Advice 4536-G

(Pacific Gas and Electric Company U 39 G)

Public Utilities Commission of the State of California

Subject: Schedule G-CPX -- Crossover Gas Procurement Service to Core End-Use Customers for Rates Effective December 10, 2021

Pacific Gas and Electric Company ("PG&E") hereby submits for submittal revisions to its gas tariffs. The affected tariff sheets are listed on the enclosed Attachment 1.

Purpose

The purpose of this submittal is to revise monthly crossover rates under Schedule G-CPX--*Crossover Gas Procurement Service to Core End-Use Customers*, effective **December 10, 2021**. Schedule G-CPX crossover rates change on a monthly basis on the tenth calendar day of each month.

Background

In accordance with Decision ("D.") 03-12-008, Schedule G-CPX applies to gas customers that request to be reclassified from noncore to core status. Such customers will pay the applicable crossover procurement rate under Schedule G-CPX for the first twelve (12) regular monthly billing periods during which they take core gas procurement service from PG&E. Crossover customers will pay the customer charge and transportation charge as specified in their applicable core schedule. After the twelfth regular monthly billing period, Schedule G-CPX will no longer apply.

Per Advice Letter 4338-G, approved February 12, 2021, PG&E is revising the G-CPX – Crossover Gas Procurement calculation.

Schedule G-CPX Rate

As adopted in D.03-12-008 and revised by Advice Letter 4338-G, the crossover rate is the higher of: (1) the posted monthly core procurement rate, including backbone transmission volumetric charges, as shown in Schedule G-CP; or (2) the higher of the Monthly Malin Index or the Monthly SoCal Border Index, plus the per unit cost of backbone transmission volumetric service included in the posted monthly procurement

rate, the core brokerage fee, an allowance for core in-kind shrinkage per gas Rule 21, and all other procurement rate components included in the posted monthly core procurement rate. The crossover procurement rates reflect only the higher of the core weighted average cost of gas ("WACOG"), the Monthly Malin Index or the Monthly SoCal Border Index (both including the per unit cost of backbone transmission volumetric charges), with other procurement costs equivalent to those for otherwise-applicable core procurement rates.¹

For the period from **December 10, 2021, through January 9, 2022**, the following Schedule G-CPX rates will be in effect:

<u>Schedule G-CPX Rates</u>	<u>Per Therm</u>
Small Commercial Customers (Schedule G-NR1)	\$0.90905
Large Commercial Customers (Schedule G-NR2)	\$0.86706
Natural Gas Vehicle Customers (Schedule G-NGV1)	\$0.86205

Workpapers showing the calculation of these rates are included in this submittal as Attachment 2.

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.
