Advice 4380-G

(Pacific Gas and Electric Company ID U 39 G)

Public Utilities Commission of the State of California

**Subject: Revision to PG&E's Core Interstate Capacity Planning Range
Approved in Advice Letter 3997-G and Modified by Decision 19-09-025**

Purpose

Pacific Gas and Electric Company (PG&E) hereby submits for approval this Advice Letter revising the core portfolio interstate pipeline capacity planning range volumes approved in Advice Letter 3997-G as modified by OP 20 of D.19-09-025.

Interstate Capacity Planning Range

In D.15-10-050, the Commission directed PG&E to set its Non-Winter (April through October) core interstate pipeline capacity planning range between 80% and 105% of forecast average annual daily core demand, and its Winter (November through March) core interstate pipeline capacity planning range between 100% and 115% of forecast average annual daily core demand.

In July 2018, PG&E filed Advice Letter 3997-G to revise the portfolio capacity planning range volumes for April 2019 through March 2021.

In D.19-09-025, the Commission approved the following changes to D.15-10-050: (1) increase the winter range maximum from 115 percent to 162 percent of the average annual daily demand so that PG&E Core Gas Supply (CGS) has the option to purchase more pipeline capacity during the winter months, and (2) reduce the March range minimum from 100 percent to 80 percent of the average annual daily demand because with the increase in planned storage withdrawal in March, it may have less need for interstate pipeline capacity that month.

	Minimum Capacity Holding	Maximum Capacity Holding
Apr-Oct	80%	105%
Nov-Feb	100%	162%
March	80%	162%

Accordingly, PG&E submits this Advice Letter to memorialize the revised capacity planning range in accordance with D.19-09-025. The revised planning range volumes are shown in the Table below in thousands of decatherms per day (MDth/d):

	Minimum Capacity Holding (MDth/d)	Maximum Capacity Holding (MDth/d)
APR 2020 – OCT 2020	618	811
NOV 2020 – FEB 2021	772	888 1,251
MAR 2021	772 618	888 1,251

This submittal would not increase any current rate or charge, cause the withdrawal of service, or conflict with any rate schedule or rule.
