Advice 4463-G/6247-E

(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

Subject: Addition of January 2021 Wind Events to the Emergency Consumer Protection Plan in Compliance with Decision 19-07-015.

Purpose

In compliance with Decision (D.)19-07-015, Pacific Gas and Electric Company (PG&E) is adding the customers impacted by the January 2021 Wind Events in Madera and Mariposa Counties to PG&E's Emergency Consumer Protection Plan, thereby making these customers eligible for the measures under this plan. The inclusion of these customers to PG&E's Emergency Consumer Protection Plan is in response to Governor Newsom's declaration of a State of Emergency on June 22, 2021, for the January 2021 Wind Events.

Background

PG&E established a series of billing and service modifications, and disaster relief to support customers recovering from the immediate aftermath of the October 2017 Northern California Wildfires.¹ The measures included in PG&E's Emergency Consumer Protection Plans were adopted in Advice 3914-G-A/5186-E-A, effective December 22, 2017 in compliance with California Public Utilities Commission (CPUC or Commission) Resolution M-4833, *Emergency Authorization and Order Directing Utilities to Implement Emergency Consumer Protections to Support Residential Customers of the October 2017 California Wildfires*.

On July 11, 2019, the Commission issued D.19-07-015, adopting an emergency disaster relief program for utility customers. The emergency disaster relief program is designed to ensure that California utility customers who experience a housing or financial crisis due to a disaster, keep vital utility services and receive financial support in the wake of a disaster. Ordering Paragraph 2 of D.19-07-015 states that the utilities must submit a Tier 1 Advice Letter within 15 days of the Governor's or President of the United States'

¹ Advice 5168-E and Advice 3914-G-A/5186-E-A.

emergency proclamation reporting compliance with implementing the mandated emergency disaster relief customer protections and outreach activities.

On June 22, 2021, Governor Newsom issued an Emergency Proclamation for Madera and Mariposa Counties due to the wind events beginning on or about January 18, 2021. Wind speeds in excess of 80 miles per hour resulted in power outages and caused significant damage to critical infrastructure, including downed power lines and poles, downed trees, road closures and damage to roads in Madera and Mariposa counties.

In compliance with OP 2 of D.19-07-015, PG&E is seeking in this advice letter to extend the eligibility of PG&E's Emergency Consumer Protection Plan to include residential and non-residential² customers impacted^{3,4} by the January 2021 Wind Events in Madera and Mariposa Counties. PG&E is unaware of any customer being "red-tagged"⁵ or evacuated because of the wind event and due to the timing of the Emergency Proclamation, only the following measures of the Emergency Consumer Protection Plan will be applicable to customers impacted by the January 2021 Wind Events in Madera and Mariposa Counties:

- Offer favorable payment plan as needed to impacted customers, including customers with employment impacted by a disaster (Electric Rule 11).
- Offer Low income support measures (Electric Rule 19.1, 19.2 and 19.3).

If PG&E receives additional information on customers being red-tagged or evacuated during the January 2021 Wind Event, PG&E will make available the other applicable measure under the Emergency Consumer Protection Plan as defined in Electric and Gas Rule 1.

These measures will be extended to applicable customers for a period of twelve months commencing from the date that Governor Newsom issued the State of Emergency proclamation (June 22, 2021). In addition, key consumer protections are already in place due to the COVID-19 pandemic protections provided for in Resolution M-4842⁶, as further

² Non-residential customers include any customer that is not residential (e.g. commercial, industrial, agricultural, etc.)

³ For these types of wind events, PG&E does not receive the same CalFIRE perimeter data that assists with identifying customer premises impacted by fires. PG&E attempts to identify impacted customers wherever possible and also extends protections to any customer that contacts PG&E and states that they have been impacted.

⁴ Pursuant to OP-24 of Decision 19-05-037, the bill payment arrangements measure under the Emergency Consumer Protection Plan is also extended to customers whose employment is impacted by wildfires.

⁵ Red-tagged customers have homes or businesses that are unserviceable because of the disaster and as applicable may be afforded certain emergency customer protections pursuant to Gas and Electric Rule 1.

⁶ PG&E's Advice Letter 4244-G-B/5816-E-B.

extended in Resolution M-4849⁷, for all residential and small business customers within PG&E's service territory.⁸

In addition, PG&E has made minor revisions to the Emergency Consumer Protection Plan in both Gas and Electric Rule 1 to clean-up typographical errors and to update language to provide additional information that has been previously approved. The revisions are either non-substantive editorial changes to the text of a tariff or revisions in compliance with specific requirements of a statute or Commission order

Tariff Revisions

PG&E proposes the following revisions to its gas and electric tariffs:

- **Electric Rule 1, *Definitions*** – Emergency Consumer Protection Plan
 - Pursuant to Decision 19-07-015, added “or the President of the United States” to the section header. A state of emergency proclamation issued by the President of the United States is included in the description but was inadvertently omitted in the section header. The section header now reads: “State of emergency proclamation issued by the Governor of California or the President of the United States.”
 - Extend definition for “Emergency Consumer Protection Plan” to include applicable customers impacted by the January 2021 Wind Event in Madera and Mariposa counties.
 - Added Advice Letter column to table to help identify the advice letter where the extension of the PG&E's Emergency Consumer Protection Plan for a given event was approved.
 - Correct typo in one of the dates in the table.
- **Electric Preliminary Statement Part HG, *Emergency Consumer Protections Memorandum Account - Electric (ECPMA-E)*** –
 - Extend “Purpose” section to include applicable customers impacted by the January 2021 Wind Events.

⁷ PG&E's Advice Letter 4414-G-A/6142-E-A

⁸ Pursuant to Resolution M-4849, these COVID-19 protections are set to expire on June 30, 2019. However, the Commission in Decision 21-06-036 in Rulemaking 21-02-014 extended the moratorium on disconnections for all residential and small business customers until September 30, 2021.

- **Gas Rule 1, *Definitions*** – Emergency Consumer Protection Plan
 - Pursuant to Decision 19-07-015, added “or the President of the United States” to the section header. A state of emergency proclamation issued by the President of the United States is included in the description but was inadvertently omitted in the section header. The section header now reads: “State of emergency proclamation issued by the Governor of California or the President of the United States.”
 - Extend definition for “Emergency Consumer Protection Plan” to include applicable customers impacted by the January 2021 Wind Event in Madera and Mariposa counties.
 - Added Advice Letter column to table to help identify the advice letter where the extension of the PG&E’s Emergency Consumer Protection Plan for a given event was approved.
 - Correct typo in one of the dates in the table.
- **Gas Preliminary Statement Part EC, *Emergency Consumer Protections Memorandum Account - Gas (ECPMA-G)*** –
 - Extend “Purpose” section to include applicable customers impacted by the January 2021 Wind Events.

INDIVIDUAL METERING: Where PG&E installs a separate service and meter for each individual residence, apartment dwelling unit, mobilehome space, store, office, etc.

INDUSTRIAL USE: Services to Customers engaged primarily in a process which creates or changes raw unfinished materials into another form or product. Industrial use is further defined as uses in the categories falling under Division B, Mining, Division C, Construction, and Division D, Manufacturing in the Standard Industrial Classification Manual issued by the Executive Office of the President, Office of Management and Budget.

INTERSTATE TRANSPORTATION: Transportation of natural gas on a pipeline system under the regulation of the Federal Energy Regulatory Commission.

INTRASTATE TRANSPORTATION: Transportation of gas on the PG&E system.

LIQUEFIED PETROLEUM GAS (LPG): A gas containing certain specific hydrocarbons (such as butane or propane) which are gaseous under ambient atmospheric conditions, which can be liquefied under moderate pressure at normal temperatures.

LOCAL TRANSMISSION SYSTEM: The term Local Transmission System includes the pipeline used to accept gas from the Backbone Transmission System, and transport it to the Distribution System. For PG&E, the Local Transmission System consists of all numbered (i.e., named) pipelines that are not considered part of the Backbone Transmission System, and Distribution Feeder Mains (DFMs), with a maximum operating pressure of greater than 60 (sixty) pounds per square inch.

MAILED: A communication sent by electronic means or enclosed in a sealed envelope, properly addressed and deposited in any U.S. Post Office box, postage prepaid, or unless otherwise prescribed in California Public Utility Code §779.1 or by the CPUC⁴.

MAIN EXTENSION: The length of main and related facilities required to move gas from the existing facilities to the point of connection with the service piping.

⁶ Public Utilities Code §779.1 requires PG&E to provide a mailed, prepaid notice to customers of potential disconnection due to nonpayment at least 10 days prior to the proposed termination. In addition, pursuant to D.20-06-003, OP 15, PG&E will provide disconnection notices via email to customers who have opted to receive electronic communications.

ELECTRIC RULE NO. 1
DEFINITIONS

Sheet 16

ENERGY SUPPLY OR PROCUREMENT SERVICES: Includes, but is not limited to, procurement of electric energy; all scheduling, settlement, and other interactions with Scheduling Coordinators, and the ISO; all ancillary services and congestion management. (L)

ENERGY SERVICE PROVIDER (ESP): An entity who provides electric supply services to Direct Access Customers within PG&E's service territory. An ESP may also provide certain metering and billing services to its DA Customers as provided for within these tariffs. (L)

FEDERAL ENERGY REGULATORY COMMISSION (FERC): Federal agency with jurisdictional responsibilities over electric transmission service and electric sales for resale.

GENERATION CUSTOMER: Any PG&E (electric customer with electric generation facilities (including back-up generation in parallel with PG&E) on the customer's side of the interconnection point.

HIGH RISE BUILDING: A multi-story, multi-tenant building located on single premises usually comprised of three or more stories and equipped with elevators.

HOURLY PRICING OPTION: This option is suspended.

INDEPENDENT SYSTEM OPERATOR (ISO): The California Independent System Operator Corporation, a state-chartered, non-profit corporation that controls the transmission facilities of all participating transmission owners and dispatches certain generating units and loads. The ISO is responsible for the operation and control of the statewide transmission grid.

INDIVIDUAL METERING: The deployment of a separate service and meter for each individual residence, apartment dwelling unit, mobilehome space, store, office, etc.

INTERRUPTION: Unscheduled disruption of power deliveries to one or more Customers resulting from transmission or distribution capacity shortages.

KILOWATT: 1,000 watts; a watt is a unit of electrical power equal to a current of one ampere under one volt of pressure.

KILOWATT-HOUR: 1,000 watts, or one (1) kilowatt of electricity used for one hour.

LOAD PROFILES: An approximation of a Customer's electric usage pattern as approved by the Commission for certain purposes set forth in PG&E's tariffs.

LOW INCOME RATE PAYER ASSISTANCE: See California Alternate Rates for Energy.

ELECTRIC RULE NO. 1
DEFINITIONS

Sheet 17

MAILED: A communication sent by electronic means or enclosed in a sealed envelope, properly addressed and deposited in any U.S. Post Office box, postage prepaid or unless otherwise prescribed in California Public Utility Code §779.1 or by the CPUC⁸.

MANDATED SAFETY AND LEGAL NOTICES: Mandated notices include notices required to be sent to all PG&E customers by law and include, but are not limited to, notices of the type, and with the frequency, that PG&E has used, and continues to use, to discharge legal obligations, such as quarterly Proposition 65 notices, quarterly notices of rate options applicable to each customer class, notices of rate applications, and notices of public assistance and low income programs.

MASTER-METERING: Where PG&E installs one service and meter to supply more than one residence, apartment dwelling unit, mobilehome space, store, office, etc.

METER: The instrument that is used for measuring the electricity delivered to the Customer.

MIXED USE: Existing customers with a mix of residential and non-residential uses (mixed use) will be presumed to be on an applicable rate. However, if the predominate use is demonstrated to be more than 50% of the designated billing classification (residential or non-residential), then the rate may be changed to the billing classification applicable to the predominate use if the billing classification is consistent with the local governmental entity's treatment of the Premise as residential or non-residential (e.g. commercial). For purposes of determining predominate use, all common area usage will be considered residential usage regardless of whether the customer has elected a residential or non-residential billing classification for that common area usage under PG&E's tariffs. To the extent a Residential Dwelling Unit has both gas and electric service, all of the services must be served under the same billing classification. A customer however, has the obligation to notify PG&E if the billing classification is no longer consistent with the predominant use on the meter. PG&E has no obligation to change rates until such notification is received. Rate change obligations shall be prospective only unless PG&E failed to act on a customer notification in a timely fashion. If a notification occurs and there is a failure to act on PG&E's part, then such failure to act will be treated as a billing error under Rule 17.1

¹² Public Utilities Code §779.1 requires PG&E to provide a mailed, prepaid notice to customers of potential disconnection due to nonpayment at least 10 days prior to the proposed termination. In addition, pursuant to D.20-06-003, OP 15, PG&E will provide disconnection notices via email to customers who have opted to receive electronic communications.
