Public Utilities Commission of the State of California

Subject: Proposed Methodology for Estimating Greenhouse (GHG) Emissions Reductions for Certain Biomethane Projects Eligible for Incentives.

Purpose

Pursuant to Decision (D.) 20-12-031 *Adopting the Standard Renewable Gas Interconnection and Operating Agreement* Ordering Paragraph (OP) 10, Pacific Gas and Electric Company (PG&E), Southern California Gas Company (SoCal Gas), San Diego Gas and Electric Company (SDG&E), and Southwest Gas Corporation (SWG) (“Joint Utilities”) submit this Tier 2 Advice Letter to propose a mutually acceptable method for estimating GHG emissions reductions for certain biomethane projects.

Background

On December 17, 2020, the California Public Utilities Commission (CPUC or the Commission) approved D.20-12-031 (Decision or the Decision). OP 10 states:

“Pacific Gas and Electric Company, Southwest Gas Corporation, Southern California Gas Company, and San Diego Gas & Electric Company must report to CARB on the use of auction proceeds for the biomethane monetary incentive fund in accordance with the Cap-and-Trade Regulation. To ensure uniform reporting to CARB on annual GHG emission reductions attributable to the use of the auction proceeds spent during the previous calendar year per section 95893(e)(4)(B) of the Cap-and-Trade Regulation, the Joint Utilities shall jointly

file a Tier 2 Advice Letter no later than three months from the date of adoption of this decision establishing a mutually acceptable method for estimating GHG emission reductions resulting from biomethane projects that interconnect to the respective gas pipeline systems after receiving funding from Cap-and-Trade allowance proceeds set aside for the monetary incentive program. The Joint Utilities are authorized to require GHG emission reduction data from recipients of Cap-and-Trade auction proceeds.”

Discussion of GHG Emission Reduction Methodologies

Dairy Biomethane Projects:

In D.17-12-004, *Decision Establishing Implementation and Selection Framework to Implement the Dairy Biomethane Pilots Required By Senate Bill 1383*, the CPUC adopted a GHG emissions reduction estimation methodology.¹ There, the CPUC required the Dairy Pilot projects to use one of two GHG emission reduction estimation methodologies:

- 1) ARB Livestock Projects Compliance Offset Protocol
(<https://www.arb.ca.gov/cc/capandtrade/protocols/livestock/livestock.htm>); or
- 2) FY 16/17/CDFR Dairy Digester Research and Development Program Draft Quantification Methodology
(https://www.arb.ca.gov/cc/capandtrade/auctionproceeds/cdfa_draftqm).

The California Air Resource Board (CARB) is “responsible for providing guidance on estimating the GHG emission reductions and co-benefits from projects receiving monies from the Greenhouse Gas Reduction Fund (GGRF). This guidance includes quantification methodologies, co-benefit assessment methodologies and benefit calculator tools.”² Adoption of either of these proposed methodologies would promulgate a reasonable approach and ensure consistency with the CARB protocols. Additionally, adopting consistent protocols will ensure alignment with GHG emission reduction estimation methodologies for dairy pilot projects approved in D.17-12-004 and other dairy biomethane projects eligible for receiving incentives from cap and trade auction proceeds approved in D.20-12-031.

The Joint Utilities support using either of these GHG emission reduction methodologies for estimating GHG emission reductions resulting from dairy biomethane projects that interconnect to Joint Utilities’ respective gas pipeline systems after receiving funding from Cap-and-Trade allowance proceeds set aside for the monetary incentive program.

² CARB, “Quantification Methodology” California Department of Resources Recycling and Recovery Organics Programs, California Climate Investments, June 15, 2020.
https://ww2.arb.ca.gov/sites/default/files/classic/cc/capandtrade/auctionproceeds/calrecycle_or_ganics_finalqm_6-15-20.pdf

Landfill Sourced Biomethane Projects:

For landfill-sourced biomethane, the Joint Utilities propose using the Environmental Protection Agency's (EPA's) Landfill Gas Energy Benefits Calculator: <https://www.epa.gov/lmop/landfill-gas-energy-benefits-calculator>.

Water Resource Recovery Facilities:

For biomethane produced at Water Resource Recovery Facilities the Joint Utilities propose using the Co-Digestion of Organics at Wastewater Treatment Plants Producing Biofuels or Bioenergy (Equation 17) in CARB's "Quantification Methodology - California Department of Resources Recycling and Recovery Organics Programs": https://ww2.arb.ca.gov/sites/default/files/classic/cc/capandtrade/auctionproceeds/calrecycle_organics_finalqm_6-15-20.pdf

Tariff Revisions

The submittal would not increase any current rate or charge, cause the withdrawal of service, or conflict with any rate schedule or rule.

Protests

Anyone wishing to protest this submittal may do so by letter sent via U.S. mail, facsimile or E-mail, no later than **April 6, 2021**, which is 20 days after the date of this submittal. Protests must be submitted to:

CPUC Energy Division
ED Tariff Unit
505 Van Ness Avenue, 4th Floor
San Francisco, California 94102

Facsimile: (415) 703-2200
E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest shall also be sent to the Joint Utilities either via E-mail or U.S. mail (and by facsimile, if possible) at the addresses shown below on the same date it is mailed or delivered to the Commission:

For PG&E: Erik Jacobson
Director, Regulatory Relations
c/o Megan Lawson
Pacific Gas and Electric Company

77 Beale Street, Mail Code B13U
P.O. Box 770000
San Francisco, CA 94177
Facsimile: (415) 973-3582
E-mail: PGETariffs@pge.com

For SoCal Gas: Ray B. Ortiz
Tariff Manager – GT14D6
555 West Fifth Street
Los Angeles, CA 90013-1011
Facsimile: (213) 244-4957
E-mail: rortiz@socalgas.com

For SDG&E: Attn: Greg Anderson
Regulatory Tariff Manager
8330 Century Park Court, CP31F
San Diego, CA 92123-1548
E-mail: GAnderson@sdge.com and
SDGETariffs@sdge.com

For SWG: Mr. Justin Lee Brown
Senior Vice Present/General Counsel
Southwest Gas Corporation
P.O. Box 98510
Las Vegas, NV 89193-8510
E-mail: justin.brown@swgas.com
Facsimile: (702) 364-3452

Any person (including individuals, groups, or organizations) may protest or respond to an advice letter (General Order 96-B, Section 7.4). The protest shall contain the following information: specification of the advice letter protested; grounds for the protest; supporting factual information or legal argument; name, telephone number, postal address, and (where appropriate) e-mail address of the protestant; and statement that the protest was sent to the utility no later than the day on which the protest was submitted to the reviewing Industry Division (General Order 96-B, Section 3.11).

Effective Date

The Joint Utilities request that this Tier 2 advice letter become effective upon regular notice, **April 16, 2021**, which is 30 calendar days after the date of submittal.

Authorization

This Advice Letter is submitted by PG&E on behalf of, and with the authorization from, SoCalGas, SDG&E, and SWG.

Notice

In accordance with General Order 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list and the parties on the service list for **R.13-02-008**. Address changes to the General Order 96-B service list should be directed to PG&E at email address PGETariffs@pge.com. For changes to any other service list, please contact the Commission's Process Office at (415) 703-2021 or at Process_Office@cpuc.ca.gov. Send all electronic approvals to PGETariffs@pge.com. Advice letter submittals can also be accessed electronically at: <http://www.pge.com/tariffs/>.

ADVICE LETTER SUMMARY

ENERGY UTILITY

MUST BE COMPLETED BY UTILITY (Attach additional pages as needed)

Company name/CPUC Utility No.: Pacific Gas and Electric Company (ID U 39 G)

Utility type:

- ELC GAS WATER
 PLC HEAT

Contact Person: Stuart Rubio

Phone #: (415) 973-4587

E-mail: PGETariffs@pge.com

E-mail Disposition Notice to: SHR8@pge.com

EXPLANATION OF UTILITY TYPE

ELC = Electric GAS = Gas WATER = Water
 PLC = Pipeline HEAT = Heat

(Date Submitted / Received Stamp by CPUC)

Advice Letter (AL) #: 4403-G

Tier Designation: 2

Subject of AL: Proposed Methodology for Estimating Greenhouse (GHG) Emissions Reductions for Certain Biomethane Projects Eligible for Incentives.

Keywords (choose from CPUC listing): Compliance

AL Type: Monthly Quarterly Annual One-Time Other:

If AL submitted in compliance with a Commission order, indicate relevant Decision/Resolution #: D.20-12-031

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL: N/A

Confidential treatment requested? Yes No

If yes, specification of confidential information:

Confidential information will be made available to appropriate parties who execute a nondisclosure agreement. Name and contact information to request nondisclosure agreement/ access to confidential information:

Resolution required? Yes No

Requested effective date: 4/16/21

No. of tariff sheets: 0

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed¹: N/A

Pending advice letters that revise the same tariff sheets: N/A

¹Discuss in AL if more space is needed.

Protests and all other correspondence regarding this AL are due no later than 20 days after the date of this submittal, unless otherwise authorized by the Commission, and shall be sent to:
