SUBJECT: Staff Disposition of PG&E's AL 4274-G/5876-E on Tariff Modifications to Implement Residential Disconnection Policies

Dear Mr. Jacobson,

The California Public Utilities Commission's (CPUC) Energy Division (ED) approves Pacific Gas & Electric Company's (PG&E) Advice Letter (AL) 4274-G/5876-E and Supplementals A and B, Tariff Modifications to Implement Residential Disconnection Policies, Pursuant to D.20-06-003, Ordering Paragraph (OP) 6, with an effective date of May 6, 2021. Based on its analysis, ED has determined AL 4274-G/5876-E and Supplementals A and B are compliant with the requirements of Decision (D.)20-06-003.

Attachment 1 contains a detailed discussion of the AL, the protest, replies and ED staff's determination that the AL and Supplemental ALs A and B are compliant with D.20-06-003 OP 6.

Please contact Ben Menzies of Energy Division at benjamin.menzies@cpuc.ca.gov should you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "ERANDOLPH", followed by the word "FOR" in a simple, blocky font.

Attachment 1

On June 16, 2020, the CPUC issued D.20-06-003 regarding new customer disconnection protections, which directed PG&E, along with other large investor-owned utilities (IOUs), to file a Tier 1 Advice Letter within 30 days modifying several elements of its tariff related to customer disconnections for nonpayment. On July 16, 2020, PG&E filed AL 4274-G/5876-E, proposing to modify its tariff to conform with multiple provisions of D.20-06-003.

On August 5, 2020, East Bay Community Energy (EBCE) timely protested AL 4274-G/5876-E, raising three objections:

- (1) First, EBCE requested that PG&E clarify its reference in tariff language to “community agencies” to which customers at risk of disconnection could be referred.
- (2) Second, EBCE argued proposed tariff language only allowed PG&E to offer 12-month payment plans at the company’s option, rather than meeting the requirement of D.20-06-003 that utilities must offer 12-month payment plans to all customers before disconnection.
- (3) Finally, EBCE requested that PG&E clarify the mechanism by which it would convey funds to Community Choice Aggregators (CCAs) whose customers enter into 12-month payment plans with PG&E.

PG&E replied to the protest on August 12, 2020. In response to EBCE’s first point of protest, PG&E clarified that it would refer customers at risk of disconnection to providers of the Low Income Home Energy Assistance Program (LIHEAP) or Relief for Energy Assistance through Community Help (REACH). To address EBCE’s second point of protest, PG&E indicated it would file a supplement addressing EBCE’s concern about tariff language offering 12-month payment plans to all customers (rather than at the company’s option) before disconnection. To address EBCE’s third point of protest, PG&E argued that modifications to PG&E’s tariff to alter the existing process of allocating payments made pursuant to payment plans were beyond the scope of issues appropriately addressed in a Tier 1 AL. ED staff finds that PG&E’s clarification that it will refer customers to LIHEAP or REACH providers is sufficient to resolve EBCE’s first point.

On September 22, 2020, PG&E submitted Supplemental AL 4274-G-A/5876-E-A, striking the tariff language allowing PG&E optionality in extending 12-month payment plans to customers at risk of disconnection. Then, on September 29, 2020, PG&E submitted Supplemental AL 4274-G-B/5876-E-B, removing the tariff language provided in Supplemental A that allowed PG&E to extend payment plans for “up to” 12 months, rather than binding the company to extending complete 12-month payment plans to all customers. Supplemental B therefore sufficiently addresses the concern raised in EBCE’s second point of protest.

Finally, regarding EBCE’s third point of protest, ED staff agrees with PG&E that a Tier 1 AL is an inappropriate vehicle for modifying PG&E’s tariff to change the current practice of partial payment allocation. PG&E AL 4274-G/5876-E and partial Supplemental filings A and B are approved with an effective date of May 6, 2021.

Advice 4274-G/5876-E

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

Subject: Pacific Gas and Electric Company's Tariff Modifications to Implement Residential Disconnection Policies, Pursuant to D.20-06-003, Ordering Paragraph 6

Purpose

Pursuant to Ordering Paragraph (OP) 6 of Decision (D.) 20-06-003, Pacific Gas and Electric Company (PG&E) submits this advice letter to revise and update its tariffs to reflect the policies adopted in D.20-06-003 to reduce residential disconnections. In addition, PG&E is updating its filed Notice Forms (Electric Sample Form 62-0401 and Gas Sample Form 62-0401) to reflect the required verbiage pursuant to D.20-06-003, OP 13.¹

Background

On July 20, 2018, the California Public Utilities Commission (CPUC or Commission) opened Order Instituting Rulemaking (OIR) R.18-07-005 pursuant to Senate Bill (SB) 598 in order to address disconnection rates across California's electric and gas investor-owned utilities by adopting policies and rules that reduce disconnections and improve reconnection processes and outcomes for disconnected customers. R.18-07-005 builds upon previous measures adopted in D. 10-07-048 and D.10-12-051.

On June 16, 2020, the Commission issued the *Phase I Decision Adopting Rules and Policy Changes to Reduce Residential Customers Disconnections for the Larger California-Jurisdictional Energy Utilities* (D.20-06-003). D.20-06-003 adopts policies to reduce residential disconnections in line with the long-term goals of Senate Bill (SB) 598.² Moreover, D.20-06-003, Ordering Paragraph (OP) 6 states:

¹ Note that while the filed Electric and Gas Notice Forms do not include the notice letters sent to customers, PG&E is also updating its notice letters to reflect the requirements in D.20-06-003.

² SB 598 was approved by Governor Brown on September 28, 2017 and requires the Commission to develop policies, rules, or regulations with a goal of reducing, by January 1, 2024, the statewide level of gas and electric service disconnections for nonpayment by residential customers.

If any of the rules adopted herein require changes to a utility's tariff, that utility shall promptly file an advice letter to implement such changes within 30 days of the issuance date of this decision. Provided that the changes are of a ministerial nature, a Tier 1 advice letter filing is acceptable for this purpose.

This advice letter seeks Commission approval to revise various PG&E tariffs and its filed Notice Forms (Electric Sample Form 62-0401 and Gas Sample Form 62-0401) to reflect the requirements adopted by the Commission in D.20-06-003.

APPLICATION FOR SERVICE

Sheet 2

A. APPLICATIONS (cont'd)

The application is merely a request for service, and does not in itself bind PG&E to serve except under reasonable conditions, nor does it bind the customer to take service for a longer period than the minimum requirements of the rate. PG&E may disconnect service to the applicant if the acts of the applicant or the conditions upon the premises indicate that:

(T)

1. false, misleading, incomplete, or inaccurate information was provided to PG&E, or
2. such acts, or conditions on the premises, indicate an intent by the applicant to evade the credit practices of the Utility, or
3. the applicant has requested service in his/her legal name to assist another in avoiding payment of any Utility bill for the service provided at the current service location or any previous location.

(D)

(D)

PG&E may trigger an investigation that would require a customer to verify that they were not previously benefiting from utility service if it identifies an address returned from the Experian Identity Validation tool, matching telephone number; the landlord or homeowner confirms that the occupant is not new or has been residing at the address, the account is transferred to the name of a spouse or roommate, the account is transferred to someone with the same email address as the previous customer; or the account is transferred to someone with the same banking information as the previous customer. PG&E will provide immediate utility service while the investigation is conducted.

(N)

If it is determined that a customer benefited from previous service, PG&E will provide the customer with 30 days to submit additional evidence to dispute the determination. Within 30 days, PG&E will then provide both verbal and written notice to the customer of the outcome and what documentation was used in making the determination and shall document all reasonable efforts to contact the customer either by telephone or in writing.

PG&E will also provide verbal and written notification on the outcome of benefit of service which must include the contact information for the Commission's Consumer Affairs Branch and any internal appeal process that may be available to dispute the determination.

No customer who was under the age of 18 shall be required to absorb a benefit of service charge.

1. An applicant who previously has been a customer of PG&E and whose gas service has been discontinued by PG&E during the last twelve months of that prior service because of nonpayment of bills, may be required to reestablish credit by depositing the amount prescribed in Rule 7* for that purpose, and by paying bills regularly due. (D)
(D)
2. A customer who fails to pay bills before they become past due as defined in Rule 11, and who further fails to pay such bills within five days after presentation of a discontinuance of service notice for non-payment of bills, may be required to pay said bills and reestablish credit by depositing the amount prescribed in Rule 7*; except, a Small Business Customer, as defined in Rule 1, may not be required to reestablish credit if such bills are for retroactive charges resulting from a meter error or billing error as prescribed in Rules 17 and 17.1. In addition, a customer who has been identified by PG&E as a Small Business Customer, as defined in Rule 1, will receive a warning letter after a late payment during any twelve-month period informing the customer that a deposit to reestablish credit may be required if another late payment occurs within the same twelve-month period. This Rule will apply regardless of whether or not service has been discontinued for such nonpayment.
3. A customer using other than residential service may be required to reestablish credit in accordance with Rule 6.B. in case the conditions of service or basis on which credit was originally established have, in the opinion of PG&E, materially changed.

Rules and rates

You may be eligible for a lower rate. Find out about optional rates or view a complete list of rules and rates, visit www.pge.com or call 1-800-743-5000.

If you believe there is an error on your bill, email info@pge.com, or call 1-800-743-5000 to speak with a representative. If you are not satisfied with our response, contact the California Public Utilities Commission (CPUC), Consumer Affairs Branch, 505 Van Ness Avenue, San Francisco, CA 94102, 1-800-649-7570 or 415-703-2032 (TDD/TTY).

To avoid having service turned off while you wait for a CPUC decision, enclose a deposit check (payable to the CPUC) for the disputed amount and a description

of the dispute. The CPUC will only accept deposits for matters that relate directly to billing accuracy. If it is not possible for you to pay your deposit, you must advise the CPUC. PG&E can not turn off your service for nonpayment while it is under review by the CPUC, however, you must continue to pay your current charges to keep your service turned on.

If you are not able to pay your bill, call PG&E to discuss how we can help. You may qualify for programs such as PG&E's CARE program, that can help to reduce your bill. We can connect you with community agencies that can provide additional assistance to you. You may also qualify for PG&E's Energy Savings Assistance Program which is an energy efficiency program for income-qualified residential customers.

ELECTRIC RULE NO. 1
DEFINITIONS

Sheet 17

MAILED: A communication sent by electronic means or enclosed in a sealed envelope, properly addressed and deposited in any U.S. Post Office box, postage prepaid or unless otherwise prescribed in California Public Utility Code §779.1 or by the CPUC⁸.

(T)

MANDATED SAFETY AND LEGAL NOTICES: Mandated notices include notices required to be sent to all PG&E customers by law and include, but are not limited to, notices of the type, and with the frequency, that PG&E has used, and continues to use, to discharge legal obligations, such as quarterly Proposition 65 notices, quarterly notices of rate options applicable to each customer class, notices of rate applications, and notices of public assistance and low income programs.

MASTER-METERING: Where PG&E installs one service and meter to supply more than one residence, apartment dwelling unit, mobilehome space, store, office, etc.

METER: The instrument that is used for measuring the electricity delivered to the Customer.

MIXED USE: Existing customers with a mix of residential and non-residential uses (mixed use) will be presumed to be on an applicable rate. However, if the predominate use is demonstrated to be more than 50% of the designated billing classification (residential or non-residential), then the rate may be changed to the billing classification applicable to the predominate use if the billing classification is consistent with the local governmental entity's treatment of the Premise as residential or non-residential (e.g. commercial). For purposes of determining predominate use, all common area usage will be considered residential usage regardless of whether the customer has elected a residential or non-residential billing classification for that common area usage under PG&E's tariffs. To the extent a Residential Dwelling Unit has both gas and electric service, all of the services must be served under the same billing classification. A customer however, has the obligation to notify PG&E if the billing classification is no longer consistent with the predominant use on the meter. PG&E has no obligation to change rates until such notification is received. Rate change obligations shall be prospective only unless PG&E failed to act on a customer notification in a timely fashion. If a notification occurs and there is a failure to act on PG&E's part, then such failure to act will be treated as a billing error under Rule 17.1

⁸ Public Utilities Code §779.1 requires PG&E to provide a mailed, prepaid notice to customers of potential disconnection due to nonpayment at least 10 days prior to the proposed termination. In addition, pursuant to D.20-06-003, OP 15, PG&E will provide disconnection notices via email to customers who have opted to receive electronic communications.

A. CUSTOMER REQUEST TO TERMINATE LIABILITY FOR PAYMENT FOR SERVICE

1. SERVICE TO OTHER THAN MULTIFAMILY ACCOMMODATIONS

When a customer wants to terminate liability for payment for service, the customer shall give PG&E not less than two days notice and state the date on which the termination is to become effective. The customer may be held responsible for all service furnished at the premises until two days after receipt of such notice by PG&E, or until the date of termination specified in the notice, whichever date is later.

2. SERVICE TO MULTIFAMILY ACCOMMODATIONS

When a customer wants to terminate liability for payment for the service supplied to a multifamily accommodation and the termination may deprive residential tenants of service, the customer shall give PG&E and the tenants notice at least 10 days prior to the date the customer desires to terminate liability for payment for the service. The customer may be held responsible for all service furnished at the premises until ten days after receipt of such notice by PG&E, or until the date of termination specified in the notice, whichever date is later.

APPLICATION FOR SERVICE

Sheet 2

A. APPLICATIONS (cont'd)

The application is merely a request for service, and does not in itself bind PG&E to serve except under reasonable conditions, nor does it bind the customer to take service for a longer period than the minimum requirements of the rate. PG&E may disconnect service to the applicant if the acts of the applicant or the conditions upon the premises indicate that:

(D)

(D)

PG&E may trigger an investigation that would require a customer to verify that they were not previously benefiting from utility service if it identifies an address returned from the Experian Identity Validation tool, matching telephone number; the landlord or homeowner confirms that the occupant is not new or has been residing at the address, the account is transferred to the name of a spouse or roommate, the account is transferred to someone with the same email address as the previous customer; or the account is transferred to someone with the same banking information as the previous customer. PG&E will provide immediate utility service while the investigation is conducted.

(N)

If it is determined that a customer benefited from previous service, PG&E will provide the customer with 30 days to submit additional evidence to dispute the determination. Within 30 days, PG&E will then provide both verbal and written notice to the customer of the outcome and what documentation was used in making the determination and shall document all reasonable efforts to contact the customer either by telephone or in writing.

PG&E will also provide verbal and written notification on the outcome of benefit of service which must include the contact information for the Commission's Consumer Affairs Branch and any internal appeal process that may be available to dispute the determination

No customer who was under the age of 18 shall be required to absorb a benefit of service charge.

MANDATED SAFETY AND LEGAL NOTICES: Mandated notices include notices required to be sent to all PG&E customers by law and include, but are not limited to, notices of the type, and with the frequency, that PG&E has used, and continues to use, to discharge legal obligations, such as quarterly Proposition 65 notices, quarterly notices of rate options applicable to each customer class, notices of rate applications, and notices of public assistance and low income programs.

MASTER-METERING: Where PG&E installs one service and meter to supply more than one residence, apartment dwelling unit, mobilehome space, store, office, etc.

METER: The instrument that is used for measuring the electricity delivered to the Customer.

MIXED USE: Existing customers with a mix of residential and non-residential uses (mixed use) will be presumed to be on an applicable rate. However, if the predominate use is demonstrated to be more than 50% of the designated billing classification (residential or non-residential), then the rate may be changed to the billing classification applicable to the predominate use if the billing classification is consistent with the local governmental entity's treatment of the Premise as residential or non-residential (e.g. commercial). For purposes of determining predominate use, all common area usage will be considered residential usage regardless of whether the customer has elected a residential or non-residential billing classification for that common area usage under PG&E's tariffs. To the extent a Residential Dwelling Unit has both gas and electric service, all of the services must be served under the same billing classification. A customer however, has the obligation to notify PG&E if the billing classification is no longer consistent with the predominant use on the meter. PG&E has no obligation to change rates until such notification is received. Rate change obligations shall be prospective only unless PG&E failed to act on a customer notification in a timely fashion. If a notification occurs and there is a failure to act on PG&E's part, then such failure to act will be treated as a billing error under Rule 17.1

⁸ Public Utilities Code §779.1 requires PG&E to provide a mailed, prepaid notice to customers of potential disconnection due to nonpayment at least 10 days prior to the proposed termination. In addition, pursuant to D.20-06-003, OP 15, PG&E will provide disconnection notices via email to customers who have opted to receive electronic communications.
