ready to receive direct PG&E service.

- 10.7. Invoices shall include a listing of MH-Spaces that completed commissioning, and an itemized list and costs for equipment, materials, and labor for “Beyond-the- Meter” facilities that are both covered and not covered by the MHP Rebuild Program.

11. Nondisclosure

The receiving Party shall use the higher of the standard of care that the receiving Party uses to preserve its own confidential information or a reasonable standard of care to prevent unauthorized use or disclosure of such Confidential Information.
- 11.2. 12. Indemnification

- 12.1. The MHP Owner/Operator shall indemnify, defend and hold harmless PG&E from all causes of action or claims arising from projects which were cancelled by the MHP Owner/Operator, for which PG&E shall have no liability. A utility shall have no liability for the MHP submeter systems (referred to as legacy systems), or the “Beyond-the-Meter” infrastructure installed during the program, and the MHP owner will hold harmless, defend and indemnify PG&E from all causes of action or claims arising from or related to these systems.
- 12.2. MHP Owner/Operator acknowledges that any claims, demands, losses, damages, costs, expenses, and legal liability that arise out of, result from, or are in any way connected with the release or spill of any legally designated hazardous material or waste as a result of the Work performed under this Agreement are expressly within the scope of this indemnity, and that the costs, expenses, and legal liability for environmental investigations, monitoring, containment, abatement, removal, repair, cleanup, restoration, remedial Work, penalties, and fines arising from the violation of any local, state, or federal law or regulation, attorney's fees, disbursements, and other response costs are expressly within the scope of this indemnity.
- 12.3. MHP Owner/Operator shall, on PG&E's request, defend any action, claim or suit asserting a claim covered by this indemnity. MHP Owner/Operator shall pay all costs that may be incurred by PG&E in enforcing this indemnity, including reasonable attorney's fees.

13. Compliance with Laws and Regulations

- 13.1. During the performance of the Work, MHP Owner/Operator, contractor and its subcontractors, agents and employees shall fully comply with all applicable state and federal laws and with any and all applicable bylaws, rules, regulations and orders made or promulgated by any government, government agency or department, municipality, board, commission or other regulatory body; and shall provide all certificates for compliance therewith as may be required by such applicable laws, bylaws, rules, regulations, orders, stipulations or plans.
- 13.2. MHP Owner/Operator shall require any contractor or subcontractor to whom any portion of the work to be performed hereunder may be contracted to comply with provisions of this paragraph, and agrees to save and hold PG&E harmless from any and all penalties, actions, causes of action, damages, claims and demands whatsoever arising out of or occasioned by failure of MHP Owner/Operator and Contractor or a Subcontractor to make full and proper compliance with said bylaws, rules, regulations, laws, orders, stipulations or plans.

It is agreed that upon receipt of notice from the affected Party about such Force Majeure Event to the other Party within a reasonable time after the cause relied on, then the obligations of the Party, so far as they are affected by the event of force majeure, shall be suspended during the continuation of such inability and circumstance and shall, so far as possible, be remedied with all reasonable dispatch.

18. Not a Joint Venture

Unless specifically stated in this Agreement to be otherwise, the duties, obligations, and liabilities of the Parties are intended to be several and not joint or collective.
